V02 VMware Virtual Infrastructure — Connecting IT to the Business
      by John Hawkins, VMware

This presentation will consider some of the high-level trends that are driving IT today, and how Virtualization as a concept is playing an increasingly large role. We will also discuss the VMware Virtual Infrastructure – what it is and what it means to your business today. We'll also cover how VMware products and others play in these areas, and how you can really leverage these products and trends to deliver a differentiated IT solution.
