

Fourth Generation Software Solutions

Fitrix Complete Accounting & Distribution Series

Business Challenge

Accounting and business software is not 'one size fits all'. The right software can provide a strong competitive advantage if it is matched to your business, is flexible, allows easy access to all of your data, can be customized to provide an exact fit, and can be easily integrated to your other systems. Truly affordable cost of ownership and strong support make an impact on your business.

Solution Description

Fitrix Complete offers technology and features normally only found in expensive high end software at a cost affordable to small and medium size business (SMB). Fitrix includes a full range of accounting and distribution modules, full source code and rapid application development tools (RAD) for customization, and one of the best SQL databases on the market IBM Informix IDS. Fitrix is scaleable from 1 to hundreds of users, and is highly robust and reliable.

Value Proposition

Fitrix is a tool for competitive advantage: The entire Fitrix software suite is designed and built from the ground up to give you the ability to adapt the software to how you want your business to operate, so you aren't forced to change your business to fit the software. Easy access to data allows for optimum decision making, excellent customer service, and cost efficiencies. Fitrix delivers exceptional flexibility, scalability, access to data, and reliability all with the lowest cost of ownership in its class.

Company Description

Fitrix software is developed, sold and supported by Fourth Generation Software Solutions, an Atlanta, Georgia-based company that has been meeting the accounting and distribution software needs of small and medium-size businesses since 1987. Our many happy customers across the U.S. and the world attest to the success of our approach.
