IBM Information Management Software

# Creating an Information Agenda for Smarter Business Outcomes

## ➔ *The World is Becoming Smarter*

- Organizations are increasingly focused on optimizing their businesses using information in new ways

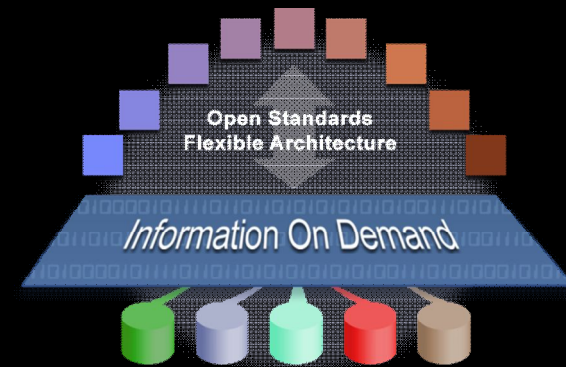

## ➔ *IBM is Accelerating Information Agenda for Clients*

- IBM software acknowledged as the leader by analysts
- Extensive industry experience accelerates client success

## ➔ *IBM Commitment & Market Acceptance is Strong*

- *Over 35,000 People, Cross-company*
- *Over 10,000 New Clients*
- *Over 2,000 New Business Partners*

*Leveraging Information for Smarter Business Outcomes*

# Leaders are Leveraging Information in New Ways

**10%**

**REDUCTION IN  
ENERGY COSTS**

***Smarter Grids***

Pacific Northwest  
National Lab

**20%**

**LESS  
TRAFFIC**

***Smarter Traffic System***

Stockholm,  
Sweden

**90%**

**LOWER COST OF  
THERAPY**

***Smart Healthcare***

ActiveCare  
Network

# ***Accelerated Pace of Decision Making***

*Smarter Businesses Use Information to Make More Intelligent Choices*

**Organizations  
are Data Rich,  
...Information Poor**

# Optimizing Everything a Business Does...

**Workforce 83,000**

**Business Areas: DA, MC, DD, DM**

\* DA: Digital Appliance MC: Mobile Communications DD: Digital Display DM : Digital Media

# But.. Information was not Globally Integrated

## Business Challenges

Globally  
integrated supply chain

Global visibility of  
management information

Global Standard  
business Processes

Global inventory Control

Cost Innovation

## Information Challenges

No global standard for data

No integrated process for data

Data duplication

No global standard  
for data hierarchy

Too much information

*Global  
Information  
Integration*

*Single source of Trusted information is needed  
for across the enterprise*

# Efforts for Global Information Integration

**2005** *Initiate Global Single Instance Strategy*

**2006 – 2010** *Global ERP implementation and Roll-in*

**2005 - 2007** *Master Data Management*

IBM Information  
On Demand

- 2005 – Part master management
- 2006 – Model, Supplier, Customer master management
- 2007 – Complete Enterprise MDM

**2007 - 2010** *GSI Enterprise Data warehouse*

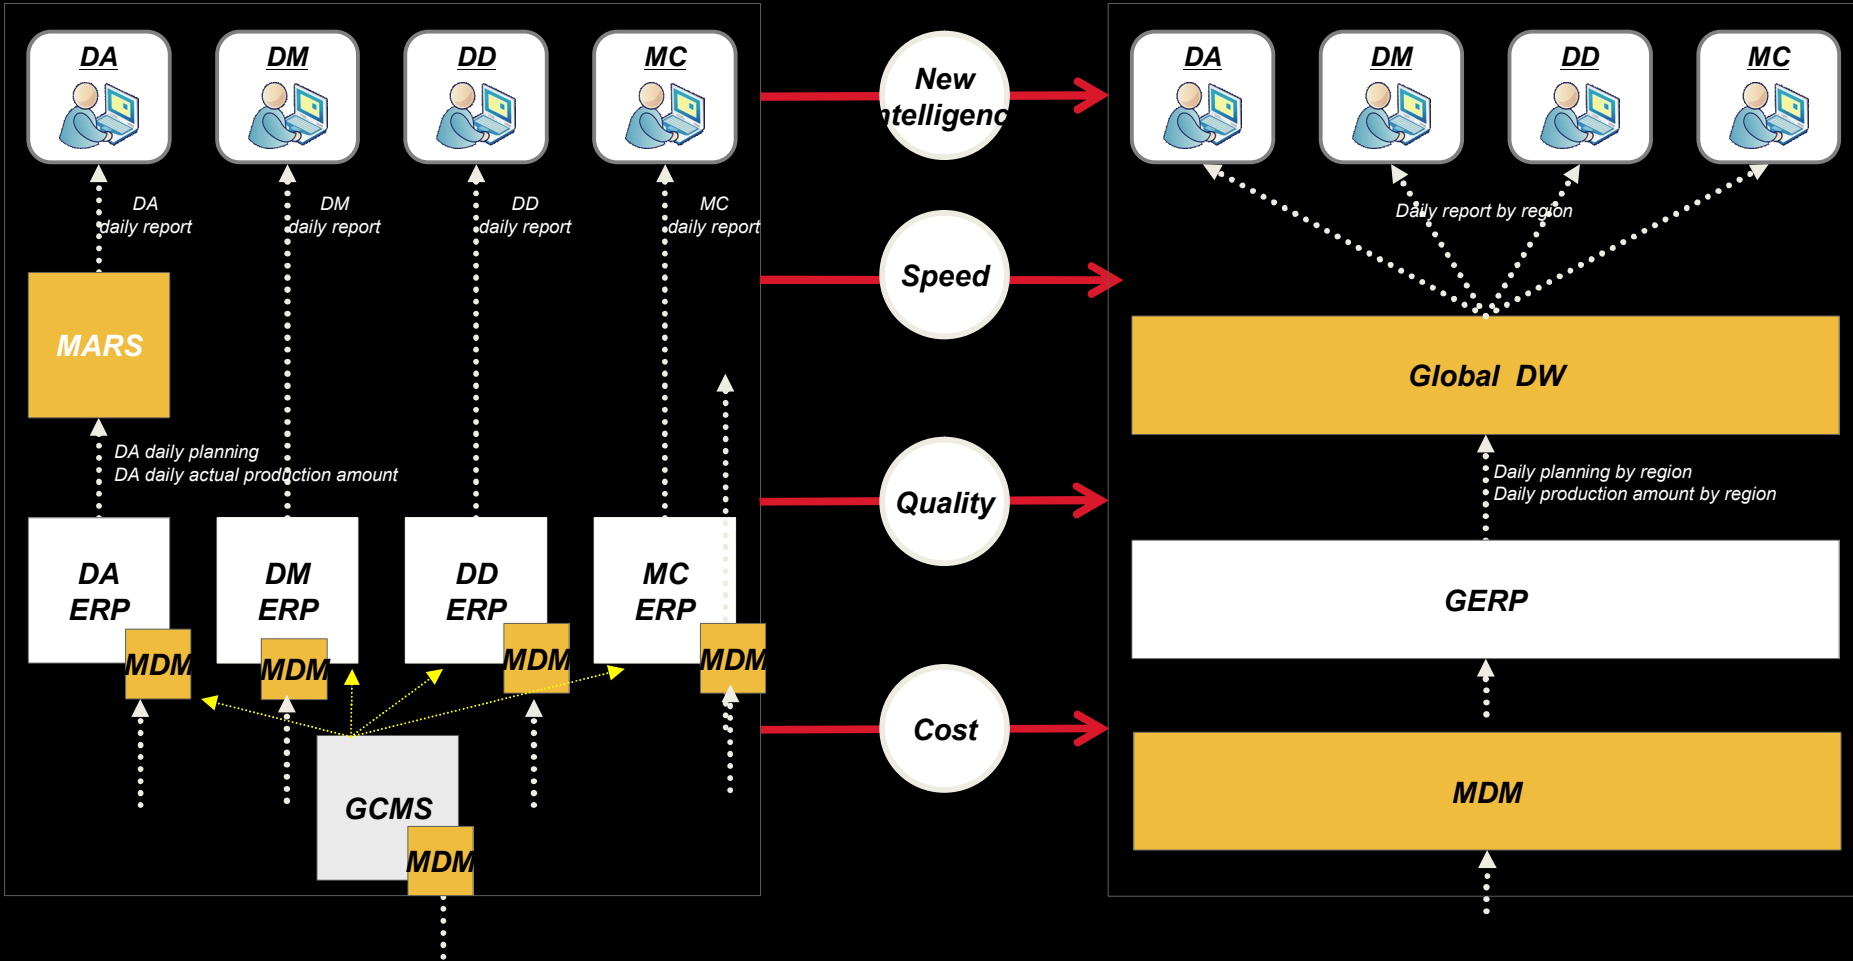

IBM Information  
On Demand

- 2008.1 – 1<sup>st</sup> Pilot ( Korea, Australia )
- 2008.8 – 2<sup>nd</sup> Pilot ( UK, Germany, Indonesia, Jordan )
- 2009.1 – 1<sup>st</sup> Roll-in ( EU(4), CIS(4), Canada )
- ~2010 – Complete GSI Enterprise Data warehouse

# Now.. LGE is true Global Enterprise

*Before*

*After*

# .. With New Intelligence

## **Effective Marketing/Sales Strategy**

- **Consistent reporting from any system based on product hierarchy standard**
- **Global Performance analysis based on common criteria**

## **Customer Relationship Management**

- **One single global supplier/customer analysis**
- **Different treatment based on global trading amount**

## **Inventory Control**

- **Efficient Inventory control with one single global model/Parts/master concept**
- **Manage supplier as family concept**

## **Cost Innovation**

- **Manage optimum number of parts**
- **Minimize duplication**

## **Employee Productivity**

- **Effective communication between manufacturing and sales offices by Managing One global sales model master**

# Future.. Information Quality for Smarter Enterprise

**Key to Success**

*Helps to understand the benefits of information as strategic asset for EDW users*

**Smarter LGE**

## Information Quality

Project Name	Business Case	Impact	Key Risks	Success Metrics
Customer Segmentation and Analytics	Enhance Customer Experience	Improved Marketing Efficiency	Data Quality Issues	Increased Customer Retention
Supply Chain Optimization	Reduce Inventory Costs	Improved Logistics	Integration Challenges	Cost Savings
Operational Performance	Improve Efficiency	Reduced Downtime	System Reliability	Increased Productivity
Compliance & Risk Management	Ensure Regulatory Adherence	Reduced Fines	Data Accuracy	Audit Success

**EDW**

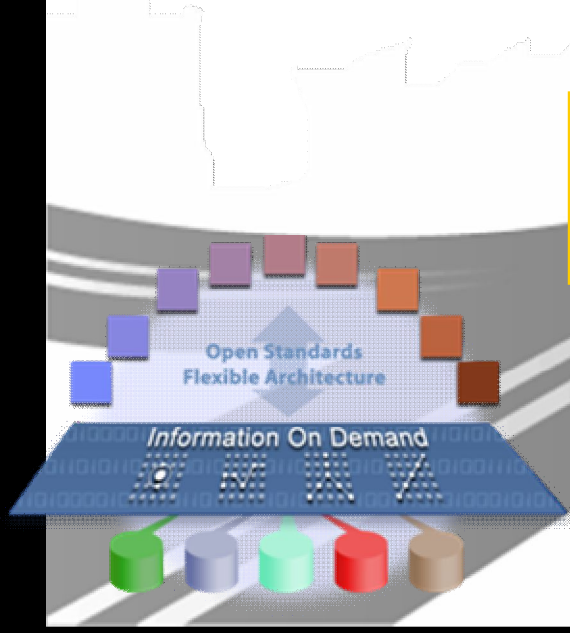

**MDM**

**Next step for the future**

*MDM is not one time project but on-going process and it needs continuous data cleansing for the information Quality*

# *Long Journey for Information Innovation*

*Thank you*

# Leveraging Information...

## **Improving Customer Service**

*Industry Models, Analytics & Trusted Information improve employee insight  
Information from 50+ Systems...*

## **Optimizing Processes with Content**

*Automated Loan Processes help  
Optimize Workforce Productivity  
Loan processing time cut in half...*

## **Capital Market Integration Act**

*Streamlining compliance; Integrating  
& analyzing customer data  
quickly & reliably...*

## **Customer Profitability Analysis**

*Company-wide Information Sharing  
BI & Reporting Workflow from  
10 days to 2 hours...*

# A

*Each successful in its own right; but limited speed and flexibility...*

## **A Global Bank**

- *5 data warehouse projects in 5 years*
- *Large customer call center deployment*
- *Reengineered CIF System*
- *Millions invested*

### Consistent Client Success

# Acknowledged By Industry Analysts

*IBM Leads Overall and in All Categories*

The Gartner logo, featuring the word "Gartner" in a blue, sans-serif font with a registered trademark symbol.

*"...the only vendor in the leadership quadrant:  
Business Intelligence Services, Data Quality, Data  
Integration, Customer Data Integration, Info Access..."*

The ovum logo, consisting of a solid red square above the word "ovum" in a white, lowercase, serif font.

*"...Since 2006, IBM has deliberately & doggedly constructed an  
unparalleled portfolio of software ...it's difficult to see how any  
competitors will be able to compete anytime soon..."*

The Ventana Research logo, featuring a blue stylized 'V' icon above the words "VENTANA" and "RESEARCH" in a blue, uppercase, sans-serif font.

*"...You are definitely ahead of the competition.  
The question is by how much? Is it 2 years?"*

The intelligent enterprise logo, with "intelligent" in a large, bold, black, lowercase sans-serif font and "enterprise" in a smaller, red, lowercase sans-serif font below it.

*"IBM has stayed maniacally focused on helping companies  
to build a trusted information layer. It adds technologies  
when they emerge as important differentiators."*
