Net.Commerce Certification Roadmap

IBM

Professional Certification Program from IBM

In today's ever-changing business environment, it's essential to keep pace with complex technologies and products. Most businesses are looking for complete solutions rather than tactical efforts. The Professional Certification Program from IBM offers a business solution for skilled technical professionals seeking to demonstrate their expertise to the world.

The program is designed to validate your skills and demonstrate your proficiency in the latest IBM technology and solutions. In addition, professional certification may help you excel at your job by giving you and your employer confidence that your skills have been tested. You may be able to deliver higher levels of service and technical expertise than noncertified employees and move on a faster career track. Professional certification puts your career in your control.

The Professional Certification Program from IBM has developed new certification role names and roadmaps to guide you in your professional development. These include IBM Certified Developer Associate (IBM CDA), IBM Certified Developer (IBM CD), IBM Certified Specialist (IBM CS), IBM Certified Systems Expert (IBM CSE), IBM Certified Solutions Expert (IBM CSE), IBM Certified Instructor (IBM CI), and IBM Certified Advanced Technical Expert (IBM CATE).
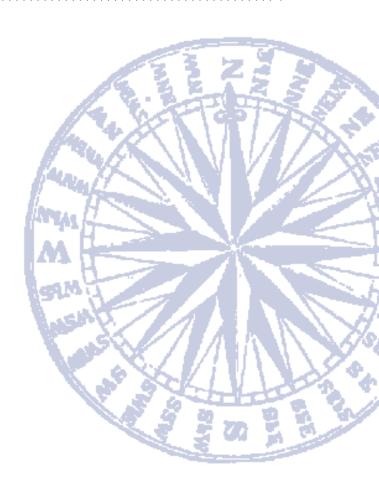

Whether you are a network administrator, systems integrator, network integrator, operator, solution architect, value-added reseller, technical coordinator, sales representative or an educational trainer, you can start charting your course through the Professional Certification Program today!

For more information, visit our web site—http://www.ibm.com/certify

IBM education courses are recommended but not required to take certification exams.

IBM Net.Commerce Certification Roadmap and Test Preparation

IBM Certified Solutions Expert
Net.Commerce Version 3

Certification Requirement: 1 Test

Role Description:

IBM CSE - Net.Commerce Version 3: If you are responsible for the implementation of software/services that provide for secure sales over the Internet using Net.Commerce, this certification may help validate your skills including planning, coordinating, configuring, customizing, and verifying that the implementation meets customer requirements.

Recommended Prerequisites:

- Working knowledge of the following Protocols: Secure Sockets Layer (SSL), Hypertext Transfer Protocol (HTTP), and Hypertext Transfer Protocol Secured (HTTPS)
- Knowledge of TCP/IP
  Note: If you have limited knowledge of TCP/IP, it is recommended that you complete the TCP/IP Architecture course prior to testing.

Core Requirement (1 Test):

Test 451

Planning, Implementing and Supporting the IBM Net.Commerce Version 3 Product

Benefits:

- *Certificate*
- *Wallet-size certificate*
- *Lapel pin*
- *Certification logo*

The information contained in this roadmap (as well as test objectives and sample tests) is available from our website – http://www.ibm.com/certify

Courses for Net.Commerce Certification
