

Chart a course to excellence

AIX and RS/6000 professional certification

Experience the future of technology. Strengthen your skills. Broaden your expertise. IBM can help you chart a course to excellence.

Our AIX and RS/6000 professional certifications are designed to validate the skills required by technical professionals working in the powerful and complex environments of IBM® AIX® and IBM RS/6000®.

Certification verifies and builds on your existing skills, helping you to develop and implement comprehensive solutions for your business.

- ★ Technical professionals can validate their experience and expertise
- ★ IBM Business Partners can leverage a highly skilled staff
- ★ Corporate IT managers can realize a more efficient operation
- ★ Customers can feel confident that the job will be done right

Certify today and **reap the rewards.**

Productivity. Profitability. Credibility.

Discover the power of excellence

“Anchor Computer is continually taking advantage of AIX & RS/6000 certifications. The skills that certification training imparts allow our staff to provide expert, timely service and response to our RS/6000 customers. For Anchor, certification ensures that as the technology changes and as we add personnel, we also maintain the depth of knowledge and skill to be experts in the IBM product line.”

–Reginald Joseph
Manager, AIS
Anchor Computer, Ltd

“Believe me, certification makes a difference! I have recently received a very significant salary increase since I achieved my AIX certification. I also have several friends who have received higher salaries after becoming IBM Certified Advance Technical Experts. And I know contractors with AIX certification who get higher rates, too.”

–Kevin Gee
IBM Certified Specialist - RS/6000 SP
IBM Certified Advanced Technical
Expert - RS/6000 AIX

“Dean Tech has leveraged our many AIX certifications to gain business. Dean Tech has always put an emphasis in AIX certification. We have integrated the certification exams into our internal education process, helping to ensure our skills stay up to date. Not only does certification provide our staff a sense of accomplishment but also gives our customers an added level of confidence in our ability to deliver.”

–Brian Dean and Jeff Dean
Dean Technology Associates
IBM Certified Specialist - AIX HACMP
IBM Certified Specialist - RS/6000 SP
IBM Certified Advanced Technical
Expert - RS/6000 AIX

Register for IBM certification today

Certification is obtained by successfully completing exams, which validate the required skills and knowledge.

Experience is an important factor in obtaining certification. IBM offers courses and tools to help you prepare. Sample tests may be taken on the Web using TOPCAT, an online testing tool. Also available on the Web are test objectives and additional test information.
