

Apple Portable StyleWriter

Features

Size

- Fits easily on a desktop or in a briefcase
- Weighs just 4.5 lbs.

Print quality

- 360 dots-per-inch (dpi) resolution for high-quality text and graphics
- 39 scalable fonts for printing a wide range of styles and sizes

Versatility

- Allows printing on envelopes, labels, transparencies, and letterhead or plain paper
- Operates horizontally or vertically, allowing it to be used in confined spaces
- Optional automatic sheet feeder available

Convenience

- Connects easily with any PowerBook, PowerBook Duo, or Macintosh computer
- Six front-panel buttons control basic operations
- Battery and recharger, ink cartridge, fonts, drivers and cables included for fast, easy set up

The Apple Portable StyleWriter is the printer that goes anywhere with Apple PowerBook computers. It delivers high-resolution output, versatile paper handling on media of different types and sizes, and smooth, quiet performance—all in a convenient package that weighs just 4.5 pounds and fits inside a briefcase.

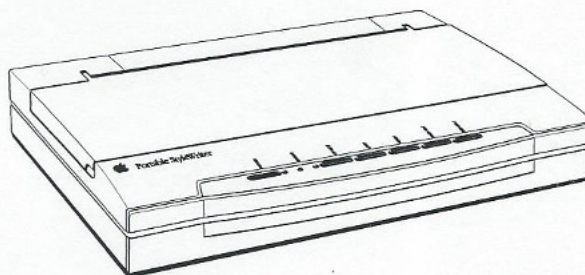

With its light-weight, all-in-one design, the Portable StyleWriter is easy to use anywhere: on the plane, in a conference room, at a hotel, at home, or in the office. It prints in a horizontal or vertical position, so you can use it even in the most confined spaces.

The Portable StyleWriter offers 360-dots-per-inch print resolution, the same high quality provided by the StyleWriter and StyleWriter II printers. Its operation is whisper-quiet, and it works with any PowerBook, PowerBook Duo, or Macintosh computer, using a rechargeable battery or a standard power source.

The Portable StyleWriter comes with 39 TrueType scalable fonts for high-quality text in a wide range of styles and sizes, so your documents print exactly as they appear. And it prints on a wide selection of media, including envelopes, labels, transparencies, and letterhead or plain paper.

To simplify paper handling, a manual paper feeder is built in. And an optional 50-sheet automatic sheet feeder makes it easy to convert your Portable StyleWriter to a full-featured desktop printer.

The Portable StyleWriter is easy to set up and use. Everything you need to get started—including a battery and a battery recharger, ink, fonts, drivers, and printer cables—comes in the box. And it uses the standard StyleWriter ink cartridge, so replacement ink is readily available.

Apple Portable StyleWriter

Ordering Information

Apple Portable StyleWriter

Order No. M1734LL/A

- Apple Portable StyleWriter printer
- Apple Portable StyleWriter ink cartridge
- Printer cable
- Portable StyleWriter accessory kit
