EXCEPTIONAL PERFORMANCE SHOULD BE AN EVERYDAY EVENT

To succeed in today's fast-moving and competitive business environment, you need to optimize and manage performance to maximize profit and return on shareholder value.

Since 1998, iPerform is the leading provider of Data Warehousing, Business Intelligence and Performance solutions in a variety of business domains. We help our customers define, integrate and use their information to improve their performance. We focus on generating quantifiable results and a fast return-on-investment. We offer a unique combination of business and industry vision, change management and certified knowledge and expertise in the full IBM™ Information Management technology stack.

iPerform is the competency center for IBM Cognos and IBM Infosphere technology within the CrossPoint Solutions group. Together with the other competence centers we are a group of 350 professionals specialised in leading technology in Business Intelligence and Customer Relations Management.
