## System Logs Detail Report

The following table lists the System Logs Detail report configurations that are installed with Sterling Integrator.

Reports	Description
systemDetail_LOGS	Provides detailed information about system logs

### To Run or Customize This Report

Use **Operations > Reports** to run or customize this report.

### System Logs Detail Report Parameters

#### Report By

Parameter	Description
Resource Type	None

#### Detail Filtering (Operator)

Parameter	Description
Operator	<p>The operator filter function enables you to further define search criteria for many report parameters. Valid values are:</p> <ul style="list-style-type: none"> <li>◆ ALL</li> <li>◆ Equal To</li> <li>◆ Not Equal To</li> <li>◆ Like</li> </ul> <p><b>Note:</b> Sterling Integrator displays a text box if you select an operator other than ALL. Do not use special characters that are not allowed for the parameter you are filtering by.</p>
LOGS.EXLEVEL	The exception level of the log entry
LOGS.NAME	Name of the log this entry comes from
LOGS.MESSAGE	The message from the log entry
LOGS.THROWABLE	The throwable object (in string) when the exception happens

#### Detail Filtering (Display Order)

When you choose a display order, the Report By fields are evaluated as having a set sort order which is not changed by the display order options.

---

<b>Parameter</b>	<b>Description</b>
Sort Order (for display)	Select the sort order, either ascending order (for example, A to Z) or descending order (for example, Z to A).
Order	The exact order in which parameters are displayed. Select a parameter and click the arrows keys to arrange the parameters in the desired order.

---

A report configuration that has a filter value (for a parameter allowing text entry) longer than 40 characters, generates an exception and the report configuration is not saved.
