Notes:

1) This layer (Group 3) was created to accommodate the characters that are defined in the Microsoft Windows keyboard layout for Tatarstan (as of May 2004) that are accessible via the Shift-AltGr keys -- reference URL is <http://www.microsoft.com/globaldev/reference/keyboards.aspx>. These characters have been assigned to Level 2 (Shift) of this group.

2) The additional characters in the MS Shift-Ctrl layer are:
 E00 - U+0401: Cyrillic Capital Letter IO
 D02 - U+0426: Cyrillic Capital Letter TSE
 D09 - U+0429: Cyrillic Capital Letter SHCHA
 D12 - U+042A: Cyrillic Capital Letter HARD SIGN

C10 - U+0416: Cyrillic Capital Letter ZHE
B07 - U+042C: Cyrillic Capital Letter SOFT SIGN

3) Characters originally in Level 3 (AltGr) of Group 2 have been moved to Level 1 (normal state) of this Group as they are the lowercase equivalent of the uppercase characters in #1 above.

4) The characters in this group can be accessed only after switching to Group 2 (via the group select mechanism).
