

IBM Worklight V5.0.6 Getting Started

Previewing your application on Windows Phone 7.5

Trademarks

- IBM, the IBM logo, and ibm.com are trademarks or registered trademarks of International Business Machines Corporation, registered in many jurisdictions worldwide. Worklight is a trademark or registered trademark of Worklight, an IBM Company. Other product and service names might be trademarks of IBM or other companies. A current list of IBM trademarks is available on the Web at "Copyright and trademark information" at www.ibm.com/legal/copytrade.shtml.
- Microsoft, Windows, Windows NT, and the Windows logo are trademarks of Microsoft Corporation in the United States, other countries, or both.
- Java and all Java-based trademarks and logos are trademarks or registered trademarks of Oracle and/or its affiliates.
- Other company products or service names may be trademarks or service marks of others.
- This document may not be reproduced in whole or in part without the prior written permission of IBM.

About IBM®

See http://www.ibm.com/ibm/us/en/

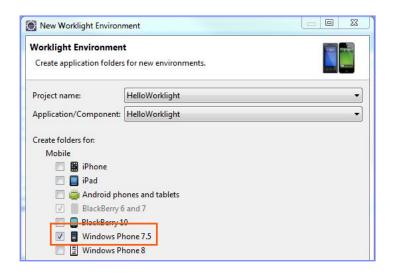

- Adding a Windows Phone 7 environment
- Brief review of the Windows Phone 7 environment folder structure
- Transferring your application to Visual Studio
- Running your application in the Windows Phone 7 simulator
- Running your application on a real device

Adding a Windows Phone 7 Environment

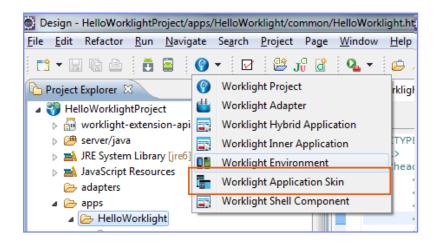

Select the Windows Phone 7.5 check box, and click Finish.

Adding a New Environment

 Click the IBM Worklight® icon and select Worklight Environment to add an environment to your application.

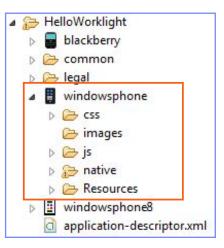

Adding a Windows Phone 7 Environment

 A new windowsphone folder is added to your project.

IMPORTANT

 After a new environment is added, you must Build and Deploy your application to generate a Windows Phone 7.5 project.

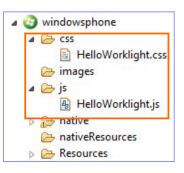

- Adding a Windows Phone 7.5 environment
- Brief review of the Windows Phone 7.5 environment folder structure
- Opening your application in Visual Studio
- Running your application in the Windows Phone 7 simulator
- Running your application on a real device

Review of Windows Phone 7.5 Environment Folder Structure

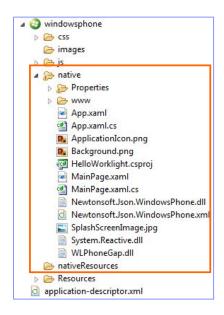

- The windowsphone environment includes the following folders:
 - css The properties that are specified here override the CSS files from the common folder.
 - images environment-specific images can be added here. If an image with the same file name exists in the common folder, it is overwritten in the Windows Phone application.
 - js JavaScript that can extend, and override if required, JavaScript from the common folder.

Review of Windows Phone 7.5 Environment Folder Structure

- The **native** folder under windowsphone contains automatically generated Windows Phone 7 app code.
 - Files in native/www are regenerated every time the application is built, so any changes made to these files are lost.
- The nativeResources folder under windowsphone contains resources that are used by the native code.
- The **native** folder contains an application file that is called <appName>.csproj

10

- Adding a Windows Phone 7.5 environment
- Brief review of the Windows Phone 7.5 environment folder structure
- Opening your application in Visual Studio
- Running your application in the Windows Phone 7 simulator
- Running your application on a real device

Opening Your Application in Visual Studio

- The Eclipse IDE does not support Windows Phone 7.5 application development. You must transfer your app to Visual Studio – the Microsoft native IDE.
- To open a Visual Studio project from the native/www folder, rightclick the .csproj file and select Open.

- Microsoft Visual Studio for Windows Phone opens your project.
- Alternatively, you can manually open the .csproj file within Microsoft Visual Studio. Click File > Open project and navigate to the project folder.

For more information about Microsoft Visual Studio for Windows Phone, see http://www.microsoft.com/visualstudio/eng/products/visual-studio-2010-express

- Adding a Windows Phone 7 environment
- Brief review of the Windows Phone 7 environment folder structure
- Opening your application in Visual Studio
- Running your application in the Windows Phone 7 simulator
- Running your application on a real device

Running Your App in Windows Phone 7 Simulator

Make sure that Windows Phone 7 Emulator is selected.

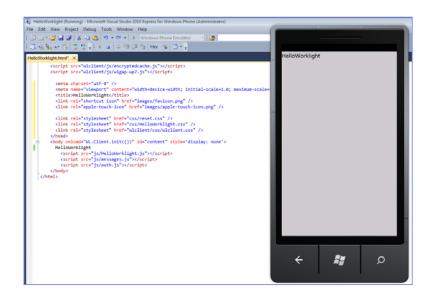

- Click the green arrow (or press F5) to start your application in debug mode.
- To start your application without debug mode, press Ctrl + F5.

Running Your App in Windows Phone 7 Simulator

You created your first Windows Phone 7 application.

- Adding a Windows Phone 7 environment
- Brief review of the Windows Phone 7 environment folder structure
- Opening your application in Visual Studio
- Running your application in the Windows Phone 7 simulator
- Running your application on a real device

Running Your App On a Real Device

Make sure that Windows Phone 7 Device is selected.

- Make sure that your Windows Phone 7 device is connected and is NOT in sleep mode.
- Click the green arrow (or press F5) to start your application in debug mode.
- Click the transparent arrow to start your application (or press Ctrl + F5) without debug mode.

Exercise

Exercise:

- Use the HelloWorklight application that you created earlier.
- Add a Windows Phone environment to it.
- Build and deploy your application to the Worklight Server.
- Transfer your application to Visual Studio.
- Run your application in the Windows Phone
 7 emulator.

Privacy Policy Considerations

- IBM Software products, including software as a service solutions, ("Software Offerings") may use cookies or other technologies to collect product usage information, to help improve the end user experience, to tailor interactions with the end user or for other purposes. In many cases no personally identifiable information is collected by the Software Offerings. Some of our Software Offerings can help enable you to collect personally identifiable information. If this Software Offering uses cookies to collect personally identifiable information, specific information about this offering's use of cookies is set forth below.
- Depending upon the configurations deployed, this Software Offering may use session cookies that collect session information (generated by the application server). These cookies contain no personally identifiable information and are required for session management. Additionally, persistent cookies may be randomly generated to recognize and manage anonymous users. These cookies also contain no personally identifiable information and are required.
- If the configurations deployed for this Software Offering provide you as customer the ability to collect personally identifiable information from end users via cookies and other technologies, you should seek your own legal advice about any laws applicable to such data collection, including any requirements for notice and consent. For more information about the use of various technologies, including cookies, for these purposes, see IBMs Privacy Policy at the prevention on privacy and IBMs Sonline Privacy Statement at the provided of the provided in the provided the pro

Support and comments

- For the entire IBM Worklight documentation set, training material and online forums where you can post questions, see the IBM website at:
 - http://www.ibm.com/mobile-docs

Support

- Software Subscription and Support (also referred to as Software Maintenance) is included with licenses purchased through Passport Advantage and Passport Advantage Express. For additional information about the International Passport Advantage Agreement and the IBM International Passport Advantage Express Agreement, visit the Passport Advantage website at:
 - http://www.ibm.com/software/passportadvantage
- If you have a Software Subscription and Support in effect, IBM provides you assistance for your routine, short duration installation and
 usage (how-to) guestions, and code-related guestions. For additional details, consult your IBM Software Support Handbook at:
 - http://www.ibm.com/support/handbook

Comments

- We appreciate your comments about this publication. Please comment on specific errors or omissions, accuracy, organization, subject
 matter, or completeness of this document. The comments you send should pertain to only the information in this manual or product and
 the way in which the information is presented.
- For technical questions and information about products and prices, please contact your IBM branch office, your IBM business partner, or your authorized remarketer.
- When you send comments to IBM, you grant IBM a nonexclusive right to use or distribute your comments in any way it believes
 appropriate without incurring any obligation to you. IBM or any other organizations will only use the personal information that you supply
 to contact you about the issues that you state.
- Thank you for your support.
- Submit your comments in the IBM Worklight forums at:
 - https://www.ibm.com/developerworks/mobile/mobileforum.html
- If you would like a response from IBM, please provide the following information:
 - Name
 - Address
 - Company or Organization
 - Phone No.
 - Email address

Thank You
