Session Abstract

S02   Scenarios for the L2-7 Blade Center Switch Module
       by Scott Lorditch, Nortel

This session will cover examples of how the GbESM has been deployed by customers. It will cover the following:
- industry
- high level review of customer architecture and requirements
- which features of the switch most drove the decision to buy
- which features of the switch have been used
- how the switch remedied customer "pain points"
