Participant Dictionary

I. INTRODUCTION

Purpose	<p>The Participant Dictionary is for users of 1SYNC Item Management (IM). The purpose of this document is to provide users with information about:</p> <ul style="list-style-type: none">• Required, Dependent and Optional attributes• Attribute definitions• Business Examples• Data Examples• Valid Values <p>Please Note: This document is intended to be used in conjunction with the various Interoperability/Extension Guides that are available on the Item Management Solution Center. Please keep in mind that detailed information regarding attributes that are specific to an Interoperability or Extension connection can be found in the corresponding Interoperability/Extension Guide.</p>
Dictionary Updates	<p>1SYNC plans to expand the scope of IM to support many e-commerce initiatives. This dictionary will grow as attributes are added and IM functionality increases. Every effort will be made to update this dictionary in real time. Please refer to the Data Source and Data Recipient 1SYNC XML guides on the 1SYNC Solution Center for more technical details.</p>
Key Terms	<p>Throughout this dictionary, you will see standard terminology and acronyms used. The table on the next page provides definitions and explanations for these key terms and acronyms.</p>
Contents	<p>This document is currently divided into two major sections:</p> <ul style="list-style-type: none">• Trade Item Attributes• Appendices – Containing reference tables for valid values and external references
Help & Support	<p>If you have questions about the terms, concepts, or instructions provided in this document, please contact customersupport@1SYNC.org for assistance.</p>

Participant Dictionary

II. KEY TERMS

Key Term or Acronym	Definition
Global Vs. Target Market Attributes	<p>Item attributes are separated into two groups – Global and Target Market Specific.</p> <ul style="list-style-type: none"> • Global attributes cannot vary for an information provider’s GTIN. Thus there can only be one value for each global attribute. • Target Market Specific attributes can vary for each target market selected. <p>Both sets of attributes are made up of Mandatory, Optional, and Dependent attributes and an item can not be loaded without one set of Global and one or more sets of Target Market specific attributes. The listing of those attributes designated as Global are listed in Appendix Q of this document. Note: Links are Global, which means that all GTIN Variations for the Items will have the same Links.</p>
Item or Trade Item	Refers to a GTIN describing a product available from the participant stored in 1SYNC IM.
GTIN	GTIN stands for Global Trade Item Number®. The GTIN is the globally unique GS1 identification number used to identify trade items (products and services) that are sold, delivered, warehoused, and invoiced.
Base Unit	This is an item that is at the lowest level of a hierarchy. This can be but is not always the same as the consumer unit.
Consumer Unit	This is an item that can be sold at the retail level as a single unit to the consumer. There can be more than one consumer unit in a hierarchy
Trading Partner	Any physical, functional, or legal entity involved at any point in the supply chain that exchanges information about products or services with other entities in the supply chain. Examples include: manufacturer, importer, broker, distributor, or retailer.
GLN	Global Location Number: Unique number used to identify publisher or subscribers and their locations in accordance GS1 standards. Can be used to identify multiple entities or locations for both parties.

Participant Dictionary

Key Term or Acronym	Definition
Information Provider	This is the entity responsible for the validity of the GTIN and GLN entered into Item Management. This may be the original manufacturer, importer, distributor, retailer, or a designated agent that is supplying the trade item to the market.
Mandatory, Optional, Dependent (M/O/D)	Each attribute field is labeled with one of these terms in Item Management. All Mandatory fields are required in order to load data into 1SYNC Item Management and register the items in the Global Registry. Optional fields may be populated at the discretion of the Trading Partner or Information Provider. Dependent fields become mandatory when related optional fields are populated. <i>Please note that any attributes marked as "Conditional" (e.g., Height, Width, and Depth) are considered to be Mandatory by default, but may become optional based on a combination of specific conditions as described on the attribute page.</i>
Field Types (Type/Size)	Each attribute allows a specific data format. Below is a key of the abbreviations used to indicate the Type/Size: <ul style="list-style-type: none"> • AN – Alphanumeric • N – Numeric (Total,precision) <ul style="list-style-type: none"> ○ "precision" refers to the maximum number of digits to the right of a decimal place. For example, the value for the attribute "Height" can have a total of 38 digits, with a maximum of 15 digits to the right of the decimal. Therefore, its "Type/Size" value is expressed as N/38,15 • I – Integer • VV – Valid Value <ul style="list-style-type: none"> ○ Please refer to the <i>1SYNC IM Valid Values</i> document on the 1SYNC Solution Center for a full list of all valid values. • Boolean – Yes (true)/No (false) • Date • Date/Time

Participant Dictionary

Key Term or Acronym	Definition									
Occurrence	<p>Indicates whether the attribute can have multiple values for a single language (also referred to as "looping"). "0 or 1" indicates that the attribute may only have one value. "0 or more" indicates that the attribute may have more than one value. For example, Country of Origin allows many values to show all of the countries from which a product could originate; its Occurrence is therefore listed as "0 or more".</p> <p>If the Occurrence is "0 or More" and the Lang Specific field indicates "Yes", then the attribute can have more than one value by varying the language of the attribute.</p> <p>For example, Short Description / POS Desc. 1 can have multiple values that vary by the associated language code, which is noted as having an Occurrence of "0 or More" and a Lang Specific indication of "Yes".</p> <p>For attributes such as Country of Origin (which also has an occurrence of "0 or More"), this attribute is noted as having a Lang Specific value of "No", which means that this attribute can have multiple values, but the multiple values are not multiple by languages.</p>									
Lang Specific	<p>Indicates whether the value may be supplied in more than one language. "Yes" indicates that the attribute value may be provided in more than one language.</p> <p>For example, Short Description / POS Desc. 1 can have multiple values that vary by the associated language code.</p>									
BMS	<p>Business Message Standard (BMS): A standard collection of material created by GS1 to provide the necessary information to implement the approved GS1 standard. The corresponding attribute information is vital in defining the characteristics of a GTIN (Global Trade Item Identification).</p> <p>*Please note: All corresponding Unit of Measure (UOM) values for a given attribute are implied in the BMS (i.e., Depth UOM). An attribute such as Depth will not have a separate attribute for the UOM. However, the Unit of Measure will be sent within the attribute.</p> <table border="1" data-bbox="440 1749 1390 1850"> <thead> <tr> <th>1SYNC IM GUI Field</th> <th>BMS 2.8</th> <th>GDSN CIN</th> </tr> </thead> <tbody> <tr> <td>Depth</td> <td>depth</td> <td>depth</td> </tr> <tr> <td>Depth UOM</td> <td>N/A *</td> <td>depth unitOfMeasure</td> </tr> </tbody> </table>	1SYNC IM GUI Field	BMS 2.8	GDSN CIN	Depth	depth	depth	Depth UOM	N/A *	depth unitOfMeasure
1SYNC IM GUI Field	BMS 2.8	GDSN CIN								
Depth	depth	depth								
Depth UOM	N/A *	depth unitOfMeasure								

Participant Dictionary

Key Term or Acronym	Definition											
GDSN CIN	<p>Global Data Synchronization Network Catalogue Item Notification (GDSN CIN): A message used to synchronize or transmit trade item information from source data pool to recipient data pool and is forwarded to the data recipient. The GDSN CIN attributes commonly coincide with the BMS.</p> <p>*Please note: All corresponding Unit of Measure (UOM) values for a given attribute are implied in the GDSN CIN (i.e., depth UOM). An attribute such as Depth will not have a separate attribute for the UOM. However, the Unit of Measure will be sent within the attribute.</p> <p>** Also note that attributes that are not sent on 1SYNC's core GDSN CIN message are marked as "N/A", but in some cases may be sent via an extension. Please refer to the appendices of this document for GDSN CIN attribute mapping details for supported extensions.</p> <table border="1" data-bbox="440 1037 1395 1138"> <thead> <tr> <th data-bbox="440 1037 769 1073">1SYNC IM GUI Field</th> <th data-bbox="769 1037 1073 1073">BMS 2.8</th> <th data-bbox="1073 1037 1395 1073">GDSN CIN</th> </tr> </thead> <tbody> <tr> <td data-bbox="440 1073 769 1104">Depth</td> <td data-bbox="769 1073 1073 1104">Depth</td> <td data-bbox="1073 1073 1395 1104">depth</td> </tr> <tr> <td data-bbox="440 1104 769 1138">Depth UOM</td> <td data-bbox="769 1104 1073 1138">N/A *</td> <td data-bbox="1073 1104 1395 1138">depth unitOfMeasure</td> </tr> </tbody> </table>			1SYNC IM GUI Field	BMS 2.8	GDSN CIN	Depth	Depth	depth	Depth UOM	N/A *	depth unitOfMeasure

III. TRADE ITEM ATTRIBUTES

Attribute Name			Definition		
Information Provider			Populate this field with the GLN of the entity responsible for the validity of the item information entered into 1SYNC Item Management. The original manufacturer, importer, distributor, retailer, or designated agent. IP Name will default in the GUI as a result of the GLN provided.		
Global/TM	IM GUI Tab	M/O/D	Type/Size	Occurrence	Lang Specific
Global	Header	Mandatory	I/13	1	No
Examples			Reference		
Additional Comments			Business Case		
<p>All global location numbers must be based on a GS1 company prefix based on an assigned GS1 prefix to a GS1 MO, or are managed by the GS1 Global Office in lieu of an existing member organization that may not cover that country.</p> <p>List of valid prefixes can be found here:</p> <p>http://www.gs1.org/barcodes/support/prefix_list</p>			<p>Combination of this field (GLN) + GTIN + Target Market uniquely identifies a set of attributes for a trade item. The data owner is not necessarily the source of the data, but has the responsibility to provide and maintain the data in 1SYNC Item Management.</p>		

1SYNC XML Attribute Name (both inbound and outbound values shown where different)

informationProviderGLN

1SYNC IM GUI Field	BMS 2.8	GDSN CIN
Information Provider	informationProvider	informationProvider

Participant Dictionary

Attribute Name			Definition		
IP Name			Name of the party who provides the trade item information to 1SYNC Item Management.		
Global/TM	IM GUI Tab	M/O/D	Type/Size	Occurrence	Lang Specific
Global	Header	Default	AN/128	1	No
Examples			Reference		
Additional Comments			Business Case		
<p>The IP Name will default in the GUI as a result of the Information Provider GLN. It will default in the outbound messages based on a Table maintained by 1SYNC.</p> <p>Note: Prior to the release of IM R6.0, this attribute was named "Information Provider Name".</p>					

1SYNC XML Attribute Name (both inbound and outbound values shown where different)
informationProviderName (Data Recipient 1SYNC XML Only)

1SYNC IM GUI Field	BMS 2.8	GDSN CIN
IP Name	nameOfInformationProvider	nameOfInformationProvider

Participant Dictionary

Attribute Name			Definition		
Global Trade Item Number (GTIN)			The Global Trade Item Number is the standard 14-digit number used to identify all trade items in 1SYNC Item Management. For a more detailed definition, refer to the introductory section of this document.		
Global/TM	IM GUI Tab	M/O/D	Type/Size	Occurrence	Lang Specific
Global	Header	Mandatory	I/14	1	No
Examples			Reference		
14 digit code, i.e. 00000000000000			For a more detailed definition, refer to the introductory section of this document.		
Additional Comments			Business Case		
<p>Note: For trade items where the Target Market = Netherlands, GTIN numbers starting with 0020-0029, 0040-0049, and 0200-0299 are not allowed.</p> <p>All global trade item numbers must be based on a GS1 company prefix based on an assigned GS1 prefix to a GS1 MO, or are managed by the GS1 Global Office in lieu of an existing member organization that may not cover that country.</p> <p>List of valid codes can be found here:</p> <p>http://www.gs1.org/barcodes/support/prefix_list</p>			<p>GS1 numbering structures will be used for the identification of trade items. All of them will be considered as 14-digit Global Trade Item Number (GTIN). Must be present to enable data to be presented to trade item catalogue. Must be submitted by the owner of the data (who may be the original manufacturer, the importer, the broker or the agent of the original manufacturer) See the GS1 General Specifications for more detail. This field is mandatory within the Global Data Synchronization work process.</p>

Participant Dictionary

Attribute Name			Definition		
Effective Date			The date on which the information for "item add" or "item change" is sent to 1SYNC Item Management Production.		
Global/TM	IM GUI Tab	M/O/D	Type/Size	Occurrence	Lang Specific
TM	Dates & Status	Default	Date/Time	0 or 1	No
Examples			Reference		
Additional Comments			Business Case		
<p>Please note the default logic for this attribute, as described below:</p> <p>If a data source does not populate Effective Date when adding, modifying, or appending an item, 1SYNC defaults this attribute to the current system date. The exception to this rule is when the Effective Date has been previously set to a future date (i.e., a date beyond the current system date). In that scenario, unless the "future" Effective date is updated by the data source, then that previously set future date will remain the Effective Date value (i.e., it will not default to the current system date). In other words, "future" Effective Date values will remain in effect until the next subsequent modification to the item AFTER the future date has lapsed into the past. At that point, the default logic explained above will apply unless the data source chooses to populate a new "future" Effective Date.</p>

Participant Dictionary

Attribute Name			Definition		
Size Group			A description of the variable size that is necessary to uniquely specify the size of the item in conjunction with the non-packaged size dimension.		
Global/TM	IM GUI Tab	M/O/D	Type/Size	Occurrence	Lang Specific
TM	Color, Size & Composition	Optional	VV/60	0 or 1	No
Examples			Reference		
The size group would be Petite and the size would be "8".			See <i>1SYNC IM Valid Values</i> document on the 1SYNC Solution Center for valid values.		
Additional Comments			Business Case		
<p>If Size Group is populated, then either Descriptive Size Dim or the combination of Size Dimension and Size Dimension UOM is required.</p> <p>Size Group is typically used in conjunction with Size System.</p>					

1SYNC XML Attribute Name (both inbound and outbound values shown where different)
sizeGroup

1SYNC IM GUI Field	BMS 2.8	GDSN CIN
Size Group	sizeGroup	sizeGroup

Participant Dictionary

Attribute Name			Definition		
Size Type			The type of size dimension being specified by the size measurement		
Global/TM	IM GUI Tab	M/O/D	Type/Size	Occurrence	Lang Specific
TM	Color, Size & Composition	Optional	VV/60	0 or more	No
Examples			Reference		
The size type would be Back and the size would be 34"			See <i>1SYNC IM Valid Values</i> document on the 1SYNC Solution Center for valid values.		
Additional Comments			Business Case		
If Size Type is populated, then either Descriptive Size Dim or the combination of Size Dimension and Size Dimension UOM is required					

1SYNC XML Attribute Name (both inbound and outbound values shown where different)
sizeType

1SYNC IM GUI Field	BMS 2.8	GDSN CIN
Size Type	sizeType	sizeType

Participant Dictionary

Attribute Name			Definition		
Descriptive Size Dim			The textual representation of the size dimension specified by the size type.		
Global/TM	IM GUI Tab	M/O/D	Type/Size	Occurrence	Lang Specific
TM	Color, Size & Composition	Dependent	AN/70	0 or more	Yes
Examples			Reference		
The size type would be Sleeve and the size would be "32/33 inches".					
Additional Comments			Business Case		
Either Size Dimension or Descriptive Size Dim must be present, but not both. Descriptive Size Dim is a description and is part of a mandatory choice (the other choice value being Size Dimension).					

1SYNC XML Attribute Name (both inbound and outbound values shown where different)
nonPackageDimensions/nonPackageSizeDimension/descriptiveSizeDimension

1SYNC IM GUI Field	BMS 2.8	GDSN CIN
Descriptive Size Dim	descriptiveSizeDimension	descriptiveSizeDimension

Participant Dictionary

Attribute Name			Definition		
Size Dimension			The numerical size measurement of the size dimension specified by the size type.		
Global/TM	IM GUI Tab	M/O/D	Type/Size	Occurrence	Lang Specific
TM	Color, Size & Composition	Dependent	N/15,15	0 or more	No
Examples			Reference		
The size type would be Back and the size would be 34 inches.					
Additional Comments			Business Case		
The size dimension is specified using a decimal value and a valid Unit Of Measure (UOM). Either Size Dimension or Descriptive Size Dim must be present, but not both. Size Dimension is a measurement value and is part of a mandatory choice (the other choice value being Descriptive Size Dim).					

1SYNC XML Attribute Name (both inbound and outbound values shown where different)

Participant Dictionary

Attribute Name			Definition		
Returnable Asset Capacity Content			A measurement of the potential capacity of a returnable asset (for example, how many bottles can fit into a crate). This is not the content for the full packaging but rather how much the packaging can contain.		
Global/TM	IM GUI Tab	M/O/D	Type/Size	Occurrence	Lang Specific
TM	Packaging	Dependent	N/30,15	0 or More	No
Examples			Reference		
<p>Example A: Soda. In a 2 liter in-store display, plastic crates are often used to hold a set number of bottles, and the crates can be stacked on top of other bottles to form a display. The plastic crate is a returnable asset and would typically have an internal capacity of 6 bottles.</p> <p>Example B: Milk crate. Milk crates are returnable assets that can hold (depending on the type used), either 4 jugs or 6 jugs of milk. Potentially a milk crate could also hold 4 gallons or even 8 cartons (for half gallons) depending on the use.</p> <p>This attribute can appear only once for each packaging material. For the milk crate example above, the supplier would pick the most appropriate value. This should be relative to the GTIN for which it is published. If a GTIN represents a whole gallon of milk, the supplier might choose either "4 jugs" or "4 gallons" based on industry norms. If the GTIN represents a half gallon, the supplier might choose "8 cartons".</p>					
Additional Comments			Business Case		
If Returnable Asset Capacity Content is populated then Returnable Asset Capacity Content UOM must be populated.

Attribute Name			Definition		
Casing Tare Weight			This is used for the weight measurement of the "food casing". The aggregate of the tare weight can be used for calculating the higher packaging levels.		
Global/TM	IM GUI Tab	M/O/D	Type/Size	Occurrence	Lang Specific
TM	Packaging	Optional	N/23,15	0 or 1	No
Examples			Reference		
Additional Comments			Business Case		
<p>A casing for food products is a flexible tubing into which foods are stuffed to provide a skin-tight covering. Used in packaging prepared meats, poultry, cheese, and other food products. "Casing Tare Weight" applies to the "Each" level. The aggregate of the tare weight can be used for calculating the higher packaging levels. For example, a sausage may have a net weight of 120 grams and a Casing Tare Weight of 5 grams. When in a carton of 12 sausages, add together each sausage's Casing Tare Weight and multiply by the accumulated total of all the sausages in the carton for the total Casing Tare Weight. In this example, 5 grams *12 sausages = 60 grams for the total Casing Tare Weight.</p>

Participant Dictionary

Attribute Name			Definition		
Import Classification Value			Imports and exports of trade items typically require classification codes to determine appropriate duties and tariffs. Values include Netherlands Import Code, Harmonized Commodity Description and Coding System, Customs Tariff and INTRASTAT Code, Harmonized Tariff Schedule of the United States, INTRASTAT Combined Nomenclature, Tarif Intégré de la Communauté. For example, the US code is a 10-digit number, the Harmonized Commodity Description and Coding System is a 6-digit number, and the EU codes are 8 digits. Other Types may use an alphanumeric approach, so it is best to reference the actual Tariff Code Value from the list associated with the Type selected.		
Global/TM	IM GUI Tab	M/O/D	Type/Size	Occurrence	Lang Specific
TM	Handling & Delivery	Optional	AN/70	0 or more	No
Examples			Reference		
Additional Comments			Business Case		
Required if attribute "Import Classification Type" is populated.					
Required on Import Products only.

Note: This value becomes required when List Price is provided.

Please note that in the GDSN CIN (Item Sync) message, the following are dependent attributes -- all three must be populated in order for any of the list price attributes to be synchronized:

- List Price
- List Price Currency
- List Price Effective Start Date

Note that for the GDSN CIN, if List Price Basis Per Unit and List Price Basis Per Unit UOM are populated, 1SYNC will enforce that the value for the List Price Basis Per Unit UOM is equivalent to the IM Product Type and that List Price Basis Per Unit = 1. If this is not true, List Price, List Price Currency, List Price Effective Start Date, and List Price Effective End Date will not be synchronized and you will not receive a GDSN error.

If List Price Basis Per Unit and List Price Basis Per Unit UOM are not populated, List Price, List Price Currency, List Price Effective Start Date and List Price Effective End Date will synchronize assuming all other validations are passed.

Note: This attribute is enabled for Relationship Dependent Data (RDD). Data source customers may provide data recipient specific values by indicating dataRecipientGLN with the attribute. If a dataRecipientGLN is not provided, the attribute value provided will apply to ALL Data Recipients.

Retail Price On Trade Item			The retail price as marked on the trade item package.		
Global/TM	IM GUI Tab	M/O/D	Type/Size	Occurrence	Lang Specific
TM	Price & Tax	Optional	N/25,4	0 or More	No
Examples			Reference		
"USD 1.00", "EUR 36", "USD 17.45"					
Additional Comments			Business Case		
Note: If this attribute is NOT populated AND the "Pricing On Product" attribute = TRUE, then the value populated for "Suggested Retail Price" will be mapped in the GDSN CIN attribute retailPriceOnTradeItem.			As monetary amount field, this data element must be associated with a valid unit of measure. GTIN allocation rules state that price is not a relevant criteria for changing a GTIN except when the price is printed as a part of the trade item's packaging. Cannot vary per Target Market.

Attribute Name			Definition		
Pricing Item Indicator			This attribute will trigger an item to be populated into the 1SYNC Price & Promotion Management application, regardless of whether or not an item is orderable.		
Global/TM	IM GUI Tab	M/O/D	Type/Size	Occurrence	Lang Specific
TM	DSD Attributes	Optional	Boolean	0 or 1	No
Examples			Reference		
			See 1SYNC Price & Promotion Management Implementations - Appendix R.		
Additional Comments			Business Case		
This attribute may be utilized in the 1SYNC Price & Promotion Management (PM) application but will not be synchronized to retailers. A "PM" entry in the GLN Registry table at 1SYNC is also required to trigger an item to the 1SYNC Price & Promotion Management application. When a user adds values in multiple languages only the value for the first language (alphabetically) will be sent to the PM application. For example, if values are entered in English and Spanish, only the English value will be sent to the PM application.

CIN Extension Guides Converted to Participant Dictionary Appendices

In an effort to consolidate all supported 1SYNC attributes into a single searchable document, the content and attribute mapping information formerly contained within separate 1SYNC "CIN extension" documents on the 1SYNC Solution Center will now be

In an effort to reduce impact to customers, any former Participant Dictionary appendices that are remaining in this document will keep their former Appendix name/letter designations (for example, mandatory attributes will still be listed in "Appendix N"). The CIN extension appendices will be named appropriately based on the extension name – for example, French extension information will be contained in new "Appendix FR".

Each extension appendix will provide any relevant information on market segments served, any "trigger attributes" that when populated would cause the extension to be sent, as well as any additional information relating to configuring the extension (where appropriate). Most importantly, these extension appendices contain attribute mapping tables that contain all necessary information on how to populate the attributes on that extension. A typical attribute mapping table in an extension appendix will contain the following columns:

- **IM GUI Attribute Name**
- **1SYNC XML Name** (exceptions are noted where inbound and outbound names differ)
- **GDSN CIN Extension Name**
- **Spreadsheet Load Tool Attribute Qualifier (ATII)**
- **M/O/D to map extension** (is this attribute Mandatory, Optional, or Dependent specifically pertaining to the extension)
- **Data Type**
- **Min/Max Length**
- **Occurrence**
- **Business Definition**
- **Logic / Mapping Notes** (any validations, dependencies, or other notes that are necessary to implement the attribute in this extension)

Participant Dictionary

APPENDIX B – BRAND IDENTITY ATTRIBUTES

Please be aware that the attributes listed below are subject to validations originating in the 1SYNC Brand Identity solution. For more information on 1SYNC Brand Identity, refer to the *Brand Identity Online User Guide* on the 1SYNC Solution Center.

APPENDIX E – BMS 2.8 AND GDSN CIN REFERENCE TABLES

Please note that the content formerly displayed in this appendix is now available in the *1SYNC Cross-Platform Attribute List* document. This document provides the 1SYNC IM GUI field names, GDSN CIN names, tXML names, and 1SYNC XML names in a format that can be easily searched, filtered, or sorted.

Participant Dictionary

APPENDIX N – LIST OF 1SYNC IM MANDATORY FIELDS – TRADE ITEM ATTRIBUTES

Trade Item Attribute	Trade Item Attribute IM GUI Tab
Global Trade Item Number (GTIN)	Basic
GTIN Name	Basic
Product Type	Basic
Target Market	Basic
Language	Basic
Information Provider (GLN)	Global
Brand Name	Global
Global Item Classification Code (GPC)	Global
Qty of Next Level Item(s)	Global
Ordering Unit Indicator	General
Start Availability Date	Dates & Status
Parent Item	Links
Child Item	Links
Link Quantity	Links
Height	Measures
Height UOM	Measures
Width	Measures
Width UOM	Measures
Depth	Measures
Depth UOM	Measures

- If Consumer Unit Indicator = "Yes" then the Net Content field becomes required.
- If isTradeItemAService = "No" then the Gross Weight field becomes required

Best Practices:

- If Base Unit Indicator = "Yes" then best practice is to populate Net Content.

Participant Dictionary

Additional Mandatory attributes if using GS1 GLOBALRegistry and GDSN Standard CIN:

Trade Item Attribute	Trade Item Attribute IM GUI Tab
Consumer Unit Indicator	Global
Base Unit Indicator	Global
Variable Weight Trade Item	Global
Dispatch Unit Indicator	General
Invoice Unit Indicator	General
Functional Name	Product Description
Packaging Marked Returnable	Packaging

- If Consumer Unit Indicator = "Yes" then the Net Content field becomes required.
- The lowest-level GTIN in a hierarchy must have Base Unit Indicator = "Yes"
- If Ordering Unit Indicator = "Yes" then the Gross Weight field becomes required.
- EANUCC Code/Type is optional but is required by US Retailers when GTIN is either consumable or orderable. (Please see definition under EANUCC Code and EANUCC Type).
- If Dispatch Unit Indicator = "Yes", then Gross Weight becomes required.
- At least one GTIN in a hierarchy must have Ordering Unit Indicator = "Yes"
- At least one GTIN in a hierarchy must have Invoice Unit Indicator = "Yes"

Best Practices:

- Short Description / POS Desc. 1 is an optional field. Best practice is to provide Short Description / POS Desc. 1 for the lowest item in hierarchy.
- Ti/Hi is an optional field. Best practice is to provide Ti/Hi for the highest item in hierarchy.
- If Base Unit Indicator = "Yes" then best practice is to populate Net Content.
- For US retailers, populating a UDEX code is a common requirement.

APPENDIX Q – GLOBAL ATTRIBUTES

These attributes are designated as Global attributes. These attributes are consistent across all Target Market variations of a GTIN/Information Provider (GLN). All Target Market variations of the GTIN/GLN will have the same values for these attributes.

Product Type
global Classification Category Code
Gtin Name
Brand Name
brand Owner GLN
NetContent
Packaging Type Code
Packaging Weight
Is Packaging Exempt From Refuse Obligation?
Packaging Function
Usable Product Volume
Shipping Container Quantity Description

ti
Own Label Private Label?
Cancel Date
Special Item Code
Is Trade Item Packed Irregularly
Trade Item Composition Depth
Trade Item Composition Width

Participant Dictionary

APPENDIX R – 1SYNC PRICE & PROMOTION MANAGEMENT IMPLEMENTATIONS

1SYNC offers the 1SYNC Price & Promotion Management (PM) application that facilitates the synchronization of price and promotion data with retailers, at store level GLNs as required by the PM business process. All item data for this system is generated and maintained in 1SYNC Item Management (IM).

For all PM participants, there will be three changes to their IM implementation:

1. One additional required attribute
2. Six optional attributes for consideration
3. The flexibility to relax certain data requirements

All attribute details are in the body of the *Participant Dictionary*. Details on these three changes follow:

Required PM Attributes:

- Pricing Item Indicator set to “true”

Optional PM Attributes:

- Package Group
- Product Group
- Units Per Consumer Unit
- Total Units per Case
- Pricing UPC
- Pricing Pack

Validation Changes:

If the Primary Delivery Method is equal to “DSD” and an item is not consumable, the following attributes become optional:

- Depth (at the Trade Item Level)
- Height (at the Trade Item Level)
- Width (at the Trade Item Level)

Note that these attributes are enforced as required attributes for GDSN item synchronization.

If the Primary Delivery Method is equal to “DSD” and an item is not consumable, the following attribute become optional:

- EANUCC Code

If the Primary Delivery Method is equal to “DSD”, “DSD & Warehouse”, “Warehouse”, or “Drop Ship” and an item is consumable, the following attribute may be non-unique:

- EANUCC Code

Participant Dictionary

Items sent to the PM application via IM will not accept an Item Modify or an Item Correction for the attributes shown below:

- Information Provider
- Qty of Next Level Item(s)
- Pricing Pack
- Pricing UPC

Note: Under special circumstances, modifications to the attributes listed above can be performed with the intervention of 1SYNC Customer Support.
(CustomerSupport@1SYNC.org)

IM to PM Synchronization Logic:

- The "Pricing Item Indicator" is set to "True"
- The IP GLN must be set up to synchronize items to PM for a particular target market. (This is part of 1SYNC's PM organization setup.)

EANUCC Code & Pricing UPC Logic:

If only the EANUCC Code is populated, it is synched to PM. If both the EANUCC Code and Pricing UPC are populated, the Pricing UPC is instead synched to PM.

Qty of Next Level Item(s) & Pricing Pack Logic:

If only the Qty of Next Level Item(s) is populated, it is synched to PM. If both the Qty of Next Level Item(s) and the Pricing Pack are populated, the Pricing Pack is instead synched to PM.

Net Content & Net Content UOM Logic:

While IM supports multiple values for Net Content, only one value is mapped to PM. The logic for the single value mapped us based on the first UOM code alphabetically. Therefore, if both 128 FO (fluid ounces) and 1 GA (gallons) were expressed as Net Content measurements in IM, the 128 FO value would sync to PM because "FO" is first alphabetical.

IM Attributes that Sync to PM:

- GTIN
- Target Market
- Information Provider GLN
- EANUCC Code OR Pricing UPC
- Qty of Next Level Item(s) OR Pricing Pack
- Product Type
- GTIN Name
- Brand Name
- Package Group
- Product Group
- Net Content & Net Content UOM

Participant Dictionary

- GPC Code & GPC Description
- Units Per Consumer Unit
- Total Units Per Case

APPENDIX U – ATTRIBUTES THAT ALLOW INTERNATIONAL CHARACTER SUPPORT

There are several textual data fields in IM that allow users to input descriptions to describe the product. IM allows users in both batch and online processing to input text using international character sets. These fields will be visible in the GUI and synchronized to subscribers in their appropriate character set.

These fields can have more than one value per GTIN variation, as the Information Provider can load a value for each language.

The fields in IM that will allow international characters include:

- Additional Description
- Brand Name
- Color
- Coupon Family Code
- Dangerous Goods A Margin Number
- Dangerous Goods Item Num Letter
- Dangerous Goods Packing Group
- Dangerous Goods Technical Name
- GTIN Name
- Dangerous Goods Class Code
- Haz Mat Special Instructions
- Dangerous Goods Hazardous Code
- 1SYNC Image Thumbnail File Name
- 1SYNC Image Thumbnail Path
- Material Code Agency
- Packaging Material Code
- Short Description / POS Desc. 1
- Product Color Description
- Product Description
- Product Form
- Functional Name
- Product PLU Description
- Product Size Code
- Sub Brand
- Tax Type Code
- Trade Item Group Code
- Trade Item Group Description
- U.N. Dangerous Goods Number
- Variant

Participant Dictionary

APPENDIX V – CORRECTABLE ATTRIBUTES

Based on GS1 Standards, and Global Data Synchronization Network (GDSN) standards, the attributes listed below should not be altered after an item is published. Changes to these attributes require a new GTIN (information regarding the GS1 Standards is available at www.gs1.org/gtinrules). However, to enable trading partners to correct legitimate errors (e.g., typos) to the attributes listed below, IM will allow updates to these attributes. When you update one of these attributes you will receive a message (with the exception of GDSN GPC Code corrections) indicating that you are initiating an item correction. When the item is synchronized it will be sent as an item correction rather than an item modify. A synchronizing retailer typically processes item corrections differently than item modifies, since an item correction indicates a significant change to the item.

APPENDIX RD – RELATIONSHIP DEPENDENT DATA (RDD) ATTRIBUTES

IM GUI Attribute Name				
Accelerated Graphics Port Speed	Has Built-in Ice Maker?	Is Trade Item a Promotional Unit?	Is Trade Item a Promotional Unit?	Quantity Of Filters
Additional Features Or Included Accessories	Has Built-in Microphone?	Is Trade Item an Accessory?	Is Trade Item an Accessory?	Quantity Of Frames Per Second
Additional Printer Functions	Has Built-in NTSC Tuner?	Is Trade Item Auto Powered Down Enabled When Shipped To	Is Trade Item Auto Powered Down Enabled When	Quantity Of Grill Side Burners
Additional Shredder Capabilities	Has Cable Management?	Is Trade Item Reorderable?	Is Trade Item Reorderable?	Quantity Of HDMI Inputs
Adjustable Direction	Has Cables Included?	Is Trade Item Stackable?	Is Trade Item Stackable?	Quantity Of HDMI Outputs
Adjustable Shelf Type	Has Camera Dock Included?	Is Universal Well Capable?	Is Universal Well Capable?	Quantity Of Heads
Air Conditioner Unit Type	Has Cancel Button?	Is VG2 Capable?	Is VG2 Capable?	Quantity Of Keys
Album Capacity	Has Car Adapter?	Is Video Accessory a Splitter?	Is Video Accessory a Splitter?	Quantity Of LED Lights
Album Capacity UOM	Has Car Connection?	Is Voice Activated?	Is Voice Activated?	Quantity Of Megapixels
Alcoholic Beverage Permission Level	Has CD Changer Control?	Is WAAS Enabled?	Is WAAS Enabled?	Quantity Of Memory Cards Included
Alcoholic Beverage Subregion Of Origin	Has CD Synchronization Recording?	Is Warranty Document Required?	Is Warranty Document Required?	Quantity Of Memory Pages Stored
Alcoholic Beverage Sugar Grams Per Litre	Has CD Text Display?	Is Water Resistant?	Is Water Resistant?	Quantity Of Moisture Removal
Amount Of Connected Equipment Guarantee	Has Center Channel Input?	Is Weather Proof?	Is Weather Proof?	Quantity Of One Touch Settings
Amperage	Has Change Filter Indicator?	Is Wide Format Capable?	Is Wide Format Capable?	Quantity Of Optical Audio Inputs
Antenna Power Source Type	Has Child Safety Lock?	Item Code	Item Code	Quantity Of Optical Audio Outputs
Antenna Type	Has City Highway Switch?	Item Presented Date Time	Item Presented Date Time	Quantity Of Outputs
Appliance Base Color	Has Clock?	Keypad Location	Keypad Location	Quantity Of Paper Trays

Participant Dictionary

Appliance Marketing Color	Has Color Viewfinder?	Lead Time	Lead Time	Quantity Of Phone Lines Supported
Appliance Style	Has Compass?	Lead Time	Lead Time	Quantity Of Phonebook Entries
Appliance Wattage	Has Continuous Run Mode?	Length Of ESN IMEI Device Identity Number	Length Of ESN IMEI Device Identity Number	Quantity Of Points Of Interest
Are Batteries Required?	Has Cool Touch Exterior?	Lens Type	Lens Type	Quantity Of Power Levels
Are Demonstration Items Available?	Has Crumb Tray?	Light Source Type	Light Source Type	Quantity Of Power Outlets
Are Headphones Included?	Has Darkness Control?	List Price	List Price	Quantity Of Pre-amplifier Outputs
Aspect Ratio	Has Depth Of Field Preview Button?	List Price Basis Per Unit	List Price Basis Per Unit	Quantity Of Pre-paid Minutes
Audio Video Playback Capability	Has Desktop Charger Included?	List Price Basis Per Unit UOM	List Price Basis Per Unit UOM	Quantity Of Printing Cartridges
Audio Watts Per Channel	Has Detachable Speakers?	List Price Effective End Date	List Price Effective End Date	Quantity Of Programmable Buttons
Automated Document Feeder Page Capacity	Has Digital Output?	List Price Effective Start Date	List Price Effective Start Date	Quantity Of Programmable Devices
AV Input Output Location	Has Digital Zoom?	List Price Sheet Name	List Price Sheet Name	Quantity Of Rear AV Inputs
Average Cost Per Print	Has Disc Exchange?	Loading Style	Loading Style	Quantity Of Rear AV Outputs
Average Milliseconds Of Disk Seek Time	Has Display Brightness Control?	Location To Attachment Mount	Location To Attachment Mount	Quantity Of Receivers In Box
Bagless Technology Type	Has Dolby BC Noise Reduction?	Lowest Operating Temperature	Lowest Operating Temperature	Quantity Of Reproducible Colors
Base Units Per Pallet	Has Downloadable Ringtones?	Lowest Operating Temperature UOM	Lowest Operating Temperature UOM	Quantity Of Rhythms
Battery Life	Has Drum Light?	Magnet Size	Magnet Size	Quantity Of S Video Inputs
Battery Life UOM	Has Dryer Rack Included?	Magnet Size UOM	Magnet Size UOM	Quantity Of S Video Outputs
Battery Size	Has Dual Stage Shock Sensor?	Magnet Type	Magnet Type	Quantity Of Separate ISO Filters
Beverage Country Of Bottling	Has Dual Voice Coils?	Manufacturer Take Back Program Currency	Manufacturer Take Back Program	Quantity Of Shelves
Binocular Size	Has DVI Connection?	Manufacturer Take Back Program Fee	Manufacturer Take Back Program Fee	Quantity Of Songs Built In

Participant Dictionary

Black And White Print Speed	Has Dynamic Bass Boost?	Marketing Circular Copy	Marketing Circular Copy	Quantity Of Sound Conditioning Levels
Blank Media Packaging Type	Has End Of Cycle Signal?	Materials That Fail RoHS Compliance	Materials That Fail RoHS Compliance	Quantity Of Speakers
Body Style	Has Extended Range?	Max Buying Quantity	Max Buying Quantity	Quantity Of Speeds
Bottle Capacity	Has Extra Large Window Size?	Max DC Delivery Temp	Max DC Delivery Temp	Quantity Of Stainless Steel Burners
Brand Compatibility	Has Eye Start Automation?	Max DC Delivery Temp UOM	Max DC Delivery Temp UOM	Quantity Of Temperature Settings
Bridge Type	Has Film Chamber Lock?	Max Market Delivery Temp	Max Market Delivery Temp	Quantity Of Terminal Posts
BTU Rating	Has Fingerboard?	Max Market Delivery Temp UOM	Max Market Delivery Temp UOM	Quantity Of Transmitters
Buffer Size	Has Flashing Parking Lights?	Max Order Quantity	Max Order Quantity	Quantity Of USB Ports
Buffer Size UOM	Has Front Removable Bucket?	Maximum Camera Picture Size	Maximum Camera Picture Size	Quantity Of Wattage RMS At 2 Ohms
Built-in Heater?	Has Glass Carafe Included?	Maximum Electrical Usage Class Mode UOM	Maximum Electrical Usage Class Mode UOM	Quantity Of Wattage RMS At 4 Ohms
Bus Type	Has GPS?	Maximum Electrical Usage Class Mode Value	Maximum Electrical Usage Class Mode Value	Radio Tuner Type
Buyer Contact Name	Has Heavy-duty Construction?	Maximum Energy Usage Time Period	Maximum Energy Usage Time Period	Recommended Processor Speed
Cable Connection Types	Has Height Adjustment?	Maximum Energy Usage Time Period UOM	Maximum Energy Usage Time Period UOM	Recommended Processor Speed UOM
Cable Length	Has High Output Siren?	Maximum Joules Rating	Maximum Joules Rating	Recording Format Type
Cable Length UOM	Has High Pass Filter?	Maximum Range	Maximum Range	Recording Speed
Cache Size	Has High-speed Dubbing?	Maximum Range UOM	Maximum Range UOM	Refresh Rate
Cache UOM	Has Home Control?	Maximum Resolution	Maximum Resolution	Relationship To Similar Carried Product
Caller ID Location	Has Humidity Level Control?	Maximum Screen Size UOM	Maximum Screen Size UOM	Remote Control Programming Method
Camera Bag Composition	Has Humidity-controlled Crisper?	Maximum TV Screen Size	Maximum TV Screen Size	Remote Control Type
Camera Bag Type	Has Illuminated Entry?	Media Storage Type	Media Storage Type	Reservoir Capacity

Participant Dictionary

Camera Film Type	Has IP Bus?	Memory Capacity	Memory Capacity	Reservoir Capacity UOM
Camera Flash Type	Has Keyboard Accommodation?	Memory Capacity UOM	Memory Capacity UOM	Return Goods Policy
Camera Kit Accessories Description	Has Keyless Entry?	Memory Speed	Memory Speed	Returns Goods Policy
Camera Lens Magnification	Has Laser Detection?	Memory Type	Memory Type	Revolutions Per Minute
Camera Lens Optical Zoom	Has Lighted On Off Switch?	MIDI Music Type	MIDI Music Type	RFID Tagged
Camera Lens Zoom Range	Has Limited Lifetime Warranty?	Midrange Speaker Type	Midrange Speaker Type	RMS Wattage
Can Display Pictures?	Has Line Level Input?	Milk Levy	Milk Levy	Room Size
Can Download Games?	Has Line Out?	Milk Levy Currency	Milk Levy Currency	Room Size UOM
Can Download High Speed Broadband?	Has Live Portable Feature?	Min Buying Quantity	Min Buying Quantity	Sample Consumer Unit Send Date Time
Can Mount Under Cabinet?	Has Low Pass Filter?	Min DC Delivery Temp	Min DC Delivery Temp	Sample Sent Date
Can Print Direct To CD?	Has LP Tank Included?	Min DC Delivery Temp UOM	Min DC Delivery Temp UOM	Sample Sent To Contact Name
Can Print On Trade Item?	Has Lumbar Support?	Min Market Delivery Temp	Min Market Delivery Temp	Satellite Radio Accessory Type
Can Product Be Easily Upgraded Or Maintained?	Has Magnetic Shielding?	Min Market Delivery Temp UOM	Min Market Delivery Temp UOM	Satellite Radio Service
Can Record 2 Programs Simultaneously?	Has Media Center PC Tuner And Remote?	Min Order Quantity	Min Order Quantity	Scanner Resolution
Can Store Waypoints?	Has Media Viewer?	Min Product Lifespan from Arrival	Min Product Lifespan from Arrival	Screen Attachment Type
Can Swivel?	Has Memory Set?	Minimum Product Lifespan	Minimum Product Lifespan	Scroll Wheel Type
Can Synchronize With Calendars?	Has Minimal Bezel?	Minimum Required Processor Speed	Minimum Required Processor Speed	Seat Interior Material Composition
Can Synchronize With Email?	Has Mixing Capability?	Minimum Required Processor Speed UOM	Minimum Required Processor Speed UOM	Second Optical Drive Type
Can Wake To CD?	Has Mobile Video?	Minimum Shipping Quantity	Minimum Shipping Quantity	Security Remote Type

Participant Dictionary

Capacity Of Expandible Handsets	Has Monitor Included?	Minimum Trade Item Days In Warehouse	Minimum Trade Item Days In Warehouse	Security Tag Location
Capacity Quantity	Has Monitor Output?	Minimum TV Screen Size	Minimum TV Screen Size	Security Tag Type
Capacity Quantity UOM	Has Mounting Brackets Included?	Miscellaneous AVP Name	Miscellaneous AVP Name	Shape
Capacity Type	Has MP3 Player Software?	Miscellaneous AVP Value	Miscellaneous AVP Value	SHC Category
Cassette Capacity	Has Multi Lingual Display?	Model Number	Model Number	SHC Division
CD Capacity	Has Multicolor Display?	Moisture Drain Type	Moisture Drain Type	SHC Order DUNS
CE And Accessory Primary Color	Has Multimedia Keys?	Monitor Resolution	Monitor Resolution	Shelf Placement Instructions
CE And Accessory Secondary Color	Has Multiple Alarms?	Monitor Speaker Location	Monitor Speaker Location	Shelf Type
Cellular Service Provider Name	Has Multiple Size Connection Inserts?	Mount Arm Profile	Mount Arm Profile	Shelf Unit Depth In Millimetres
Clean Air Delivery Rate - Dust	Has Navigation Capability?	Mounting Maximum Supported Weight	Mounting Maximum Supported Weight	Shelf Unit Height In Millimetres
Clean Air Delivery Rate - Pollen	Has Night Mode?	Mounting Maximum Supported Weight UOM	Mounting Maximum Supported Weight UOM	Shelf Unit Width In Millimetres
Clean Air Delivery Rate - Smoke	Has Non-stick Coating?	Mounting Shoe Power Type	Mounting Shoe Power Type	Ship From Location Name
Cleaning Method	Has On Screen Caller ID?	Mouse Type	Mouse Type	Side Curtains Included
Cleaning Path Width	Has On Screen Clock?	MP3 Accesory Type	MP3 Accesory Type	Sign System Description
Cleaning Path Width UOM	Has One Touch Dubbing?	MP3 Connection Type	MP3 Connection Type	Silhouette
Coffee Filter Type	Has Optical Digital Audio Outputs?	MP3 Player Compatibility Brand Name	MP3 Player Compatibility Brand Name	Similar Carried Product Description
Color Print Speed	Has Palm Capabilities?	Mute Control Location	Mute Control Location	Single Tank Run Time
Comb Filter Technology	Has Parental Control?	Mute Type	Mute Type	Skip Protection Brand Name
Combination Television Functions	Has Pause And Serve Function?	NABCA Additional Charges	NABCA Additional Charges	Software Types Included

Participant Dictionary

Comparable Branded Products	Has PC Docking Station?	NABCA Address Of Bottler	NABCA Address Of Bottler	Speaker Bottom Mount Depth
Computer Accessory Type	Has PC Inputs?	NABCA Address Of Distiller	NABCA Address Of Distiller	Speaker Bottom Mount Depth UOM
Connector Type	Has PDA Functionality?	NABCA Age Vintage	NABCA Age Vintage	Speaker Driver Type
Consumer Usage Storage Instructions	Has Phase Switch?	NABCA Alternate Age Vintage	NABCA Alternate Age Vintage	Speaker Stand Style
Contact Party Type	Has Photo Restoration?	NABCA Alternate Label Explanation	NABCA Alternate Label Explanation	Speaker Top Mount Depth
Contrast Ratio Dynamic	Has Picture-in-picture?	NABCA Alternate Percentage Of Alcohol By Volume	NABCA Alternate Percentage Of Alcohol By Volume	Speaker Top Mount Depth UOM
Contrast Ratio Static	Has Plexiglass Window?	NABCA Bottler Name	NABCA Bottler Name	Speaker Type
Control Panel Type	Has Pop Mode?	NABCA Discount Applied	NABCA Discount Applied	Speaker Use
Controlled Substance Amount	Has Progressive Scan?	NABCA Is Imported Item Inbound?	NABCA Is Imported Item Inbound?	Speakerphone Location
Controlled Substance Code	Has Pull Out Case?	NABCA Is Sold Under Any Other Label	NABCA Is Sold Under Any Other Label	Stand Alone Printer Functions
Controlled Substance Name	Has Push To Talk?	NABCA Item FOB Point	NABCA Item FOB Point	Standard Connection Types Available
Controlled Substance Regulatory Act	Has Quiet Operation?	NABCA Item Ship Point	NABCA Item Ship Point	Standby Time Amount
Controlled Substance Regulatory Agency	Has Radio Broadcast Replay?	NABCA Marine Insurance	NABCA Marine Insurance	Standby Time UOM
Controlled Substance Schedule Code	Has RCA Protected Jacks?	NABCA Net Cost FOB Ship Point	NABCA Net Cost FOB Ship Point	Start Availability Date
Controlled Substance Unit Of Measure	Has Rechargeable Battery?	NABCA Ocean Freight	NABCA Ocean Freight	Start Date of Max Buying Qty
Controller Type	Has Record Level Control?	NABCA Order Type	NABCA Order Type	Start Date of Min Buying Qty
Cooking Options	Has Remote Start?	NABCA Price Remarks	NABCA Price Remarks	Stereo Or Mono Output
Cooktop Burner Type	Has Remote Trunk Release?	NABCA Pricing Terms	NABCA Pricing Terms	Subwoofer Size
Cord Length	Has Removable Memory?	NABCA Representative For The State Address	NABCA Representative For The State Address	Subwoofer Size UOM

Participant Dictionary

Cord Length UOM	Has Removable Microphone?	NABCA Representative For The State Fax	NABCA Representative For The State Fax	Suggested Retail Price
Cordless Technology Type	Has Retractable Cord?	NABCA Representative For The State License Number	NABCA Representative For The State License Number	Suggested Retail Price Basis Per Unit
Country Of Origin Subdivision Code	Has Room Temperature Display?	NABCA Representative For The State Name	NABCA Representative For The State Name	Suggested Retail Price Basis Per Unit UOM
DBS Accessory Type	Has Round Cavity?	NABCA Representative For The State Telephone	NABCA Representative For The State Telephone	Suggested Retail Price Currency
Delivery Lead Time	Has Safety Warning?	NABCA Supplier Address	NABCA Supplier Address	Suggested Retail Price Effective End Date
Digital Download Software Compatibility	Has Self-timer?	NABCA Supplier Fax	NABCA Supplier Fax	Suggested Retail Price Effective Start Date
Directional Air Flow Control	Has Sensor?	NABCA Supplier Federal ID Number	NABCA Supplier Federal ID Number	Suggested Retail Price Sheet Name
Dishwasher Rack Type	Has Side Discharge?	NABCA Supplier State License Permit Number	NABCA Supplier State License Permit Number	Supplier Specified Minimum Consumer Price
Dispatch Unit Indicator	Has Sleep Timer?	NABCA Supplier Telephone	NABCA Supplier Telephone	Surround Sound Digital Decoder Types
Display Indicator Type	Has Slide Out Chassis?	NABCA US Freight	NABCA US Freight	Surround Speaker Type
Display Screen Type	Has Smart Power?	National Sanitation Foundation Compliant?	National Sanitation Foundation Compliant?	System Bus
Display Type List	Has Snooze Alarm?	Navigational Features	Navigational Features	System Bus UOM
Display/Screen Size	Has Sound Leveler?	Neck Type	Neck Type	Television Technology Type
Display/Screen Size UOM	Has Sound Reduction Package?	Nesting Overlap	Nesting Overlap	Television Tuner Type
Does Item Contain Controlled Substance?	Has Source Select?	Nesting Overlap UOM	Nesting Overlap UOM	Toaster Slot Type
Does Product Contain PVC?	Has Speaker Calibration?	Network Hub Computer Compatibility	Network Hub Computer Compatibility	Total Cooking Area
Does Product Contain SCCPs?	Has Special Finish And Packaging?	Network Product Type	Network Product Type	Total Cooking Area UOM
Dot Pitch	Has Speech Recognition?	Networking Status	Networking Status	Total Expansion Slots
Dots Per Inch	Has Starter Disable?	Networking Technology Type	Networking Technology Type	Trade Channel
Dry Cleaning Setting Type	Has Stay Clear Vents?	Nits Of Monitor Brightness	Nits Of Monitor Brightness	Trade Item Default Time Limit Of Auto Power Down Function UOM

Participant Dictionary

Dry System Type	Has Steam System?	Non GTIN Pallet Depth	Non GTIN Pallet Depth	Trade Item Default Time Limit Of Auto Power
DV Input Location	Has Stereo Audio Inputs Outputs?	Non GTIN Pallet Depth UOM	Non GTIN Pallet Depth UOM	Trade Item Display Method
DVD Capacity	Has Subwoofer Crossover Included?	Non GTIN Pallet Net Weight	Non GTIN Pallet Net Weight	Trade Item Or Accessory Mount Type
Ear Piece Style	Has Subwoofer?	Non GTIN Pallet Net Weight UOM	Non GTIN Pallet Net Weight UOM	Trade Items The Mount Accomodates
Efficiency Percent	Has Table Stand Included?	Non GTIN Pallet Volume	Non GTIN Pallet Volume	Transmitter Type
Electrical Usage Agency Code	Has Tablet Functionality?	Non GTIN Pallet Volume UOM	Non GTIN Pallet Volume UOM	Tub Design

Frequency Response High	Is 1 Ohm Stable?	Portable Kit Type	Portable Kit Type	Woofer Air Space
Frequency Response Low	Is Ambidextrous?	Power Protection Type	Power Protection Type	Woofer Air Space
Frequency Response Variance	Is Antenna Amplified?	Pre-amplifier Voltage	Pre-amplifier Voltage	Woofer Air Space UOM
Fuel Type	Is ATSC Format Capable?	Presentation Acceptance Date Time	Presentation Acceptance Date	Woofer Air Space UOM
Furniture Primary Color	Is AV Capable?	Price By Measure Type	Price By Measure Type	Woofer Size
Furniture Secondary Color	Is Bar Code ID Different Than Packaging?	Primary Delivery Method Type	Primary Delivery Method Type	Woofer Size
Furniture Style	Is Battery Operation Capable?	Processor Brand Name And Speed	Processor Brand Name And Speed	Woofer Size UOM
Gaming Chair Style	Is Built Into Digital Camera?	Product RoHS Compliance Code	Product RoHS Compliance Code	Woofer Size UOM
Gaming Peripheral Type	Is Cable Card Ready?	Product Series Identification	Product Series Identification	
Glass Door Style	Is Carrying Case Included?	Promotion Purchase Price	Promotion Purchase Price	
Goods Pick Up Lead Time	Is CD-R/CD-RW Compatible?	Promotion Purchase Price End Date	Promotion Purchase Price End Date	
Goods Pick Up Lead Time UOM	Is Controlled Substance?	Promotion Purchase Price Start Date	Promotion Purchase Price Start Date	

Participant Dictionary

GST Free Only To End Consumer	Is Cordless?	Purchase Price	Purchase Price	
GTIN Of Base Unit	Is Digital Cable Ready?	Purchase Price Start Date	Purchase Price Start Date	
Guitar Type	Is Dolby HX Pro Capable?	QAM Tuner?	QAM Tuner?	
Handling Instructions Description	Is Double-sided Printing Capable?	Quantity Of 3.5 Expansion Bays	Quantity Of 3.5 Expansion Bays	
Hard Drive Size	Is DVD Recorder?	Quantity Of 5.25 Expansion Bays	Quantity Of 5.25 Expansion Bays	
Hard Drive Size UOM	Is Energy Star Compliant?	Quantity Of Audio Channels	Quantity Of Audio Channels	
Has 360 Degree Perimeter?	Is EvDO Enabled?	Quantity Of Audio Inputs	Quantity Of Audio Inputs	
Has 8-point Digital Compass?	Is Frost Proof?	Quantity Of Audio Outputs	Quantity Of Audio Outputs	
Has AC/DC Adapter Included?	Is Hazardous Component Brokdown Easily For Recycle?	Quantity Of AV Inputs	Quantity Of AV Inputs	
Has Additional Batteries Included?	Is HDTV Compatible?	Quantity Of AV Outputs	Quantity Of AV Outputs	
Has Additional Storage?	Is Headset Compatible?	Quantity Of Bowls Included	Quantity Of Bowls Included	
Has Adjustable Arms?	Is Headset Included?	Quantity Of Bundle Handsets	Quantity Of Bundle Handsets	
Has Alarm?	Is Inhalant?	Quantity Of Camera Shooting Modes	Quantity Of Camera Shooting Modes	
Has Answering System?	Is Ink Fade Resistant?	Quantity Of CoAxial Inputs	Quantity Of CoAxial Inputs	
Has Aspect Ratio Control?	Is Ink High Yield?	Quantity Of CoAxial Outputs	Quantity Of CoAxial Outputs	
Has ATSC Tuner?	Is IPOD Ready?	Quantity Of Component Inputs	Quantity Of Component Inputs	
Has Auto Date Time Stamp?	Is Lightscribe Capable?	Quantity Of Component Outputs	Quantity Of Component Outputs	
Has Auto Defrost?	Is Mouse Included?	Quantity Of Component Slots	Quantity Of Component Slots	
Has Auto Focus?	Is Multi-roomCapable?	Quantity Of Composite Inputs	Quantity Of Composite Inputs	
Has Auto Oscillation?	Is Noise Canceling?	Quantity Of Composite Outputs	Quantity Of Composite Outputs	

Participant Dictionary

Has Auto Re-route?	Is Phone Line Required?	Quantity Of Connecting Pins	Quantity Of Connecting Pins	
Has Auto Reverse?	Is Price Indicated on Trade Item?	Quantity Of Contents In Multi-pack	Quantity Of Contents In Multi-pack	
Has Auto Shutoff?	Is Product A Pesticide?	Quantity Of Controller Buttons	Quantity Of Controller Buttons	
Has Automatic Film Prewind?	Is Product Aerosol?	Quantity Of Cups Capacity	Quantity Of Cups Capacity	
Has Automatic Temperature Control?	Is Product Chemical Not Intended For Human Consumption?	Quantity Of Cycles	Quantity Of Cycles	
Has Aux Input?	Is Product Considered Universal Waste?	Quantity Of Dedicated Video Memory	Quantity Of Dedicated Video Memory	
Has Backlit Keys?	Is Product Disassembly By Recycling Facility Completed Within 90 Days?	Quantity Of Dedicated Video Memory UOM	Quantity Of Dedicated Video Memory UOM	
Has Battery Backup?	Is Product RPPC Compliant in Target Market?	Quantity Of Delayed Start Hours	Quantity Of Delayed Start Hours	
Has Battery Included?	Is Product Subject To A Manufacturer Take Back Program?	Quantity Of Digital Audio Inputs	Quantity Of Digital Audio Inputs	
Has Broiler Feature?	Is Programmable?	Quantity Of Digital Audio Outputs	Quantity Of Digital Audio Outputs	
Has Bucket Full Indicator?	Is Satellite Radio Ready?	Quantity Of Digital Inputs	Quantity Of Digital Inputs	
Has Built In Battery?	Is Self Cooling?	Quantity Of Digital Outputs	Quantity Of Digital Outputs	
Has Built-in 2-way Radio?	Is Self Propelled?	Quantity Of Drum Sounds Included	Quantity Of Drum Sounds Included	
Has Built-in Amplifier?	Is Size Based Pricing?	Quantity Of DVI Inputs	Quantity Of DVI Inputs	
Has Built-in Handle?	Is SVHS Capability?	Quantity Of Effects	Quantity Of Effects	
Has Built-in HD Tuner?	Is THX Capable?	Quantity Of Fan Speeds	Quantity Of Fan Speeds	

APPENDIX AG – AGENTRICS EXTENSION INFORMATION

This appendix has been designed to work in conjunction with the *IM Participant Dictionary* and the *Data Source GDSN Interoperability Guide* to provide the attribute information necessary to meet the requirements of Agentrics (formerly WWRE). It provides a summary of the core 1SYNC IM trade item attributes required for data synchronization as well as all of the Agentrics Extension attributes. For additional information on the core 1SYNC trade item attributes, please reference the 1SYNC IM *Participant Dictionary*.

Sending the Agentrics Extension on a CIN Message

The Agentrics Extension will be sent to Subscribers that are configured at 1SYNC to receive the extension AND when the Information Provider has provided data applicable for the extension.

Agentrics Extension Information

The Agentrics Extension schema will be hosted at Agentrics at:

<http://www.worldwideretailexchange.org/cs/xmlschemas/WIM3.0/wwreItem.xsd>

APPENDIX APP – GDSN CIN SOFTLINES (APPAREL) EXTENSION INFORMATION

This appendix has been designed to work in conjunction with the 1SYNC *IM Participant Dictionary*, the *Data Source GDSN Interoperability Guide*, the *Data Source 1SYNC XML Guide*, the *Data Recipient 1SYNC XML Guide*, and the *1SYNC IM Valid Values* documents to provide a summary of the core 1SYNC IM trade item attributes required for data synchronization, as well all of the Softlines (Apparel & Clothing) CIN Extension attributes. For additional information on the core 1SYNC trade item attributes, please reference the *1SYNC IM Participant Dictionary*.

Sending the Softlines Extension on a CIN Message

The Softlines(Apparel & Clothing) CIN Extension will be sent to customers that are configured at 1SYNC to receive the extension. The Softlines CIN Extension is considered Optional and will be sent to the Retailer once the Retailer GLN is setup to receive the extension, and will only be present on the CIN message if all of the conditions are met and all validations have been passed.

								will be used by Cora Belgium to retrieve the pricing structure of a new synchronised product. This code is communicated by Cora Belgium to the manufacturer when a contract gets agreed by both parties. It is the responsibility of the manufacturer to decide to which pre-defined segment a new product belongs. For instance, a manufacturer selling both frozen and unfrozen foods can decide to have different pricing structures for those 2 sectors, so that each sector would require a specific code. It is the responsibility of the manufacturer, owner of his data products, to decide to which sector a new product will be assigned; and by transmitting the associated code he lets the retailer know which pricing structure is employed.

groupeTarifaire	Groupe Tarifaire	groupeTarifaire	AVP869	O	String	1/11	0 to 1	<p>graphics are used.</p> <p>This attribute is representative of a manufacturer portfolio segmentation, made by the supplier, for grouping products that follow the same Pricing conditions at level 1; each of those segments are given 1 unique code by Cora Belgium that will be used by Cora Belgium to retrieve the pricing structure of a new synchronised product. This code is communicated by Cora Belgium to the manufacturer when a contract gets agreed by both parties. It is the responsibility of the manufacturer to decide to which pre-defined segment a new product belongs. For instance, a manufacturer selling both frozen and unfrozen foods can decide to have different pricing structures for those 2 sectors, so that each sector would require a specific code.</p>	AVP BELGIUM

APPENDIX BAR – GDSN CIN BARCODE EXTENSION INFORMATION

This appendix has been designed to work in conjunction with the *1SYNC IM Participant Dictionary*, the *Data Source GDSN Interoperability Guide*, and the *1SYNC IM Valid Values List* documents to provide a summary of the core 1SYNC IM trade item attributes required for data synchronization, as well all of the Barcode Extension attributes. For additional information on the core 1SYNC trade item attributes, please reference the *1SYNC IM Participant Dictionary*.

Sending the Barcode Extension on a CIN Message

The Barcode Extension will be sent to customers that are configured at 1SYNC to receive the extension. The Barcode Extension is considered Optional and will be sent to the Retailer once the Retailer GLN is setup to receive the extension and will only be present on the CIN message if all of the conditions are met and all validations have been passed.

Along with the Retailer setup, either (EANUCCCode, EANUCCType) AND/OR isBarCodeDerivable must be present and in the valid format for the Barcode extension to be created on the CIN.

APPENDIX CAN – GS1 CANADA-SPECIFIC ATTRIBUTE INFORMATION

This appendix has been designed to work in conjunction with the *1SYNC IM Participant Dictionary*, the *Data Source 1SYNC XML Guide*, the *Data Recipient 1SYNC XML Guide*, and the *1SYNC IM Valid Values List* documents to provide a summary of the core 1SYNC IM trade item attributes required for data synchronization, as well all of the GS1 Canada-specific attributes. For additional information on the core 1SYNC trade item attributes, please reference the *1SYNC IM Participant Dictionary*.

Sending the GS1 Canada-specific attributes on the 1SYNC XML CIN Message

The attributes mapped specifically to GS1 Canada in the 1SYNC XML CIN message will be sent to customers that are configured at 1SYNC to receive these attributes. The Canada-specific attributes are considered Optional and will be sent to GS1 Canada once the receiver GLNs are setup to receive these attributes and will only be present on the CIN message if all of the conditions are met and all validations have been passed.

Participant Dictionary

General Mapping Rules, Validations, and Resulting Responses

Listed below are the 1SYNC Item attributes mapped specifically to GS1 Canada in the 1SYNC XML CIN message with the applicable mapping logic. Also listed are potential error conditions resulting in a message or a failure as noted in the table below.

IM GUI Attribute Name	1SYNC XML Name	Spreadsheet Load Tool Attribute Qualifier (ATII)	M/O/D to map extension	Data Type	Min/Max Length	Occurrence	Business Definition	Logic / Mapping Notes
GS1 Canada CIN Extension Attribute Map								
Reinstatement Date	reinstatementDate	CAN001	O	DateTime		0 or 1	The date when a previously discontinued item is reinstated and again available for ordering.	
Not Legal to Advertise	notLegalToAdvertise	CAN002	O	String		0 or more	Indicates whether or not the item is not legal to advertise by province.	Value is mapped inbound if within "Canadian Provinces" valid values list found in the <i>1SYNC IM Valid Values List</i> ; otherwise an error will be sent. Relevant for RX Products only.
Not Legal to Discount	notLegalToDiscount	CAN003	O	String	2/2	0 or more	Indicates whether or not the item is not legal to discount by province (i.e. the item is subject to government regulation regarding either price floors or pricing practices).	Relevant for RX Products only.
GST/HST Applicable?	gSTHSTApplicable	CAN004	O	String	1/10	0 or 1	Indicates whether or not GST/HST taxes are applicable to the product at point of sale to the consumer.	Value is mapped inbound if within "GST/HST Applicable Values" valid values list found in the <i>1SYNC IM Valid Values List</i> , otherwise an error will be sent.

Participant Dictionary

IM GUI Attribute Name	1SYNC XML Name	Spreadsheet Load Tool Attribute Qualifier (ATII)	M/O/D to map extension	Data Type	Min/Max Length	Occurrence	Business Definition	Logic / Mapping Notes
GS1 Canada CIN Extension Attribute Map								
PST Applicable by Province	pSTApplicableByProvince	CAN005	O	String	2/2	0 to many	Taxes applicable to the product at point-of-sale to the consumer. A two part code consisting of: Part I, PST = Provincial Sales Tax and Part II, The two-character province or territory code.	Value is mapped inbound if within "Canadian Provinces" valid values list found in the <i>1SYNC IM Valid Values List</i> , otherwise an error will be sent.
Environmental Levy Applicable by Province	environmentalLevyApplicableByProvince	CAN006	O	String	2/2	0 to many	This is a code that is used to identify packaging features valuable for consumers or any party in the supply chain.	Value is mapped inbound if within "Canadian Provinces" valid values list found in the <i>1SYNC IM Valid Values List</i> , otherwise an error will be sent.
Juice Content Percentage	juiceContentPercentage	CAN007	O	Decimal	1/5,2	0 or 1	For natural beverages - the percentage concentration of natural juice. Required for products having sufficient concentration to have different treatment under GST legislation.	
Marked Lot Number	markedLotNumber	CAN008	O	Boolean		0 or 1	Identifies that the product is marked with a lot number.	
Weight Scale Description	weightScaleDescription	CAN009	O	String	1/26	0 or 1	For Produce and Fresh Meat variable weight items a description to appear on the weight scale generated label. Formatted as two lines of up to 26 characters.	Language-specific attribute
Special Handling Code - Transportation	specialHandlingCodeTransportation	CAN011	O	String	3/3	0 or 1	Specifies special transportation handling instructions.	Value is mapped inbound if within "Handling Instruction Code" valid values list found in the <i>1SYNC IM Valid Values List</i> , otherwise an error will be sent.

APPENDIX EG – ELECTRONIC GAMING EXTENSION INFORMATION

This appendix has been designed to work in conjunction with the *IM Participant Dictionary*, the *Data Source GDSN Interoperability Guide*, and the *1SYNC IM Valid Values List* to provide the attribute information necessary to meet the requirements of the Electronic Gaming sector. It provides a summary of the core 1SYNC IM trade item attributes required for data synchronization, as well as all of the Electronic Gaming Extension attributes.

Sending the Electronic Gaming Extension on a CIN Message

If a retailer/interop partner is set up to receive the Electronic Gaming Extension, that retailer/interop will receive the extension if the manufacturer populates any of the attributes within the extension.

In the event that the information provider populates any fields, but does not populate all the other mandatory fields or an extension specific validation is not passed, the CIN will be sent without the extension data.

Participant Dictionary

APPENDIX FB – GDSN FOOD AND BEVERAGE CIN EXTENSION INFORMATION

This appendix has been designed to work in conjunction with the *1SYNC IM Participant Dictionary*, the *Data Source GDSN Interoperability Guide*, the *Data Source 1SYNC XML Guide*, the *Data Recipient 1SYNC XML Guide*, and the *1SYNC IM Valid Values List* documents to provide a summary of the core 1SYNC IM trade item attributes required for data synchronization, as well all of the Food and Beverage CIN Extension attributes. For additional information on the core 1SYNC trade item attributes, please reference the *1SYNC IM Participant Dictionary*.

Sending the Food and Beverage Extension on a CIN Message

The Food and Beverage CIN Extension will be sent to customers that are configured at 1SYNC to receive the extension. The Food and Beverage CIN Extension is considered Optional and will be sent to the Retailer once the Retailer GLN is setup to receive the extension and will only be present on the CIN message if all of the conditions are met and all validations have been passed. 1SYNC is only mapping a subset of the standard GDSN Food and Beverage CIN Extension, and all sections are optional. As long as one of the optional attributes is present, and the Retailer is setup to receive it, the Food and Beverage CIN Extension will be attempted to be attached to the core CIN message.

Participant Dictionary

General Mapping Rules, Validations, and Resulting Responses

Listed below are the 1SYNC Item attributes mapped in the Food and Beverage CIN Extension with the applicable mapping logic. Also listed are potential error conditions resulting in a message or a failure as noted in the table below.

IM GUI Attribute Name	1SYNC XML Name	GDSN CIN Extension Name	Spreadsheet Load Tool Attribute Qualifier (ATII)	M/O/D to map extension	Data Type	Min/Max Length	Occurrence	Business Definition	Logic / Mapping Notes
GDSN CIN Food and Beverage Extension Attribute Map									
Allergen Statement	allergenStatement	allergenStatement	FNB039	O	Text	1/1000	0 to many by lang	Textual description of the presence or absence of allergens as governed by local rules and regulations, specified as one string.	Language-specific attribute
Allergen Specification Agency	foodAndBevAllergen/allergenSpecificationAgency	allergenSpecificationAgency	FNB001	D	Text	1/70	1 (in group "foodAndBevAllergen," which allows 0 to many)	Agency that controls the allergen definition.	All dependent attributes must be populated. Dependent attributes include: <ul style="list-style-type: none"> Allergen Specification Agency (FNB001) Allergen Specification Name (FNB002) Allergen Type Code (FNB003) Level Of Containment (FNB004)
Allergen Specification Name	foodAndBevAllergen/allergenSpecificationName	allergenSpecificationName	FNB002	D	Text	1/70	1 (in group "foodAndBevAllergen," which allows 0 to many)	Free text field containing the name and version of the regulation or standard that contains the definition of the allergen.	All dependent attributes must be populated. Dependent attributes include: <ul style="list-style-type: none"> Allergen Specification Agency (FNB001) Allergen Specification Name (FNB002) Allergen Type Code (FNB003) Level Of Containment (FNB004)

APPENDIX FR – FRENCH EXTENSION INFORMATION

This appendix has been designed to work in conjunction with the *1SYNC IM Participant Dictionary* and the *Data Source GDSN Interoperability Guide* to provide the attribute information necessary to meet the requirements of the French Market sector. It provides a summary of the core 1SYNC IM trade item attributes required for data synchronization as well as all of the 2.8 French Extension attributes. For additional information on the core 1SYNC trade item attributes, please reference the *1SYNC IM Participant Dictionary*.

2.7 French Extension General Requirements

ORGANIZATION SETUP

In order to receive the 2.8 French Extension, the following must be set up:

- No additional setup is required for an Information Provider (IP) to send data to a subscriber with the 2.8 French Extension. The IP must publish data to the Subscriber GLN that is configured at 1SYNC to receive the synchronized data via the extension.
- Data Pools and retailers that want to receive the 2.8 French extension attributes must have their Subscriber GLN configured at 1SYNC to receive the 2.8 French Extension. Contact Customer Support to request this setup.

SENDING THE 2.8 FRENCH EXTENSION ON A CIN MESSAGE

The 2.8 French CIN Extension should be implemented as optional for those data pools and retailers who are set up to receive it and the presence of any one or more of the attributes included in the 2.8 French Extension should be the trigger to invoke the extension logic. If the requirements of the extension are not met, the extension should not be formed and the CIN should be sent without the extension.

Attribute Mapping

EXTENSION INFORMATION

2.0.3 French Extension Schema Information

The GDSN 2.8 Schema used in the 1SYNC GDSN CIN will be hosted at GS1 France. The schema is hosted at the location specified in the namespace, which can be found in the Extension's beginning tag:

```
<fr:FRTTradeItemInformation xmlns:fr="urn:gs1fr:align:extension_Fr:2.1.1" xmlns:xsi="http://www.w3.org/2001/XMLSchema-instance" xsi:schemaLocation="urn:gs1fr:align:extension_Fr:2.1.1 http://www.gs1parangon.fr/2.7/schemas/extension_Fr/2.7/Extension_Fr.xsd">
```

APPENDIX HLC – GDSN CIN HEALTHCARE EXTENSION INFORMATION

This documentation has been designed to work in conjunction with the *1SYNC IM Participant Dictionary*, the *Data Source GDSN Interoperability Guide*, the *Data Source 1SYNC XML Guide*, the *Data Recipient 1SYNC XML Guide*, and the *1SYNC IM Valid Values List* documents to provide a summary of the core 1SYNC Item Management (IM) trade item attributes required for data synchronization, as well all of the Healthcare CIN Extension attributes. For additional information on the core 1SYNC trade item attributes, please reference the *1SYNC IM Participant Dictionary*.

Sending the Healthcare Extension on a CIN Message

The Healthcare CIN Extension will be sent to customers that are configured at 1SYNC to receive the extension. The Healthcare CIN Extension is considered Optional – it will be sent to the retailer once the Retailer GLN is set up to receive the extension and will only be present on the CIN message if all of the conditions are met and all validations have been passed. As long as the attributes are present, and the retailer is set up to receive it, the Healthcare CIN Extension will be attempted to be attached to the core CIN message.

Participant Dictionary

General Mapping Rules, Validations, and Resulting Responses

Listed below are the 1SYNC Item attributes mapped in the Healthcare CIN Extension with the applicable mapping logic. Also listed are potential error conditions resulting in a message or a failure as noted in the table below.

IM GUI Attribute Name	1SYNC XML Name	GDSN CIN Extension Name	Spreadsheet Load Tool Attribute Qualifier (ATII)	M/O/D to map extension	Data Type	Min/Max Length	Occurrence	Business Definition	Logic / Mapping Notes
GDSN CIN Healthcare Extension Attribute Map									
Does Trade Item Contain Human Blood Derivative?	doesTradeItemContainHumanBloodDerivative	doesTradeItemContainHumanBloodDerivative	HLC001	O	Text	1/60	0 to 1	The use of this attribute indicates that the trade item is a product that contains blood, blood components or blood products used in the manufacturing.	
Does Trade Item Contain Latex?	doesTradeItemContainLatex	doesTradeItemContainLatex	HLC002	O	Text	1/60	0 to 1	An indication that a trade item is made from or contains latex which refers generically to a stable dispersion (emulsion) of polymer microparticles in an aqueous medium.	
Is Trade Item Considered Generic?	isTradeItemConsideredGeneric	isTradeItemConsideredGeneric	HLC003	O	Text	1/60	0 to 1	An indication that the trade item is being produced by someone other than the Brand Innovator of the product. A value of no indicates that it is not considered a "Generic Substitution" of another product.	

Participant Dictionary

APPENDIX MR – GDSN CIN MUSIC RECORDING EXTENSION INFORMATION

This appendix has been designed to work in conjunction with the *IM Participant Dictionary*, the *Data Source GDSN Interoperability Guide*, and the *1SYNC IM Valid Values List* to provide the attribute information necessary to meet the requirements of the Music Entertainment sector. It provides a summary of the core 1SYNC IM trade item attributes required for data synchronization, as well as all of the Music Recording Extension attributes.

Sending the Music Recording Extension on a CIN Message

If a retailer/interop partner is set up to receive the Music Recording Trade Item Extension, that retailer/interop will receive the extension ONLY if the manufacturer populates the trigger fields listed below, along with all other mandatory extension fields. The relevant validations must also be passed.

- labelName
- musicPublicationTitle
- parentalAdvisoryStickerCode

In the event that the information provider populates the trigger fields, but does not populate all the other mandatory fields or an extension-specific validation is not passed, the CIN will be sent without the extension data.

APPENDIX NGLU – GDSN NON GTIN LOGISTICAL UNIT CIN EXTENSION INFORMATION

This documentation has been designed to work in conjunction with the *1SYNC IM Participant Dictionary*, the *Data Source GDSN Interoperability Guide*, the *Data Source 1SYNC XML Guide*, the *Data Recipient 1SYNC XML Guide*, and the *1SYNC IM Valid Values List* documents to provide a summary of the core 1SYNC Item Management (IM) trade item attributes required for data synchronization, as well all of the Non GTIN Logistical Unit CIN Extension attributes. For additional information on the core 1SYNC trade item attributes, please reference the *1SYNC IM Participant Dictionary*.

Sending the Non GTIN Logistical Unit Extension on a CIN Message

The Non GTIN Logistical Unit CIN Extension will be sent to customers that are configured at 1SYNC to receive the extension. The Non GTIN Logistical Unit CIN Extension is considered Optional – it will be sent to the retailer once the Retailer GLN is set up to receive the extension and will only be present on the CIN message if all of the conditions are met and all validations have been passed. As long as the attributes are present, and the retailer is set up to receive it, the Non GTIN Logistical Unit CIN Extension will be attempted to be attached to the core CIN message.

Participant Dictionary

General Mapping Rules, Validations, and Resulting Responses

Listed below are the 1SYNC Item attributes mapped in the Non GTIN Logistical Unit CIN Extension with the applicable mapping logic. Also listed are potential error conditions resulting in a message or a failure as noted in the table below.

IM GUI Attribute Name	1SYNC XML Name	GDSN CIN Extension Name	Spreadsheet Load Tool Attribute Qualifier (ATII)	M/O/D to map extension	Data Type	Min/Max Length	Occurrence	Business Definition	Logic / Mapping Notes
GDSN CIN Non GTIN Logistical Unit Extension Attribute Map									
Logistical Unit Stacking Factor	logisticalUnitStackingFactor	logisticsUnitStackingFactor	NGU001	O	integer	1/9	0 to 1	The stacking factor of both the unit load (content) and the platform upon which the goods are carried, if there is one. A stacking factor determines the maximum stacking for the product. Indicates the number of levels the product may be stacked.	If any of the Non-Logistical attributes are populated, all attributes within this extension become mandatory.
Logistical Unit Depth	logisticalUnitDepth	logisticsUnitWeightAndDimension/depth	NGU002	O	Decimal	38,15	0 to 1	The depth of both the unit load (content) and the platform upon which the goods are carried, if there is one. Depth is the measurement from front to back.	If any of the Non-Logistical attributes are populated, all attributes within this extension become mandatory.
Logistical Unit Depth UOM	logisticalUnitDepth/uom	logisticsUnitWeightAndDimension/depth unitOfMeasure	NGU003	D	Text	2/5	0 to 1	The UOM of the Logistical Unit Depth	If any of the Non-Logistical attributes are populated, all attributes within this extension become mandatory.

APPENDIX NTH – NETHERLANDS CIN EXTENSION INFORMATION

This appendix has been designed to work in conjunction with the *IM Participant Dictionary* and the *Data Source GDSN Interoperability Guide* to provide the attribute information necessary to meet the requirements of the Netherlands Market. It provides a summary of the core 1SYNC IM trade item attributes required for data synchronization as well as all of the Netherlands Extension attributes. For additional information on the core 1SYNC trade item attributes, please reference the *1SYNC IM Participant Dictionary*.

Sending the Netherlands Extension on a CIN Message

The Netherlands Extension will be sent to Subscribers that are configured at 1SYNC to receive the extension. Once the Subscriber GLN is setup to receive the extension, the extension will **always** be present on the message.

If the Information Provider does not populate all required Netherlands Extension attributes, the message will not be created for that hierarchy and an Item Sync Response error will be created.

Participant Dictionary

1SYNC Netherlands CIN Extension Attribute Map

NETHERLANDS EXTENSION ATTRIBUTE REQUIREMENTS FOR INFORMATION PROVIDER

Listed below are the 1SYNC Item attributes mapped in the Netherlands Extension with the applicable mapping logic.

IM GUI Attribute Name	1SYNC XML Name	GDSN CIN Extension Name	Spreadsheet Load Tool Attribute Qualifier (ATII)	M/O/D to map extension	Data Type	Min/Max Length	Occurrence	Business Definiton	Logic / Mapping Notes
Netherlands CIN Extension Attribute Map									
Price Comparison Measurement	priceComparisonMeasurement	basePriceRelevantNetContent	WRE05	D	Decimal	1/38,15	0 to 1		Value is not mapped if all of the dependent attributes are not populated: Price Comparison Measurement Price Comparison Measurement UOM
Price Comparison Measurement UOM	priceComparisonMeasurementUOM	basePriceRelevantNetContent@unitOfMeasure	WRE06	D	String	1/3	0 to 1		Value is not mapped if all of the dependent attributes are not populated: Price Comparison Measurement Price Comparison Measurement UOM
Descriptive Size	productSize/descriptiveSize	clothingSize	U37	O	String	1/8	0 to 1		Value is not mapped if Data Type is incorrect. Value is truncated to 8.
Contact GLN	localGln	contactGLN	U420001	O	Integer	13/13	0 to 1		Value is mapped if Data Type and Length are correct, otherwise an Item Sync Response message is returned.
Country of Last Provenance	countryOfLastProvenance	countryOfLastProvenance	DAS002	O	String	2/2	0 to 1		Value is not mapped if Data Type and Length are incorrect. Valid Values based on ISO Standards. 2-character alpha codes are accepted by IM inbound and are converted to 3-digit numeric country codes outbound.
Customs Classification Code	customsClassificationCode	customsTariffNumber		O	String	11/11	0 to 1		Value is not mapped if Data Type and Length are incorrect.
Dangerous Goods Hazard Identification Number	dangerousGoodsHazardIdentificationNumber	dangerousGoodsHazardIdentificationNumber	DAS003	O	String	1/3	0 to 1		Value is not mapped if Data Type and Length are incorrect.

APPENDIX PRO – GDSN PROMOTIONAL TRADE ITEM CIN EXTENSION INFORMATION

This documentation has been designed to work in conjunction with the *1SYNC IM Participant Dictionary*, the *Data Source GDSN Interoperability Guide*, the *Data Source 1SYNC XML Guide*, the *Data Recipient 1SYNC XML Guide*, and the *1SYNC IM Valid Values List* documents to provide a summary of the core 1SYNC Item Management (IM) trade item attributes required for data synchronization, as well all of the Promotional Trade Item CIN Extension attributes. For additional information on the core 1SYNC trade item attributes, please reference the *1SYNC IM Participant Dictionary*.

Implementation Guide for the Promotional Trade Item Extension

The GDSN Trade Item Implementation Guide includes specifications and use cases for the Promotional Trade Item Extension. This guide, the GDSN Trade Item Implementation Guide Issue 11 (or later issue) can be found at:
<http://www.gs1.org/services/gsmg/kc/gdsn/index.html>

Sending the Promotional Trade Item Extension on a CIN Message

The Promotional Trade Item CIN Extension will be sent to customers that are configured at 1SYNC to receive the extension. The Promotional Trade Item CIN Extension is considered Optional – it will be sent to the retailer once the Retailer GLN is set up to receive the extension and will only be present on the CIN message if all of the conditions are met and all validations have been passed. As long as the attributes are present, and the retailer is set up to receive it, the Promotional Trade Item CIN Extension will be attempted to be attached to the core CIN message.

Sending the Promotional Trade Item Extension attributes to IM

1SYNC XML and GUI users can send multiple occurrences of the Promotional Trade Item Extension attributes (in other words, multiple “loops” of the “promotional” group can be populated). However, 1SYNC Spreadsheet Load Tool users are restricted to sending 1 occurrence of the Promotional Trade Item Extension attributes (in other words, only a single “loop” of the “promotional” group can be populated).

Participant Dictionary

General Mapping Rules, Validations, and Resulting Responses

Listed below are the 1SYNC Item attributes mapped in the Promotional Trade Item CIN Extension with the applicable mapping logic. Also listed are potential error conditions resulting in a message or a failure as noted in the table below.

IM GUI Attribute Name	1SYNC XML Name	GDSN CIN Extension Name	Spreadsheet Load Tool Attribute Qualifier (ATII)	M/O/D to map extension	Data Type	Min/Max Length	Occurrence	Business Definition	Logic / Mapping Notes
GDSN CIN Promotional Trade Item Extension Attribute Map									
Free Quantity of Next Lower Level	promotional/freeQtyOfNextLowerLevel	freeQuantityOfNextLowerLevelTradeItem/measurementValue/value	AVP734	D	Float	1/15,15	0 to many (in group "promotional," which allows 0 to many)	The numeric quantity of free items in a combination pack. If the free quantity promotional trade item is simple or is a multi-pack, the free quantity is populated. The unit of measure must be the same as the unit of measure of the Net Content of the Child Trade Item.	All dependent attributes must be populated. Dependent attributes include: <ul style="list-style-type: none"> Free Quantity of Next Lower Level (AVP734) Free Quantity of Next Lower Level UOM (AVP735) If populated, Consumer Unit Indicator must be 'true'. For a given Non Promotional Item/Promotional Type Code combination, cannot populate both Free Quantity of Next Lower Level/UOM and Free Quantity of Product/UOM. Must populate one or the other, or neither.

Participant Dictionary

GDSN CIN Promotional Trade Item Extension Attribute Map									
Non Promotional Item	promotional/nonPromotionalItem	nonPromotionalItem/gtin	AVP051	M	Text	14/14	1 (in group "promotional," which allows 0 to many)	The GTIN of the standard trade item. Used to indicate which trade item the promotional trade item replaces or coexists with. To enable the linking of identification and therefore of information between the two trade items.	If populated, Consumer Unit Indicator must be 'true'. For trade items where the Target Market = Netherlands, GTIN numbers starting with 0020-0029, 0040-0049, and 0200-0299 are not allowed.
Promotional Type Code	promotional/promotionalTypeCode	promotionalTypeCode	AVP052	M	Text	1/60	1 (in group "promotional," which allows 0 to many)	Used to identify the different types of free quantity promotional trade items and the nature of the link between the standard trade item and the promotional trade item.	If populated, Consumer Unit Indicator must be 'true'. Value is mapped inbound only if within "Promotional Type Code" valid values list.

APPENDIX SA – SOUTH AFRICA R146 CIN EXTENSION INFORMATION

This appendix has been designed to work in conjunction with the *1SYNC IM Participant Dictionary*, the *Data Source 1SYNC XML Guide*, the *Data Recipient 1SYNC XML Guide*, and the *1SYNC IM Valid Values List* documents to provide a summary of the core 1SYNC IM trade item attributes required for data synchronization, as well all of the South Africa R146 Extension attributes. For additional information on the core 1SYNC trade item attributes, please reference the *1SYNC IM Participant Dictionary*.

South Africa R146 Extension General Requirements

ORGANIZATION SETUP

In order to receive the R146 South Africa Extension, the following must be set up:

- No additional setup is required for an Information Provider (IP) to send data to a subscriber with the R146 South Africa Extension. The IP must publish data to the Subscriber GLN that is configured at 1SYNC to receive the synchronized data via the extension.
- Data Pools and retailers that want to receive the South Africa R146 Extension attributes must have their Subscriber GLN configured at 1SYNC to receive the South Africa R146 Extension. Contact Customer Support to request this setup.

SENDING THE 2 R146 SOUTH AFRICA EXTENSION ON A CIN MESSAGE

The South Africa R146 CIN Extension should be implemented as optional for those data pools and retailers who are set up to receive it and the presence of any one or more of the attributes included in the South Africa R146 should be the trigger to invoke the extension logic. If the requirements of the extension are not met, the extension should not be formed and the CIN should be sent without the extension.

Participant Dictionary

General Mapping Rules, Validations, and Resulting Responses

GDSN CIN – SOUTH AFRICA R146 CIN EXTENSION ATTRIBUTE REQUIREMENTS

Listed below are the 1SYNC Item attributes mapped in the South Africa R146 CIN Extension with the applicable mapping logic.

IM GUI Attribute Name	1SYNC XML Name	GDSN CIN EXTENSION NAME	Spreadsheet Load Tool Attribute Qualifier (ATII)	M/O/D to map extension	Data Type	Min/Max Length	Occurrence	Business Definition	Logic / Mapping Notes
Country of Assembly	tradeItemCountryOfAssembly	tradeItemCountryOfAssembly	CRE036	O	text	1/60	0 or 1	Country where product is assembled.	Map As Is
Country of Last Provenance/Processing	countryOfLastProvenance	countryOfLastProvenance	DAS002	O	text	1/60	0 or 1	The code that identifies the country in which the trade item was last processed and tested before importation.	Map As Is
Is the Item Flavouring?	isItemFlavouring	N/A	GSA002	O	text	1/60	0 or More	This is true when:- a foodstuff contains a flavouring of an ingredient, but not the real ingredient itself.	Map As Is
Is Ingredient Irradiated?	isIngredientIrradiated	ingredientIrradiatedCode	FMC001	O	text	1/60	0 or 1	Indicates if radiation has been applied to a trade item's ingredient.	Map As Is
Is Item Wild Caught?	isTradeItemWildCaught	N/A	GSA003	O	text	1/60	0 or 1	Misleading descriptions - fish and other marine foodstuffs that are regulated in terms of the National Regulator for Compulsory Specifications Act, 2008 (Act 5 of 2008), the statement "wild" shall not be permitted unless it is qualified as	Map As Is

Participant Dictionary

APPENDIX SI – SINFOS EXTENSION INFORMATION

Please Note that the SINFOS Extension will be Sunset on November 28, 2011 and will be replaced with attributes that are supported by the GDSN standards and have been implemented by 1SYNC. For migration assistance, please refer to the SINFOS migration guide located on the 1SYNC Solution Center or contact 1SYNC Customer Support.

This Supplemental Implementation Guide for the German-Finnish Extension has been designed to work in conjunction with the Item Management (IM) *Participant Dictionary* and the *Data Source GDSN Interoperability Guide* to provide the attribute information necessary to meet the requirements of the German-Finnish Market. It provides a summary of the core 1SYNC IM trade item attributes required for data synchronization as well as all of the German-Finnish Extension attributes. For additional information on the core 1SYNC trade item attributes, please reference the 1SYNC *IM Participant Dictionary*.

SINFOS CIN EXTENSION GENERAL REQUIREMENTS

Organization Setup

In order to receive the SINFOS CIN Extension, the following must be set up:

No additional setup is required for an Information Provider (IP) to send data to a subscriber with the extension. The IP must publish data to the Subscriber GLN that is configured at 1SYNC to receive the synchronized data via the extension.

Datapools and retailers that want to receive the SINFOS CIN Extension attributes must have their Subscriber GLN configured at 1SYNC to receive the SINFOS CIN Extension. Contact Customer Support to request this setup.

Sending the SINFOS Extension on a CIN Message

The SINFOS CIN Extension should be implemented as optional for those data pools and retailers who are set up to receive it and the presence of any one or more of the attributes included in the SINFOS Extension should be the trigger to invoke the extension logic. If the requirements of the extension are not met, the extension should not be formed and the CIN should be sent without the extension.

Participant Dictionary

APPENDIX TC – GDSN EXTENSION SPECIFIC TECHNICAL CHARACTERISTICS CIN EXTENSION INFORMATION

This appendix has been designed to work in conjunction with the *1SYNC IM Participant Dictionary*, the *Data Source GDSN Interoperability Guide*, and the *1SYNC IM Valid Values List* documents to provide a summary of the core 1SYNC IM trade item attributes required for data synchronization, as well all of the Extension Specific Technical Characteristics Extension attributes. For additional information on the core 1SYNC trade item attributes, please reference the *1SYNC IM Participant Dictionary*.

Sending the Technical Characteristics Extension on a CIN Message

The Extension Specific Technical Characteristics Extension will be sent to customers that are configured at 1SYNC to receive the extension. The Extension Specific Technical Characteristics Extension is considered Optional. It will be sent to the Retailer once the Retailer GLN is set up to receive the extension and will only be present on the CIN message if all of the conditions are met and all validations have been passed.

Along with the Retailer setup, the combination of *categoryAgencyCode*, *characteristicsCategoryCode*, and *characteristicsCode* will trigger IM to attempt to create and send the extension.

Participant Dictionary

General Mapping Rules, Validations, and Resulting Responses

Listed below are the 1SYNC Item attributes mapped in the Extension Specific Technical Characteristics Extension with the applicable mapping logic. Also listed are potential error conditions resulting in a message or a failure as noted in the table below.

IM GUI Attribute Name	1SYNC XML Name	GDSN CIN Extension Name	Spreadsheet Load Tool Attribute Qualifier (ATII)	M/O/D to map extension	Data Type	Min/Max Length	Occurrence	Business Definition	Logic / Mapping Notes
GDSN CIN Extension Specific Technical Characteristics Extension Attribute Map									
categoryAgencyCode	technicalCharacteristics/categoryAgencyCode	categoryAgencyCode	TECH001	M	String	1/3	1	Agency to which the characteristics data applies to.	
characteristicsCategoryCode	technicalCharacteristics/characteristicsCategoryCode	characteristicsCategoryCode	TECH002	M	String	1/17	1	Highest level classification code within the specified agency.	
characteristicsCode	technicalCharacteristics/characteristicsCode	characteristicsCode	TECH003	M	String	1/17	1	Code associated with a specific attribute within the specified agency.	
characteristicsValueCode	technicalCharacteristics/characteristicsInformation/characteristicsValueCode	characteristicsValueCode	TECH004	O	String	1/17	1 or more	Value corresponding to the characteristicsCode	This is a choice attribute between characteristicsValueCode, characteristicsMeasurement value, and characteristicsDescription

characteristicsMeasurement@qual	technicalCharacteristics/characteristicsInformation/characteristicsMeasurementUOM	characteristicsMeasurement@unitOfMeasure	TECH006	D	String	0/3	1	Unit of measure corresponding to the measurement value.	
characteristicsDescription	technicalCharacteristics/characteristicsInformation/characteristicsDescription	characteristicsDescription	TECH007	O	String	1/70	0 or more	Free form text description corresponding to the characteristicsCode	This is a choice attribute between characteristicsValueCode, characteristicsMeasurement value, and characteristicsDescription
additionalCharacteristicsDescription	technicalCharacteristics/additionalCharacteristicsDescription	additionalCharacteristicsDescription	TECH008	O		1/1000	0 Or More	An additional description of the product's technical characteristics.	

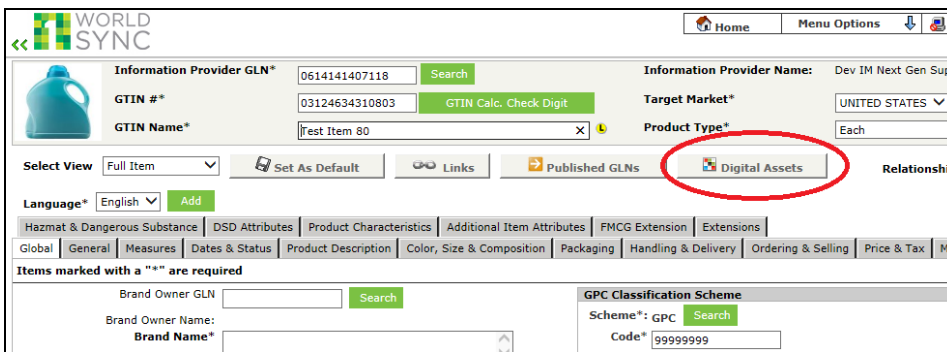

Participant Dictionary

APPENDIX DM – DIGITAL ASSET MANAGEMENT

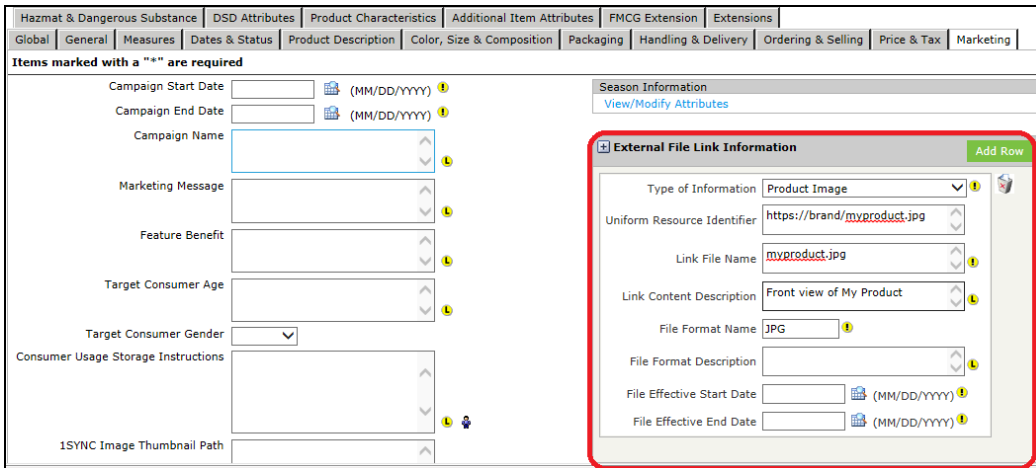

Data source customers can communicate digital asset information via:

- **1WorldSync-Hosted** assets: data source uploads their assets to Item Management, and 1WorldSync hosts the URL
- **Data Source-Hosted** assets: data source hosts their own assets, and simply provides the URL to Item Management (IM)

1WorldSync-Hosted assets are populated via the IM GUI, API or XML via AS2. The IM GUI Digital Asset Management button is shown below:

Data Source-Hosted assets are populated (via any method) using the External File Link attributes. The IM GUI (Full Item View/Marketing tab) is shown here:

WORLD
SYNC

Participant Dictionary

From the Data Source perspective, these attribute sets (1WorldSync-hosted vs. Data Source-hosted) are independent of each other. Data Recipients, however, will receive both sets of attributes (whichever are populated) in the outbound synchronization. There is no distinction to the recipient of whether the attributes are for 1WorldSync vs Data Source hosted assets.

Table: Digital Asset Management Attributes

Data Asset Management Attribute Name	Attribute for 1WorldSync-Hosted assets	Attribute for Data-Source Hosted assets?
Type of Information	Yes	Yes

APPENDIX X – PARTICIPANT DICTIONARY CHANGE RECORD

Below is a listing of the recent changes that have occurred in this document, with the most recently changed document versions listed first.

Release 6.8.16 Version 1 Updates (March 1, 2015)

Attribute/Appendix Name	Immediate Customer Action Required?	Description of Change
Customers should review attributes they are utilizing to determine if there is any immediate action required		
Third Party Content	No	Added new attribute to the AVP Appendix

Release 6.8.15 Version 1 Updates (Oct 30, 2014)

Attribute/Appendix Name	Immediate Customer Action Required?	Description of Change
Customers should review attributes they are utilizing to determine if there is any immediate action required		
Product Serving Size	No	Edited business Rule with business rationale rule: If a serving size as stated on a label is 100gr but once prepared like Instant packaged soup is 200ml, this would be the 200 ml This is the prepared basis of serving size
Appendix AVP – GDSN CIN AVP Extension Information	No	Added the following AVP MARKETING & CONTACT INFORMATION attribute: <ul style="list-style-type: none"> tradeItemFeatureBenefitExpanded Added the following AVP Food attribute: <ul style="list-style-type: none"> notSignificantSourceOfNutrient
Serving Size Instance	No	Edited the Business Description with: Value is mapped inbound only if within "Serving Size Instance Code" valid values list.

Size System	146		Updated Additional Comments field to note that if this attribute is populated, then either Descriptive Size Dim or the combination of Size Dimension and Size Dimension UOM is required.
Number of Layers Per Pallet/Non GTIN Pallet Hi	191		Clarified language in Definition field

Release 6.4 Version 1 Updates (February 13, 2009)

Due to the large number of changes to this document required with IM Release 6.4 (R6.4) and the corresponding GDSN Maintenance Release 3 (MR3), a general summary of updates is provided below (instead of a comprehensive listing of every update made to every attribute page in this document.)

Update	Description of Change
New Attribute Pages	Added new "core" attribute pages for over 60 attributes per the requirements of IM Release 6.4 and GDSN Maintenance Release 3 (MR3). See the <i>IM 6.4 Release Notes</i> for details on these changes.
Updates to Validation Logic – multiple attributes	Updated validation logic in "Additional Comments" field of multiple attribute pages per the requirements of IM Release 6.4 and GDSN Maintenance Release 3 (MR3). See the <i>IM 6.4 Release Notes</i> for details on these changes.

Release 6.2.2 Version 1 Updates (January 14, 2008)

Below are the changes to this document that have been made in conjunction with IM Release 6.2.2 (R6.2.2), including the addition of 22 new attribute pages, the removal of 4 attribute pages, and changes to many existing attribute pages and extension appendices. In addition, other changes/corrections not relating to IM R6.2.2 have been made where necessary. Please refer to the *IM R6.2.2 Release Notes* and other R6.2.2-related documentation for specific details on R6.2.2 component changes.

New Attribute Pages Added

New attribute pages have been added to this document for the attributes listed below. Some of these are brand new attributes, and others have been moved from an existing CIN extension into the "Core" set of IM attributes (please refer to the *IM 6.2.2 Release Notes* and customer impact documentation for specific details). The attributes are listed below with their IM User Interface (GUI) name followed by their GUI tab location in parentheses:

- Packaging Weight (Global tab)
- Packaging Weight UOM (Global tab)
- Is Bar Code On Packaging Variable Measure Bar Code? (General tab)
- RFID Tagged (Packaging tab)
- Casing Tare Weight (Packaging tab)
- Casing Tare Weight UOM (Packaging tab)
- GLN Of Ship From Party (Handling & Delivery tab)
- Name Of Ship From Party (Handling & Delivery tab)
- Nesting Increment (Handling & Delivery tab)
- Nesting Increment UOM (Handling & Delivery tab)
- Opened Trade Item Lifespan (Handling & Delivery tab)

Participant Dictionary

- Layer Height (Handling & Delivery tab)
- Layer Height UOM (Handling & Delivery tab)
- Consumer Usage Storage Instructions (Marketing tab)
- Link Content Description (Marketing tab)
- File Effective End Date (Marketing tab)
- File Effective Start Date (Marketing tab)
- File Format Description (Marketing tab)
- File Format Name (Marketing tab)
- Link File Name (Marketing tab)
- Uniform Resource Identifier (Marketing tab)
- Type Of Information (Marketing tab)

Attribute Pages Removed

The attributes listed below were being removed from the IM User Interface with IM R6.2, and their attribute pages are now being removed from this document in conjunction with the sunset of these attributes from IM.

- Min Product Lifespan from Production UOM
- Packaging Material Type
- Product Size Description
- Packaging Marked With Expiration Date

R6.2.2v1 Changes to Attribute Pages and Extension Appendices

Attribute/Appendix Name	Page #	Immediate Customer Action Required?	Description of Change
Customers should review attributes they are utilizing to determine if there is any immediate action required			
Effective Date	104		Updated Additional Comments to provide more accuracy around logic pertaining to Item Add, Modify, and Append transactions
Product Size Code	127		Removed note on dependency from Additional Comments field.
Product Size Code Maintenance Agency	128		Removed note on dependency from Additional Comments field.
Descriptive Size	149		Removed note on dependency from Additional Comments field.
Packaging Material Code	151		Changed M/O/D to "Optional" and updated Additional Comments to remove note about dependency. However, left note in Additional Comments that in order to sync on GDSN CIN, Material Code Agency must also be present.
Material Code Agency	152		Changed M/O/D to "Optional" and updated Additional Comments to remove note about dependency. However, left note in Additional Comments that in order to sync on GDSN CIN, Packaging Material Code must also be present.

Release 6.2.1 Version 1 Updates (October 19, 2007)

Attribute Name	Page #	Immediate Customer Action Required?	Description of Change
Customers should review attributes they are utilizing to determine if there is any immediate action required			
All Attributes – M2M attribute names/examples	n/a	No	1SYNC XML field/tag names have been added to each individual attribute page in this document. In preparation for the sunset of tXML and EDI formats at the end of 2007, the tXML and EDI examples have been removed from each page.
Multiple appendices containing valid value code lists -- REMOVED	n/a	YES – Begin using new Valid Values document	All appendices containing valid value “code list” tables in this document have been removed, as this information is available in a more clear, accurate, and detailed format in the 1SYNC IM Valid Values spreadsheet on the 1SYNC Solution Center. See the “Introduction to the Appendices” above for further details.
CIN Extension Appendices -- NEW	n/a	No	CIN Extension Guides have been consolidated into this document as appendices. See the “Introduction to the Appendices” above for further details.
Gross Weight UOM	73	No	Updated Additional Comments -- Packaging Weight UOM should NOT be included in the group of UOM values (Gross Weight UOM, Net Weight UOM, Drained Weight UOM) that must be consistent for each trade item
Net Weight UOM	75	No	Updated Additional Comments -- Packaging Weight UOM should NOT be included in the group of UOM values (Gross Weight UOM, Net Weight UOM, Drained Weight UOM) that must be consistent for each trade item
Drained Weight UOM	77	No	Updated Additional Comments -- Packaging Weight UOM should NOT be included in the group of UOM values (Gross Weight UOM, Net Weight UOM, Drained Weight UOM) that must be consistent for each trade item
Short Description / POS Desc. 1	115	No	Updated Type/Size field to read “AN/140” and added a note to Additional Comments stating that while this field allows 140 characters, the value will be truncated to 35 characters when sent outbound to data recipients.
Produce Size Code	126	No	Added a note to Additional Comments field explaining that Value is truncated to 20 characters in the GDSN CIN.
Packaging Material Composition UOM	154	No	Updated Additional Comments -- Packaging Weight UOM is NOT included in the group of UOM values (Gross Weight UOM, Net Weight UOM, Drained Weight UOM) that must be consistent for each trade item

Customers should review attributes they are utilizing to determine if there is any immediate action required			
Base Unit Indicator	24	No	Updated Additional Comments field in accordance with the introduction of publication delete functionality with IM R6.2: "If deleting a publication for a GTIN, you will need to wait 25 hours from the time the publication delete is processed in IM before modifying this attribute. If you have any questions about the Publication Delete process, please contact 1SYNC Customer Support."
Special Item Code	28	No	Updated Additional Comments field in accordance with the introduction of publication delete functionality with IM R6.2: "If deleting a publication for a GTIN, you will need to wait 25 hours from the time the publication delete is processed in IM before modifying this attribute. If you have any questions about the Publication Delete process, please contact 1SYNC Customer Support."
Ordering Unit Indicator	46	No	Corrected previous error in Occurrence field; this value is now shown as "1".
Depth, Height, Width	65, 67, 69	No	Updated Additional Comments field to provide clarification that these attributes are always mandatory for GDSN item synchronization
Functional Name	115	No	Updated Additional Comments field to add the following note: "If a value for Functional Name is not provided, this field will be populated by default with the value provided for the attribute 'GTIN Name'."
Organic Trade Item Code	132	No	Removed valid values from Additional Comments field and updated Reference field to refer to Appendix AH for the complete list of valid values.
List Price Basis Per Unit	249	No	Per IM R6.2 changes, removed note in Additional Comments field stating that this attribute becomes required in IM when "List Price" attribute is populated (as this is no longer true). In accordance with this change, corrected M/O/D field to read "Optional".
All "List Price" attributes: List Price Effective Start Date, List Price Effective End Date, List Price, List Price Basis Per Unit, List Price Basis Per Unit UOM, List Price Currency	Pages 243 - 253	No	Updated Additional Comments field on each of these attribute pages to clarify notes regarding mapping/dependencies on the GDSN CIN (Item Sync) message. The most significant change was the removal of "List Price Basis Per Unit" and "List Price Basis Per Unit UOM" from the group of interdependent "list price" attributes (i.e., when one attribute in the group is populated, all must be populated).
