

Supplying a range of operational services
for IBM and non-IBM printers.

Hardware Support Services

To be competitive in today's marketplace, you must maximize production and maintain the highest quality levels possible. Getting the most from your printing resources has never been more important. We can help you achieve these goals by providing you with services that allow you to maximize your print capability.

The IBM® Printing Systems Company engineering and services teams are experienced with printers produced by many manufacturers. These professionals help maintain the highest degree of print reliability, availability and quality. This enables you and your staff to focus on other critical tasks.

World-Class Service Offerings

IBM Printing Systems Company offers a wide range of services designed to complement and enhance your IBM maintenance service.

- **Installation Management Services**
Combining our skills and expertise in the print environment, this service enables successful planning, rollout and installation of your print solution.
- **Installation and Disconnection Services**
IBM can unpack, setup and install IBM or non-IBM printers. We can also disconnect, pack and ship any IBM or non-IBM printer.
- **SmoothStart Services**
IBM provides an onsite implementation start-up service designed to accelerate productive use of your IBM print solution. This typically includes installation of hardware and software, configuration, operational customization and integration. This service may be tailored to your individual needs.
- **Inspection Services**
IBM can assess the maintenance status of your printers to determine necessary steps to ensure optimal print operation.
- **Standby Services**
IBM Printing Systems Company Customer Engineers can be dedicated to your account, either onsite or on standby, for critical print jobs.
- **Key Operator Services**
We will provide onsite service to manage your consumable supplies. We will replace them as needed and implement printer cleaning and preventative maintenance procedures to maximize print quality and supply life.
- **Inventory Services**
IBM can provide an accurate inventory analysis (one-time or at regular intervals), complete with serial numbers, models and locations. Unused printers can be collected and stored at your facility or disposed of in a safe manner.
- **Operator Services**
IBM Printing Systems Company can provide training on IBM and non-IBM printers and printer attachments (such as pre- and post-processing equipment). This helps ensure optimal printer performance and seamless service—from operator activity to IBM support and maintenance.
