

## **FXA Group**

*OpsSmart*

### Solution Description

FXA Group's OpsSmart™ technology platform is a traceability tool and solution that enables stakeholders to manage and exchange essential data on the safety, quality and origin of food at any point across the entire supply chain. FXA's innovative software solution enables customers to comply with strict new legislation on food traceability and safety, while optimizing supply chain profitability.

### Features & Benefits

- Compliance with global food safety, quality and regulatory standards
- Flexible data input methods (e.g., hand-held devices, PCs, wireless)
- Support of multi-lingual and cross-boarder traceability Information integrity and security throughout the solution
- Ease of use, with ability to customize configurations online support of open integration standards
- Data integrity and security certification and validation of internal and external users
- Patented technology maintains information consistency throughout the supply chain, even as food processes change

### Value Proposition

OpsSmart delivers online traceability for the food industry by tracking product safety, quality and origin from farm to table. Retailers and distribution companies can gain automatic access to food safety and traceability information from nearly all food manufacturers and producers. OpsSmart can be configured to fit customer's specific requirements and provides traceability tools to cope with ongoing changes.
