## DB2. Information Management Software

## Database Services Offerings

*Boost your success with expertise from IBM®  
Software Services for DB2® Information  
Management.*

IBM Software Services for DB2 Information Management excels at enterprise-wide end-to-end solutions, with an emphasis on long-term success. We focus on how to use IBM technology to create competitive market opportunities, while meeting performance demands and preserving valuable IT investments.

### **DB2 Universal Database™ for Linux, Unix, and Windows**

Provides the foundation for information on demand

---

#### **IBM Quick Start Services for DB2 Universal Database**

- Technical assistance with the installation, configuration, and tuning of IBM DB2 Universal Database
- Platforms: AIX®, Solaris, HP-UX, Windows, Linux

#### **IBM Database Capacity Check**

- Technical assistance to determine if there is extra capacity in the DB2 Universal Database system to accommodate future growth expectations
- Platforms: AIX, Solaris, HP-UX, Windows, Linux

#### **IBM Database Backup and Recovery Services**

- Technical assistance to help identify requirements and implementation tasks for an emergency strategy
- Platforms: AIX, Solaris, HP-UX, Windows, Linux

### **DB2 Universal Database for z/OS® and OS/390®**

Core component of mission-critical applications

---

#### **IBM DB2 for z/OS and OS/390 Health Check**

- Review the health of a DB2 Universal Database for z/OS or OS/390 system including subsystem considerations; bufferpool/hiperpool usage; dataset placements; and system parameters
- Platforms: z/OS, OS/390

#### **IBM DB2 for z/OS and OS/390 Version 7 to Version 8 Migration**

- Technical assistance with migrating DB2 Universal Database for z/OS and OS/390 from version 7 to version 8
- Platforms: z/OS, OS/390

### **DB2 Information Integrator**

The next generation of integration software

---

#### **IBM Design and Planning Services for DB2 Information Integrator**

- Design a DB2 Information Integrator or DB2 Information Integrator Classic Federation solution that includes a clear representation of the federated data
- Platforms: AIX, Solaris, HP-UX, Windows, Linux, z/OS

### **IBM Fast Start Services for DB2 Information Integrator**

- Technical assistance with the installation and configuration of DB2 Information Integrator or DB2 Information Integrator Classic Federation
- Platforms: AIX, Solaris, HP-UX, Windows, Linux, z/OS

### **IBM Performance Tuning Services for DB2 Information Integrator**

- Technical assistance with analyzing DB2 Information Integrator or DB2 Information Integrator Classic Federation performance, identifying bottlenecks and possible system optimization activities
- Platforms: AIX, Solaris, HP-UX, Windows, Linux, z/OS

### **DB2 Universal Database Data Warehouse Editions**

The preferred platform for business intelligence solutions

---

#### **IBM Fast Start Services for DB2 Universal Database Data Warehouse Edition**

- Technical assistance with the installation and configuration of the components of the DB2 Universal Database Data Warehouse Edition, including DB2 Universal Database Enterprise Server Edition with Database Partitioning Feature; DB2 Information Integrator Standard Edition; DB2 Query Patroller; DB2 Warehouse Manager Standard Edition; DB2 Cube Views; DB2 Office Connect Enterprise Web Edition; DB2 Intelligent Miner Modelling, Visualization, and Scoring
- Platforms: AIX, Solaris, HP-UX, Windows, Linux
