## Highlights

**Provides electronic tax forms that are identical to their IRS preprinted counterparts**

**Features easy-to-use AFP overlay formats**

**Provides significant savings over preprinted tax forms**

**Makes it easy to maintain current versions of forms**

TaxPAC is one offering of the IBM ServicePAC family of Advanced Function Printing\* (AFP\*) services products. TaxPAC provides AFP overlay resources for IRS multi-part tax forms. If you are currently purchasing these forms in preprinted format, significant savings may be realized by utilizing TaxPAC.

Ten of the most commonly used IRS tax forms are available, and are identical page for page with their preprinted counterparts. Each IRS form represents multiple AFP overlays, corresponding to the number of parts in the form.

Customization of forms is available for an extra charge. Customization may include form design, PAGEDEF's, and other specialized services.

In addition, many IRS forms have a number of different formats. If TaxPAC does not match your exact requirements, we can produce your desired forms to order.
