**Understand your business performance**

# Jean Cornet

You are heartfelt, rational and restrained.

You are empathetic: you feel what others feel and are compassionate towards them.

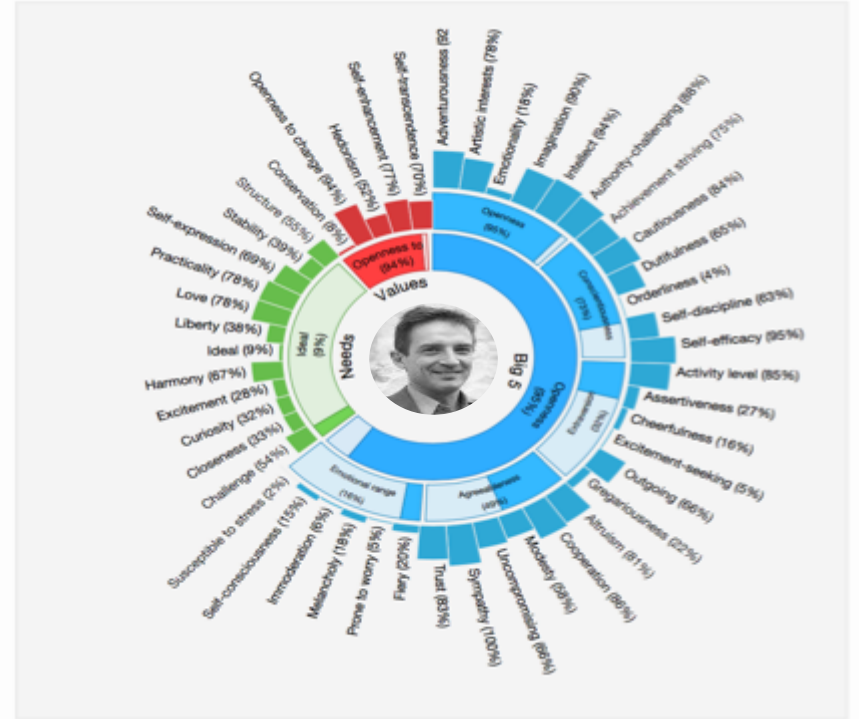

You are calm under pressure: you handle unexpected events calmly and effectively.

Your choices are driven by a desire for connectedness.

You consider independence to guide a large part of what you do: you like to set your own goals to decide how to best achieve them.

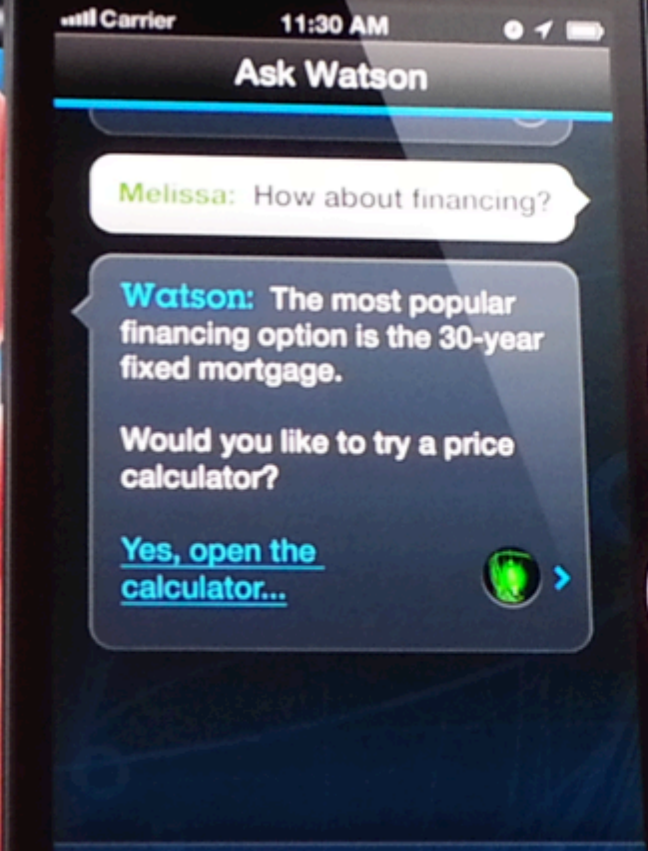

You are relatively unconcerned with tradition: you care more about making your own path than following what others have done.
