

IBM® is proud to sponsor the Smart Networks Summit 2011, hosted by Energy Networks Association.

The **Smart Networks Summit** will highlight and discuss the many challenges and opportunities of our ever-changing industry, in particular, smart networks.

IBM is helping energy companies add a layer of digital intelligence to their grids. These smart grids use sensors, meters, digital controls & analytics tools to automate, monitor & control the flow of energy across operations from power to plug.

Discover how IBM is helping utility companies turn challenges into opportunities. Don't miss your opportunity to meet IBM's Global Energy and Utilities experts and understand what part IBM is playing in "Securing our clean energy future".

Event details	
Venue:	Novotel, Sydney Olympic Park
Date:	Tuesday 17 and Wednesday 18 May 2011

IBM Sessions	
Tuesday 17 May 2011	
9.50 am - 10.20 am	Keynote address: Guido Bartels, IBM Global General Manager for Energy and Utilities, presenting on 'The role of smart grid technologies in enabling cleaner energy'.
Wednesday 18 May 2011	
7.45 am - 9.00 am	Breakfast sponsored by IBM (panel to commence at 8.00 am). Michael Valocchi, Vice President, Global Energy and Utilities, IBM, and Guido Bartels to discuss 'Smart grid research around the world'.

For more information on the IBM presenters,

For information on the full agenda and associated fees, please refer to the

Cost to attend the summit: ENA member: \$1290* Non member: \$1490

* ENA member rate is for those delegates employed by an ENA member company.

Let's build a smarter planet.
