

IBM Infoprint 1000 family

## Deliver output at the speed of e-business with IBM's new family of workgroup printers

**Introducing a new line of cost-effective business printers –  
the IBM Infoprint 1000 family**

IBM Infoprint\* 1000 printers offer a wide variety of print speeds and features to serve everyone from small businesses to workgroups in large companies. This full line of printers offers exceptional value with unique functionality, advanced features, broad expansion capabilities and seamless connectivity – all at attractive prices. From 16 to 45 pages per minute, IBM's new family of workgroup printers can meet the printing requirements of your business.

**Versatile and expandible**

The Infoprint 1000 family supports a variety of media types and sizes such as envelopes, transparencies and A3-size paper. Increased input and output options, including finishing devices that staple and hole-punch, add versatility to your printing. Modular paper handling capabilities are easily expandible, providing printing flexibility to enhance productivity.

**Networking options for seamless connectivity**

Today's workgroups need fast, reliable connectivity and the ability to print images from the Web. With the Infoprint 1000 family's network-ready Ethernet and standard parallel/USB interfaces, easy host connections and high-speed communications are a given. The ImageQuick Card (standard on Internet models) supports direct PDF and image printing from the Web. Remote printer configuration, management and monitoring software help reduce network administration costs.

**Outstanding value**

The Infoprint 1000 family offers a range of speeds and configurations to help meet your workgroup requirements. With six print speeds, a variety of configuration options, cost-efficient supplies and flexible paper handling features, these printers can be tailored to your needs and budget. Excellent print quality, fast first page print times and reliable software management tools mean these printers can start enhancing your workgroup productivity right away.

**Reliability backed by IBM Service and Support**

To expedite diagnosis and repair, IBM customer engineers specialising in printing offer the highest skills available. Knowledgeable professionals, powerful technology and customised service options, available globally through IBM Service, help you optimise every aspect of your printing operation.
