

Professionally-designed electronic IRS tax forms.

TaxPAC

Highlights

Provides electronic tax forms that are identical to their preprinted counterparts

Features easy-to-use AFP overlay formats

Provides significant savings over preprinted tax forms

Makes it easy to maintain current versions of forms

TaxPAC is one offering of the IBM ServicePAC family of Advanced Function Printing™ (AFP™) services products. TaxPAC provides AFP overlay resources for IRS multi-part tax forms. If you are currently purchasing these forms in preprinted format, significant savings may be realized by utilizing TaxPAC.

Ten of the most commonly used IRS tax forms are available, and are identical page for page with their preprinted counterparts. Each IRS form represents multiple AFP overlays, corresponding to the number of parts in the form.

May Be Purchased Separately or as a Set

If you commonly use only a few forms offered in TaxPAC, you may purchase the individual forms rather than the entire package.

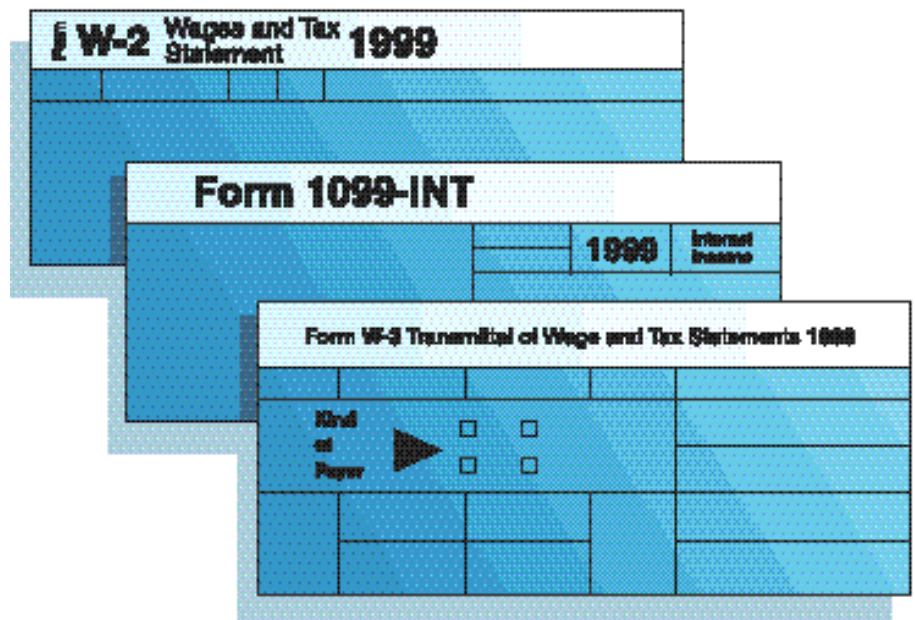

Customization of forms is available for an extra charge. Customization may include form design, PAGEDEF's, and other specialized services.

In addition, many IRS forms have a number of different formats. If TaxPAC does not precisely match your formatting requirements, we can produce the desired forms to order.

Available Forms

The ten forms available are:

- W-2 / Wage and Tax Statement
- W-3 / Transmittal of Wage and Tax Statements
- 1098 / Mortgage Interest Statement
- 1099-A / Acquisition or Abandonment of Secured Property
- 1099-B / Proceeds from Broker and Barter Exchange Transactions
- 1099-DIV / Dividends and Distributions
