Small sized thatch granary on platform under roof, mud

Keywords: mud, farmer, medium, store, granary, basket, thatch, roof, postharvest treatment

Author: GTZ

Location: Thailand, East Asia

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Small sized mud granary, raised under grass roof

Keywords: mud, farmer, medium, store, granary, grass, roof, postharvest treatment

Author: GTZ

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Small sized mud granary, horizontal and square

Keywords: mud, farmer, medium, store, granary, horizontal, postharvest treatment

Author: GTZ

Location: Ethiopia, East Sahelian Africa

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Underground storage or granary

Keywords: ground storage, bakar, granary, postharvest treatment, traditional

Author: GTZ

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Underground storage or granary, close up

Keywords: ground storage, bakar, granary, postharvest treatment, traditional

Author: GTZ

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Granary in cave

Keywords: ground storage, granary, rock, cave, postharvest treatment, traditional

Author: GTZ

Location: Yemen, Near East

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Underground granary, Bakar

Keywords: ground storage, granary, postharvest treatment, traditional

Author: GTZ

Location: Ethiopia, East Sahelian Africa

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Improved granary, cement brick, roof and ventilation

Keywords: store, building, improved, ventilation, brick, cement, postharvest treatment

Author: GTZ

Location: Yemen, Near East

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Village warehouse, cement brick, roof and ventilation

Keywords: store, building, improved, ventilation, brick, cement, mud, postharvest treatment, warehouse

Author: GTZ

Location: Burkina Faso, West Sahelian Africa

Commodities: cereals and grains, grains, cereals,
Topic: Storage protection and postharvest physiology,

Granary, cement with roof in Europe

Keywords: store, building, brick, cement, postharvest treatment

Author: GTZ

Location: Portugal, North Western Europe

Commodities: cereals and grains, grains, cereals,
Topic: Storage protection and postharvest physiology,

Square brick or stone granary

Keywords: store, building, brick, postharvest treatment

Author: GTZ

Location: Morocco, West Sahelian Africa

Commodities: cereals and grains, grains, cereals,
Topic: Storage protection and postharvest physiology,

Metal silo raised off ground

Keywords: metal, silo, raised, postharvest treatment

Author: GTZ

Location: Burkina Faso, West Sahelian Africa

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Metal silo raised off ground

Keywords: metal, silo, raised, postharvest treatment

Author: GTZ

Location: Togo, West Moist Africa

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Small raised mud smeared granary with grass roof

Keywords: mud, raised, thatch, grass, roof, postharvest treatment, traditional

Author: GTZ

Location: Benin, West Moist Africa

Commodities: cereals and grains, grains, cereals,
Topic: Storage protection and postharvest physiology,

Improved medium sized granary of brick and plaster

Keywords: medium, granary, store, brick, ventilation,
silo, postharvest treatment

Author: GTZ

Commodities: cereals and grains, grains, cereals,
Topic: Storage protection and postharvest physiology,

Medium sized concrete silo, granary with condensation

Keywords: medium, granary, store, brick, ventilation,
concrete, silo, postharvest treatment

Author: GTZ

Commodities: cereals and grains, grains, cereals,
Topic: Storage protection and postharvest physiology,

Raised hut granary with metal roof

Keywords: medium, granary, store, hut, metal, thatch, raised, postharvest treatment, traditional

Author: GTZ

Location: Bangladesh, South Asia

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Traditional raised hut granary with metal roof in Africa

Keywords: medium, granary, store, hut, metal, thatch, raised, traditional, postharvest treatment

Author: GTZ

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Raised hut granary with wood roof on concrete platform

Keywords: medium, granary, store, hut, thatch, raised, postharvest treatment

Author: GTZ

Location: Thailand, East Asia

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Village warehouse suitable for fumigation (Type 'Cacaveli', 25 t)

Keywords: medium, granary, store, cement, concrete, postharvest treatment, warehouse, Cacaveli

Author: GTZ

Location: Togo, West Moist Africa

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Village warehouse suitable for fumigation (Type 'Cacaveli', 50 t)

Keywords: medium, granary, store, cement, concrete, postharvest treatment, warehouse, Cacaveli

Author: GTZ

Location: Togo, West Moist Africa

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Narrow crib for maize cob storage

Keywords: crib, granary, store, metal, roof, traditional, postharvest treatment

Author: GTZ

Location: Togo, West Moist Africa

Commodities: cereals and grains, grains, maize, cereals, cob,

Topic: Storage protection and postharvest physiology,

Experimental granary made of sticks

Keywords: small, raised, granary, store, wood, postharvest treatment, traditional

Author: Dessie, FAO

Location: Ethiopia, East Sahelian Africa

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Inside wooden store

Keywords: raised, granary, store, wood, cob, maize, postharvest treatment, traditional, maize

Author: GTZ

Location: Costa Rica, Central America & Mexico

Commodities: cereals and grains, grains, maize, cereals, cob,

Topic: Storage protection and postharvest physiology,

Rat proof maize crib

Keywords: rat, proof, maize, crib, raised, grass, roof, postharvest treatment, traditional

Author: GTZ

Commodities: cereals and grains, grains, maize, cereals,

Topic: Storage protection and postharvest physiology,

Raised platform for maize cobs

Keywords: maize, crib, raised, cob, traditional, postharvest treatment

Author: GTZ

Location: Benin, West Moist Africa

Commodities: cereals and grains, grains, maize, cereals, cob,

Topic: Storage protection and postharvest physiology,

Raised platform for maize cobs (Ethiopia, Togo)

Keywords: maize, crib, raised, cob, traditional, postharvest treatment, Ethiopia, Togo

Author: GTZ

Commodities: cereals and grains, grains, maize, cereals, cob,

Topic: Storage protection and postharvest physiology,

Large, industrial hangar storage

Keywords: Large, industrial, store, top loading, machine,

postharvest treatment, hangar

Author: GTZ

Location: Australia, North Africa

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Temporary tent store by Red Cross

Keywords: tarpaulin, temporary, barrack, tent, store, granary, postharvest control

Author: Dessie, Rubb Hall

Location: Ethiopia, East Sahelian Africa

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Large concrete store sealed for fumigation

Keywords: fumigation, store, sealing, windows, large, concrete, postharvest control

Author: GTZ

Location: Senegal, West Sahelian Africa

Commodities: cereals and grains, grains, cereals,
Topic: Primary processing of food commodities (e.g. cleaning, drying, milling, etc.),

Improved whitewashed brick store

Keywords: fumigation, store, sealing, traditional, small, postharvest control

Author: GTZ

Location: Niger, West Moist Africa

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Grain moisture meter

Keywords: moisture, meter, measuring, grain, postharvest control

Author: GTZ

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Sealing with soil stack of bags with plastic for fumigation

Keywords: fumigation, plastic, sheet, sealing, stack, bags, postharvest control

Author: GTZ

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Sealing bag stack with grain bags risks reinfestation

Keywords: sealing, fumigation, bags, plastic, grain bags, reinfestation, postharvest control

Author: GTZ

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Sealing bag stack with glue and hard paper for fumigation

Keywords: sealing, fumigation, bags, plastic, glue, paper, reinfestation, postharvest control

Author: GTZ

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Fumigation chambers for quarantine

Keywords: fumigation, chambers, quarantine, postharvest control

Author: GTZ

Location: Senegal, West Sahelian Africa

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Fumigation chambers for quarantine

Keywords: fumigation, chambers, quarantine, postharvest control

Author: GTZ

Location: Germany, Central and Eastern Europe

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Fumigation chambers for quarantine

Keywords: fumigation, chambers, quarantine, postharvest control

Author: GTZ

Location: Morocco, West Sahelian Africa

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Fumigation chambers for quarantine

Keywords: fumigation, chambers, quarantine, postharvest control

Author: GTZ

Location: Morocco, West Sahelian Africa

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Sealing freight train wagon for fumigation

Keywords: sealed, train, wagon, fumigation, quarantine,

postharvest control

Author: GTZ

Location: Germany, Central and Eastern Europe

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Sealing ship ventilation openings for fumigation

Keywords: sealed, ship, fumigation, quarantine, ventilation, postharvest control

Author: GTZ

Location: Germany, Central and Eastern Europe

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Sealing door of store for fumigation

Keywords: sealed, door, fumigation, quarantine, ventilation, store, postharvest control

Author: GTZ

Location: Benin, West Moist Africa

Commodities: cereals and grains, grains, cereals,
Topic: Storage protection and postharvest physiology,

Sealing store for fumigation

Keywords: sealed, fumigation, quarantine, store,
postharvest control

Author: GTZ

Location: Benin, West Moist Africa

Commodities: cereals and grains, grains, cereals,
Topic: Storage protection and postharvest physiology,

Sealing door of store for fumigation

Keywords: sealed, fumigation, quarantine, store, door,
tape, postharvest control

Author: GTZ

Location: Senegal, West Sahelian Africa

Commodities: cereals and grains, grains, cereals,
Topic: Storage protection and postharvest physiology,

Sealing bag stack for fumigation with fumigation sheet, tape, glue

Keywords: sealed, fumigation, quarantine, bag, tape, paper, glue, postharvest control

Author: GTZ

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Sealing bag stack for fumigation with plastic sheets and sand bags

Keywords: sealed, fumigation, quarantine, bag, sand bags, postharvest control

Author: GTZ

Location: Cape Verde, West Sahelian Africa

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Sealing bag stack for fumigation with plastic sheet, tape and glue

Keywords: sealed, fumigation, quarantine, bag, glue, tape, postharvest control

Author: GTZ

Location: Ethiopia, East Sahelian Africa

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Sealing bag stack for fumigation with plastic sheet, tape and glue

Keywords: sealed, fumigation, quarantine, bag, glue, tape, postharvest control

Author: GTZ

Location: Ethiopia, East Sahelian Africa

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Grain thermometer

Keywords: grain, thermometer, temperature,

postharvest control

Author: GTZ

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Sealing a barge with plastic sheets

Keywords: sealing, barge, ship, fumigation, plastic, postharvest control

Author: GTZ

Location: Germany, Central and Eastern Europe

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Sealing a stack of bags with plastic outside, Ebli-va trial

Keywords: sealing, fumigation, plastic, stack, outside, postharvest control, trial, Ebli-va

Author: GTZ

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Small clay seed container

Keywords: container, small, ceramic, mud, clay, grain, traditional

Author: GTZ

Location: Benin, West Moist Africa

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Trial with small traditional earthenware container round

Keywords: small, container, lid, ceramic, traditional, earthenware, postharvest treatment

Author: GTZ

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Small traditional earthenware container round

Keywords: small, container, ceramic, traditional, earthenware, postharvest treatment

Author: GTZ

Location: Bangladesh, South Asia

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Small traditional earthenware container

Keywords: small, container, ceramic, traditional, earthenware, square, postharvest treatment

Author: GTZ

Location: Nepal, South Asia

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Small traditional earthenware container round

Keywords: small, container, traditional, earthenware, square, mud, postharvest treatment

Author: GTZ

Location: Ethiopia, East Sahelian Africa

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Traditional earthenware container medium size

Keywords: container, earthenware, traditional, top loading, bottom hole, postharvest treatment

Author: GTZ

Location: Bangladesh, South Asia

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Traditional earthenware container medium size

Keywords: container, earthenware, traditional, top loading, postharvest treatment

Author: GTZ

Location: Niger, West Moist Africa

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Calabash container for grain

Keywords: container, traditional, calabash, postharvest treatment

Author: GTZ

Location: Morocco, West Sahelian Africa

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Detail of wall preparation using reed and mud

Keywords: container, wall preparation, store, postharvest treatment

Author: GTZ

Location: Bangladesh, South Asia

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Raised container for grains using reeds

Keywords: container, reed, store, grain, raised, postharvest treatment, traditional

Author: GTZ

Location: Bangladesh, South Asia

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Large traditional basket for grain storage

Keywords: large, basket, grain, traditional, postharvest treatment

Author: GTZ

Location: Benin, West Moist Africa

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Large traditional basket for grain storage

Keywords: large, basket, grain, traditional, postharvest treatment

Author: GTZ

Location: Bangladesh, South Asia

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Large traditional raised baskets for grain storage

Keywords: large, basket, grain, traditional, raised,

postharvest treatment

Author: GTZ

Location: Benin, West Moist Africa

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

44 gallon drum for grain storage

Keywords: oil, drum, grain, postharvest treatment

Author: GTZ

Location: Costa Rica, Central America & Mexico

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Rat caught in net

Keywords: rat, rodent, net, postharvest control

Author: GTZ

Location: Morocco, West Sahelian Africa

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Rat proofing of roof lacking

Keywords: rat, rodent, roof, proofing, postharvest control

Author: GTZ

Location: Morocco, West Sahelian Africa

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Metal rat guard

Keywords: rat, rodent, guard, metal, postharvest control

Author: GTZ

Location: Morocco, West Sahelian Africa

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Wire mesh in front of ventilation opening against rats

Keywords: rat, rodent, guard, metal, mesh, wire,

postharvest control, ventilation, opening

Author: GTZ

Location: Morocco, West Sahelian Africa

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Proofing doors against entry by rats

Keywords: rat, rodent, guard, metal, door, proofing, postharvest control

Author: GTZ

Location: Morocco, West Sahelian Africa

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Rat droppings on bag

Keywords: rat, rodent, bags, hygiene, droppings, postharvest control

Author: GTZ

Location: Morocco, West Sahelian Africa

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Rat droppings and damage to bag

Keywords: rat, rodent, bags, hygiene, droppings, damage, postharvest control

Author: GTZ

Location: Morocco, West Sahelian Africa

Topic: Storage protection and postharvest physiology,

Wooden box rat baiting station

Keywords: rat, rodent, wooden, box, baiting, station, postharvest control

Author: GTZ

Location: Jordan, Near East

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Wooden box as rat liquid baiting station

Keywords: rat, rodent, wooden, box, baiting, station, liquid, postharvest control

Author: GTZ

Location: Morocco, West Sahelian Africa

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Wooden box as rat station placed near wall

Keywords: rat, rodent, wooden, box, baiting, station, postharvest control

Author: GTZ

Location: Jordan, Near East

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Bamboo tube as rat baiting station

Keywords: rat, rodent, bamboo, baiting, station, tube, postharvest control

Author: GTZ

Location: Jordan, Near East

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Rat causing damage to grain bag

Keywords: rat, rodent, damage, bags, grain, postharvest control

Author: GTZ

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Traditional storage in West Africa, Mandingue Bountoung ethnic group

Millet harvesting, Senegal, 1988

Keywords: Millet, harvesting, Senegal

Author: INPHO

Location: Senegal, Africa

Commodities: cereals and grains, millet, cereals,

Topic: Harvesting, transport and handling of food commodities,

Rice drying, Sngal, Sahel, 1978

Keywords: Rice, drying, Senegal, Sahel

Author: INPHO

Location: Senegal, Africa

Commodities: cereals and grains, rice, grains, cereals,

Topic: Harvesting, transport and handling of food commodities,

Drying of maize cobs, Burkina Faso, Fada N'Gourma, 1978

Keywords: Drying, maize, cobs, Burkina Faso

Author: INPHO

Location: Burkina Faso, Africa

Commodities: cereals and grains, grains, maize, cereals, cob,

Topic: Primary processing of food commodities (e.g. cleaning, drying, milling, etc.),

Drying platform, Senegal, 1988

Keywords: Drying, platform, Senegal

Author: INPHO

Location: Senegal, Africa

Commodities: cereals and grains, grains, cereals,

Topic: Primary processing of food commodities (e.g. cleaning, drying, milling, etc.),

Natural drying of rice, Senegal, Sahel, 1978

Keywords: Drying, natural, rice, Senegal, Sahel

Author: INPHO

Location: Senegal, Africa

Commodities: cereals and grains, rice, grains, cereals,

Topic: Primary processing of food commodities (e.g. cleaning, drying, milling, etc.),

Millet threshing with Bourgoing machine, Senegal, 1990

Keywords: Millet, threshing, Bourgoing, machine, Senegal

Author: INPHO

Location: Senegal, Africa

Commodities: cereals and grains, millet, grains, cereals,

Topic: Harvesting, transport and handling of food commodities,

Threshing rice, Burkina Faso (Mossi tribe), Sahel, 1986

Keywords: Threshing, rice, Burkina Faso, Mossi tribe, Sahel

Author: INPHO

Location: Burkina Faso, Africa

Commodities: cereals and grains, rice, grains, cereals,
Topic: Primary processing of food commodities (e.g. cleaning, drying, milling, etc.),

Millet winnowing, Senegal, 1990

Keywords: Millet, winnowing, cleaning, Senegal

Author: INPHO

Location: Senegal, Africa

Commodities: cereals and grains, millet, grains, cereals,
Topic: Primary processing of food commodities (e.g. cleaning, drying, milling, etc.),

Haoussa Granaries, Niger, 1985

Keywords: Storage, granary, Niger

Author: INPHO

Location: Niger, Africa

Commodities: cereals and grains, grains, cereals,

Topic: Storage protection and postharvest physiology,

Bliva, South Togo, 1986

Keywords: Storage, Bliva, South Togo

Author: INPHO
