In This Fix Pack

This fix pack contains the enhanced support for IBM® Sterling Business Intelligence.

Installation Information

The prerequisites for this fix pack differ, depending on whether you are a new customer or an existing customer.

Prerequisites

Before you begin installing this fix pack, complete these prerequisites:

- If you are a new customer:
 - Install Sterling Business Intelligence Release 9.1 before you install this fix pack. For information about installing Release 9.1, see the installation information on <http://publib.boulder.ibm.com/infocenter/sfsf/v9r1/index.jsp>.
 - Follow the “Fix Pack Installation Procedure” below.
- If you are an existing customer, follow the “Fix Pack Installation Procedure” below.

Fix Pack Installation Procedure

This fix pack is available on the Sterling Commerce™ Customer Center and on IBM Fix Central at <http://www-933.ibm.com/support/fixcentral/>.

The installation instructions file, `SBI_Fix_Pack_Installation.txt`, is included in the fix pack download.

Defects Addressed In This Fix Pack

The following defects have been addressed in this fix pack to Sterling Business Intelligence, Release 9.1. As fix packs are released, they will be listed cumulatively here.

Fix Pack 5

Fix Pack 9.1.0.5

Defect ID	258336
Case ID	Internal
Description	Globalization issues have been addressed.

Fix Pack 4

Fix Pack 9.1.0.4

Defect ID	253999
Case ID	Internal

Fix Pack 9.1.0.4

Description	The Managed Save Search window is not localized.
Defect ID	253811
Case ID	Internal
Description	Frame Work Cognos Patch is missing in Fix Pack 3.

Fix Pack 3

Fix Pack 9.1.0.3

Defect ID	251900
Case ID	Internal
Description	Globalization issues have been addressed. <i>The Sterling Business Intelligence: Localization Guide and Sterling Business Intelligence: Installation Guide</i> has been updated with the requisite information as part of the globalization issues.

Fix Pack 2

Fix Pack 9.1.0.2

Defect ID	246493
Case ID	Internal
Description	A security issue has been identified that may allow a cross-site scripting (XSS) attack. Some of the values were directly sent to a response page from the requested data.
Defect ID	248470
Case ID	Internal
Description	When a staging package is run in an oracle database, the system throws an error. This is because the getdatabase function that is provided to retrieve the database time does not contain the script for oracle database. Solution: A script has been added in the getdatabase function to retrieve the database time based on the database type.

Fix Pack 1

Fix Pack 9.1.0.1

Defect ID	242808
Case ID	Internal
Description	A user is not able to override the default filter provided in the staging entity.
Defect ID	242938
Case ID	Internal

Description The staging incremental ETL process hangs when the system is under full load.

Defect ID 245602

Case ID Internal

Description The staging ETL script picks the system time as end time instead of the database machine time.

Defect ID 246362

Case ID Internal

Description The *Sterling Business Intelligence: Implementation Guide* must be updated with information about command that must be run to collect the database statistic on staging database.

Solution: The requisite information has been included in the 'Load Initial Data in Sterling Business Intelligence for the Data Mart Project' and 'Load Incremental Data in Sterling Business Intelligence for Data Mart Project' sections of the *Sterling Business Intelligence: Implementation Guide*.

Notices

This information was developed for products and services offered in the U.S.A.

IBM may not offer the products, services, or features discussed in this document in other countries. Consult your local IBM representative for information on the products and services currently available in your area. Any reference to an IBM product, program, or service is not intended to state or imply that only that IBM product, program, or service may be used. Any functionally equivalent product, program, or service that does not infringe any IBM intellectual property right may be used instead. However, it is the user's responsibility to evaluate and verify the operation of any non-IBM product, program, or service.

IBM may have patents or pending patent applications covering subject matter described in this document. The furnishing of this document does not grant you any license to these patents. You can send license inquiries, in writing, to:

IBM Director of Licensing

IBM Corporation

North Castle Drive

Armonk, NY 10504-1785

U.S.A.

For license inquiries regarding double-byte character set (DBCS) information, contact the IBM Intellectual Property Department in your country or send inquiries, in writing, to:

Intellectual Property Licensing

Legal and Intellectual Property Law

IBM Japan Ltd.

1623-14, Shimotsuruma, Yamato-shi

Kanagawa 242-8502 Japan

The following paragraph does not apply to the United Kingdom or any other country where such provisions are inconsistent with local law:

INTERNATIONAL BUSINESS MACHINES CORPORATION PROVIDES THIS PUBLICATION "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Some states do not allow disclaimer of express or implied warranties in certain transactions, therefore, this statement may not apply to you.

This information could include technical inaccuracies or typographical errors. Changes are periodically made to the information herein; these changes will be

incorporated in new editions of the publication. IBM may make improvements and/or changes in the product(s) and/or the program(s) described in this publication at any time without notice.

Any references in this information to non-IBM Web sites are provided for convenience only and do not in any manner serve as an endorsement of those Web sites. The materials at those Web sites are not part of the materials for this IBM product and use of those Web sites is at your own risk.

IBM may use or distribute any of the information you supply in any way it believes appropriate without incurring any obligation to you.

Licensees of this program who wish to have information about it for the purpose of enabling: (i) the exchange of information between independently created programs and other programs (including this one) and (ii) the mutual use of the information which has been exchanged, should contact:

IBM Corporation

J46A/G4

555 Bailey Avenue

San Jose, CA 95141-1003

U.S.A.

Such information may be available, subject to appropriate terms and conditions, including in some cases, payment of a fee.

The licensed program described in this document and all licensed material available for it are provided by IBM under terms of the IBM Customer Agreement, IBM International Program License Agreement or any equivalent agreement between us.

Any performance data contained herein was determined in a controlled environment. Therefore, the results obtained in other operating environments may vary significantly. Some measurements may have been made on development-level systems and there is no guarantee that these measurements will be the same on generally available systems. Furthermore, some measurements may have been estimated through extrapolation. Actual results may vary. Users of this document should verify the applicable data for their specific environment.

Information concerning non-IBM products was obtained from the suppliers of those products, their published announcements or other publicly available sources. IBM has not tested those products and cannot confirm the accuracy of performance, compatibility or any other claims related to non-IBM products. Questions on the capabilities of non-IBM products should be addressed to the suppliers of those products.

All statements regarding IBM's future direction or intent are subject to change or withdrawal without notice, and represent goals and objectives only.

All IBM prices shown are IBM's suggested retail prices, are current and are subject to change without notice. Dealer prices may vary.

This information is for planning purposes only. The information herein is subject to change before the products described become available.

This information contains examples of data and reports used in daily business operations. To illustrate them as completely as possible, the examples include the names of individuals, companies, brands, and products. All of these names are fictitious and any similarity to the names and addresses used by an actual business enterprise is entirely coincidental.

COPYRIGHT LICENSE:

This information contains sample application programs in source language, which illustrate programming techniques on various operating platforms. You may copy, modify, and distribute these sample programs in any form without payment to IBM, for the purposes of developing, using, marketing or distributing application programs conforming to the application programming interface for the operating platform for which the sample programs are written. These examples have not been thoroughly tested under all conditions. IBM, therefore, cannot guarantee or imply reliability, serviceability, or function of these programs. The sample programs are provided "AS IS", without warranty of any kind. IBM shall not be liable for any damages arising out of your use of the sample programs.

Each copy or any portion of these sample programs or any derivative work, must include a copyright notice as follows:

© IBM 2011. Portions of this code are derived from IBM Corp. Sample Programs. © Copyright IBM Corp. 2011.

If you are viewing this information softcopy, the photographs and color illustrations may not appear.

Trademarks
