Version 2.2.4 updates

Modification to system business process FileGatewaySendMessage

The system business process FileGatewaySendMessage is modified to remove a call to a service that is deprecated. If you modified FileGatewaySendMessage, you can optionally make the same change to your customized version. Replace the following

```
This
```

service:

```
<operation name="GetWorkflowId">
               <participant name="This"/>
               <output message="thisRequest"/>
               <input message="thisResponse">
                   <assign to="FG/WorkflowId" from="this/node()/text()"/>
               </input>
          </operation>
```

with the following code:

```
<operation name="BPMetaDataInfoService">
  <participant name="BPMetaDataInfoService"/>
  <output message="BPMetaDataInfoRequest">
   <assign to="DISPOSITION">false</assign>
   <assign to="LINKAGE">false</assign>
   <assign to="." from="*"></assign>
  </output>
  <input message="Xin">
     <assign to="FG/WorkflowId" from="BPDATA/</p><p>WORKFLOW_ID/text()"/>
  </input>
</operation>
```

Documentation enhancements

The documentation for Sterling File Gateway 2.2 and 2.2.3 is modified.

There is additional information provided in the following topics in the Overview:
- Types of Users - clarification of operations Operators are enabled to perform

There is additional information provided in the following topics for System Administrators:
- Migrate using Import and Export - additional information to improve your work flow
- System Business Processes - information regarding behavior of queues
- About Custom File Layers - information regarding behavior of queues
- Add Custom Protocols - information regarding behavior of queues
- Add Consumer ID Policies - information regarding behavior of queues
- Preparing for Non-English Reports - corrected link to language files in the 2.2.3 Updates

There is additional information provided in the following topics for Integration Architects:

- About Producer File Structures - added example of regular expressions
- About Consumer File Structures - clarified how timestamp is handled and restraints for creating valid timestamps
- Reports for Partners -instructions for multiple reports in Internet Explorer 7

There is additional information provided in the following topics for Operators:

- Generate Reports - instructions for multiple reports in Internet Explorer 7

There is additional information provided in the following topics for myFileGateway:

- Reports for Partners - instructions for multiple reports in Internet Explorer 7

There is additional information provided in the following topics for Operators:

- Generate Reports - instructions for multiple reports in Internet Explorer 7

There is additional information provided in the following topics for Sterling File Gateway and WebSphere® MQ File Transfer Edition Integration:

- Creating an Adapter Container for Sterling B2B Integrator Adapters - If using a Sun JVM, instructions for setting the Maximum Permanent Generation
- Create an Adapter Container - If using a Sun JVM, instructions for setting the Maximum Permanent Generation

Notices

This information was developed for products and services offered in the US. This material might be available from IBM in other languages. However, you may be required to own a copy of the product or product version in that language in order to access it.

IBM may not offer the products, services, or features discussed in this document in other countries. Consult your local IBM representative for information on the products and services currently available in your area. Any reference to an IBM product, program, or service is not intended to state or imply that only that IBM product, program, or service may be used. Any functionally equivalent product, program, or service that does not infringe any IBM intellectual property right may be used instead. However, it is the user's responsibility to evaluate and verify the operation of any non-IBM product, program, or service.

IBM may have patents or pending patent applications covering subject matter described in this document. The furnishing of this document does not grant you any license to these patents. You can send license inquiries, in writing, to:

IBM Director of Licensing
IBM Corporation
North Castle Drive, MD-NC119
Armonk, NY 10504-1785
US

For license inquiries regarding double-byte character set (DBCS) information, contact the IBM Intellectual Property Department in your country or send inquiries, in writing, to:

Intellectual Property Licensing
Legal and Intellectual Property Law
IBM Japan Ltd.

Tokyo 103-8510, Japan

INTERNATIONAL BUSINESS MACHINES CORPORATION PROVIDES THIS PUBLICATION "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Some jurisdictions do not allow disclaimer of express or implied warranties in certain transactions, therefore, this statement may not apply to you.

This information could include technical inaccuracies or typographical errors. Changes are periodically made to the information herein; these changes will be incorporated in new editions of the publication. IBM may make improvements and/or changes in the product(s) and/or the program(s) described in this publication at any time without notice.

Any references in this information to non-IBM websites are provided for convenience only and do not in any manner serve as an endorsement of those

websites. The materials at those websites are not part of the materials for this IBM product and use of those websites is at your own risk.

IBM may use or distribute any of the information you provide in any way it believes appropriate without incurring any obligation to you.

Licensees of this program who wish to have information about it for the purpose of enabling: (i) the exchange of information between independently created programs and other programs (including this one) and (ii) the mutual use of the information which has been exchanged, should contact:

IBM Director of Licensing
IBM Corporation
North Castle Drive, MD-NC119
Armonk, NY 10504-1785
US

Such information may be available, subject to appropriate terms and conditions, including in some cases, payment of a fee.

The licensed program described in this document and all licensed material available for it are provided by IBM under terms of the IBM Customer Agreement, IBM International Program License Agreement or any equivalent agreement between us.

The performance data and client examples cited are presented for illustrative purposes only. Actual performance results may vary depending on specific configurations and operating conditions.

Information concerning non-IBM products was obtained from the suppliers of those products, their published announcements or other publicly available sources. IBM has not tested those products and cannot confirm the accuracy of performance, compatibility or any other claims related to non-IBMproducts. Questions on the capabilities of non-IBM products should be addressed to the suppliers of those products.

Statements regarding IBM's future direction or intent are subject to change or withdrawal without notice, and represent goals and objectives only.

All IBM prices shown are IBM's suggested retail prices, are current and are subject to change without notice. Dealer prices may vary.

This information is for planning purposes only. The information herein is subject to change before the products described become available.

This information contains examples of data and reports used in daily business operations. To illustrate them as completely as possible, the examples include the names of individuals, companies, brands, and products. All of these names are fictitious and any similarity to actual people or business enterprises is entirely coincidental.

COPYRIGHT LICENSE:

This information contains sample application programs in source language, which illustrate programming techniques on various operating platforms. You may copy, modify, and distribute these sample programs in any form without payment to

IBM, for the purposes of developing, using, marketing or distributing application programs conforming to the application programming interface for the operating platform for which the sample programs are written. These examples have not been thoroughly tested under all conditions. IBM, therefore, cannot guarantee or imply reliability, serviceability, or function of these programs. The sample programs are provided "AS IS", without warranty of any kind. IBM shall not be liable for any damages arising out of your use of the sample programs.

Each copy or any portion of these sample programs or any derivative work must include a copyright notice as shown in the next column.

Terms and conditions for product documentation

Permissions for the use of these publications are granted subject to the following terms and conditions.

Applicability

These terms and conditions are in addition to any terms of use for the IBM website.

Personal use

You may reproduce these publications for your personal, noncommercial use provided that all proprietary notices are preserved. You may not distribute, display or make derivative work of these publications, or any portion thereof, without the express consent of IBM.

Commercial use

You may reproduce, distribute and display these publications solely within your enterprise provided that all proprietary notices are preserved. You may not make derivative works of these publications, or reproduce, distribute or display these publications or any portion thereof outside your enterprise, without the express consent of IBM.

Rights

Except as expressly granted in this permission, no other permissions, licenses or rights are granted, either express or implied, to the publications or any information, data, software or other intellectual property contained therein.

IBM reserves the right to withdraw the permissions granted herein whenever, in its discretion, the use of the publications is detrimental to its interest or, as determined by IBM, the above instructions are not being properly followed.

You may not download, export or re-export this information except in full compliance with all applicable laws and regulations, including all United States export laws and regulations.

IBM MAKES NO GUARANTEE ABOUT THE CONTENT OF THESE PUBLICATIONS. THE PUBLICATIONS ARE PROVIDED "AS-IS" AND WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING BUT NOT LIMITED TO IMPLIED WARRANTIES OF MERCHANTABILITY, NON-INFRINGEMENT, AND FITNESS FOR A PARTICULAR PURPOSE.
