Mailbox Permission Rights	1	Notices	5
Mailbox User Rights and Functions	1		
Edit an Exported Mailbox File	3		

Mailbox Permission Rights

Mailbox users are able to access and perform specific functions based on the service or adapter component being used and the rights that are permitted. The assigned rights are at the mailbox level and apply to all messages in the mailbox.

Each right is mapped to a specific function:

- Read - Allows users to get messages from a mailbox.
- Write - Allows users to put messages into a mailbox.
- View - Allows users to list mailboxes or messages.
- Execute - Allows users to access a mailbox.
- Delete - Allows users to delete messages from a mailbox.

Note: By default, users are assigned all rights.

Mailbox User Rights and Functions

Components interact with mailboxes on behalf of the user. To perform the functions, the user must have the indicated right and permission. If the component tries to perform the function without the appropriate right and permission, the operation will fail.

The following table displays the rights required to perform the specified functions:

Component	Function	Right	Permission
Advanced File Transfer (AFT)	Replay message into mailbox	Write	Mailbox
Sterling Connect:Direct Server Adapter	Read from mailbox	Read	Mailbox
	Write to mailbox	Write	Mailbox
FTP Server Adapter	Add message to mailbox	Write	Mailbox
	Extract message from mailbox	Read	Mailbox
	List submailbox	View	All mailboxes from virtual root submailbox
	List virtual root mailbox	View	Virtual Root Mailbox
	List virtual root mailbox without mailbox execute permission	Execute	MailboxLoginWithoutVirtualRootPermis
	Login to the virtual root mailbox	Execute	Virtual Root Mailbox
	Login to the virtual root mailbox without mailbox execute permission	Execute	MailboxLoginWithoutVirtualRootPermis

Component	Function	Right	Permission
	Move message from mailbox	Delete	Source Mailbox
	Move message to mailbox	Write	Destination Mailbox
	Remove message from mailbox	Delete	Mailbox
Mailbox Add Service	Add message to mailbox	Write	Mailbox
Mailbox Delete Mailbox Service	Use service	Execute	MailboxGlobalDelete
Mailbox Delete Service	Use service	Execute	MailboxGlobalDelete
	Use service without MailboxGlobalDelete	Delete	All affected mailboxes
Mailbox Extract Begin Service	Extract message from mailbox	Read	Mailbox
Mailbox Query Service	Use service	Execute	MailboxGlobalQuery
	Use service without MailboxGlobalQuery	View	All mailboxes in query
Mailbox Update Service	Update message in mailbox	Write	Mailbox
Mailbox XAPI createMessage	Create message in mailbox	Write	Mailbox
Mailbox XAPI beginExtractMessage	Extract message from mailbox	Read	Mailbox
SSH/SFTP Server Adapter	Add message to mailbox	Write	Mailbox
	Extract message from mailbox	Read	Mailbox
	List submailbox	View	All mailboxes from virtual root submailbox
	List virtual root mailbox	View	Virtual Root Mailbox
	List virtual root mailbox without mailbox execute permission	Execute	MailboxLoginWithoutVirtualRootPermission
	Login if Access Control List (ACL) is active	Execute	Server Permission
	Login to the virtual root mailbox	Execute	Virtual Root Mailbox
	Login to the virtual root mailbox without mailbox execute permission	Execute	MailboxLoginWithoutVirtualRootPermission
	Move message to mailbox	Write	Destination Mailbox
	Remove message from mailbox	Delete	Mailbox

Component	Function	Right	Permission
WebDAV	Add message to mailbox	Write	Mailbox
	Extract message from mailbox	Read	Mailbox
	Get mailbox options	Execute	Mailbox
	Retrieve properties for URL (PROFIND)	View	Mailbox

Edit an Exported Mailbox File

If you export a Mailbox, the XML file that is created contains the RIGHTS tag in the Permissions section.

About this task

To edit the value of the rights:

Procedure

1. Search for RIGHTS in the exported XML file.
2. Change the value according to the following settings:
 - 1 - EXECUTE
 - 2 - WRITE
 - 4 - READ
 - 8 = DELETE
 - 16 = VIEW

Add the applicable values to determine the value to assign. For example, for rights to read and write, the value is $2 + 4 = 6$.

3. Import the edited file to activate the RIGHTS settings.

Notices

This information was developed for products and services offered in the U.S.A.

IBM® may not offer the products, services, or features discussed in this document in other countries. Consult your local IBM representative for information on the products and services currently available in your area. Any reference to an IBM product, program, or service is not intended to state or imply that only that IBM product, program, or service may be used. Any functionally equivalent product, program, or service that does not infringe any IBM intellectual property right may be used instead. However, it is the user's responsibility to evaluate and verify the operation of any non-IBM product, program, or service.

IBM may have patents or pending patent applications covering subject matter described in this document. The furnishing of this document does not grant you any license to these patents. You can send license inquiries, in writing, to:

IBM Director of Licensing

IBM Corporation

North Castle Drive

Armonk, NY 10504-1785

U.S.A.

For license inquiries regarding double-byte character set (DBCS) information, contact the IBM Intellectual Property Department in your country or send inquiries, in writing, to:

Such information may be available, subject to appropriate terms and conditions, including in some cases, payment of a fee.

The licensed program described in this document and all licensed material available for it are provided by IBM under terms of the IBM Customer Agreement, IBM International Program License Agreement or any equivalent agreement between us.

Any performance data contained herein was determined in a controlled environment. Therefore, the results obtained in other operating environments may vary significantly. Some measurements may have been made on development-level systems and there is no guarantee that these measurements will be the same on generally available systems. Furthermore, some measurements may have been estimated through extrapolation. Actual results may vary. Users of this document should verify the applicable data for their specific environment.

Information concerning non-IBM products was obtained from the suppliers of those products, their published announcements or other publicly available sources. IBM has not tested those products and cannot confirm the accuracy of performance, compatibility or any other claims related to non-IBM products. Questions on the capabilities of non-IBM products should be addressed to the suppliers of those products.

All statements regarding IBM's future direction or intent are subject to change or withdrawal without notice, and represent goals and objectives only.

All IBM prices shown are IBM's suggested retail prices, are current and are subject to change without notice. Dealer prices may vary.

This information is for planning purposes only. The information herein is subject to change before the products described become available.

This information contains examples of data and reports used in daily business operations. To illustrate them as completely as possible, the examples include the names of individuals, companies, brands, and products. All of these names are fictitious and any similarity to the names and addresses used by an actual business enterprise is entirely coincidental.

COPYRIGHT LICENSE:

This information contains sample application programs in source language, which illustrate programming techniques on various operating platforms. You may copy, modify, and distribute these sample programs in any form without payment to IBM, for the purposes of developing, using, marketing or distributing application programs conforming to the application programming interface for the operating platform for which the sample programs are written. These examples have not been thoroughly tested under all conditions. IBM, therefore, cannot guarantee or imply reliability, serviceability, or function of these programs.
