IBM Infoprint Manager Common Client Readme

The Common Client CD has the following directory structure:

Table 1.

Contents of Common Client CD		
Directory	**Contents**	**Instructions**
colorripd	**colorRipd** program. **colorRipd** is used to print to InfoColor 70 and Infoprint Color 100 printers by managing the rips when transferring the ripped data to the printers.	Select Setup.exe
drivers	The AFP print drivers for Windows 9x, Windows NT, and Windows 2000. **afp** subdirectory that contains the **Win9x**, **WinNT**, and **Win2000** subdirectories and a **readme**.	Follow the instructions in the **readme** in the **afp** sub-directory on how to unpack the drivers in the **Win9x**, **WinNT**, and **Win2000** subdirectories.
ipgui	**Infoprint Manager Administration Gui** and **Infoprint Manager Operations Gui**. **admin** subdirectory contains **english**, **french**, **german**, **italian**, **japanese**, and **spanish** subdirectories. **oper** subdirectory contains **danish**, **english**, **finnish**, **french**, **german**, **italian**, **japanese**, **norwegian**, **schinese**, **spanish**, **swedish**, and **tchinese** subdirectories. You use the Infoprint Manager Administration and Operations GUIs for most of your day-to-day Infoprint Manager tasks. For more information on the tasks, refer to the Help associated with the Infoprint Manager Administration and Operations GUIs.	Follow the installation instructions in the **readme** file in the **ipgui** directory.
jre	The executable that installs the **IBM Cross Platform Technologies for Windows (CPT) version 2.0 Runtime Environment** for use with Infoprint Manager Notifications and the Infoprint Manager Administration and Operations GUIs.	Follow the installation instructions provided in the readme files for the Infoprint Manager GUIs and Infoprint Manager Notifications.
lfclient	**Lightning Fax Client**, which is only used with Infoprint Manager for AIX, for fax support.	Select **Setup.exe**.
notification	**Infoprint Manager Notifications** client and readme. **Infoprint Manager Notifications** enable a system to receive notification messages from Infoprint Manager server systems.	Follow the installation instructions in the **readme** file in the **notification** directory.

Table 1. (continued)

| select | The **Infoprint Select client**.

The **win** subdirectory contains an English readme.htm file and **danish**, **english**, **finnish**, **french**, **german**, **italian**, **japanese**, **norwegian**, **schinese**, **spanish**, **swedish**, and **tchinese** subdirectories.

The OS2 subdirectory contains readmes for each of twelve languages (the English readme is available as a flat file and as an **htm** file) and **danish**, **english**, **finnish**, **french**, **german**, **italian**, **japanese**, **norwegian**, **schinese**, **spanish**, **swedish**, and **tchinese** subdirectories.

Use the **Infoprint Select client** client to print files from familiar workstation applications across your network. | Follow the installation instructions in the **readme** file in the **win** sub-directory. |

For the most current information on these products, visit the IBM Printing Systems web site at http://www.ibm.com/printers. Scroll down to **Resources For**, select **Infoprint Manager**, and then select the appropriate Infoprint Manager product on the upper right corner.
