What's New in IBM Sterling Gentran:Server for Microsoft Windows Release 5.3

What's New

Rebranding
The 5.3 release is a rebranding release to change names, logos, and other associated items as a result of the IBM acquisition of Sterling Commerce. The product has been renamed from "Gentran:Server® for Windows" to "IBM® Sterling Gentran:Server® for Microsoft Windows".

Licensing Information
You no longer need to enter a product key during the Option Pack installation of this product.
