

Partake Consulting

Partake's role in the quest for business insight

Over 250 large companies rely on Partake to guide them in the implementation of reporting systems that offer support in their quest for business insight.

Operating in the following domains, Partake Consulting are experts in the implementation of Enterprise Performance Management systems:

- Financial Consolidation
- Management reporting
- Operational reporting
- Planning, budgeting and forecasting
- Strategic modelling
- Data transformation and loading
- Business Intelligence

We make it our mission at Partake Consulting to ensure our clients do not waste time and money on high volumes of inexperienced consultants. Instead we work with small teams of experienced consultants with complementary business, technology and infrastructure skills, so that our clients benefit from better solutions delivered faster.

Each engagement is unique: different technology, different functional need, and different client organisation. However, one element that is consistent is the client's high level of investment in a solution and the need for a quick Return On Investment. That is why Partake addresses each engagement with enthusiasm and professionalism using the collective experience of its consultants built up over many years of similar engagements.

Partake is recognized as a leading provider. Since 1998 we have provided our clients with the tools and knowledge to improve and simplify Enterprise Performance Management processes and systems. Our company has experienced impressive growth over the years and from our regional offices in The Netherlands, France, Belgium, UK and Germany Partake continues to offer an unparalleled level of service to companies large and small across all business sectors.
