About IBM®

- See <http://www.ibm.com/ibm/us/en/>

Agenda

- General information
- Running the Dojo-based sample for Android
- Running the Dojo-based sample for iOS

About this task

- The Dojo Showcase is a hybrid mobile application designed for several mobile devices
- It features various Dojo mobile widgets and illustrates their function in web and hybrid applications for mobile platforms

About this task

- The Dojo Showcase works in two modes:
 - Single-column - for devices with small screens
 - Two-column - for devices with relatively large screens
- For Android:

About this task

- For iOS:

Generic workflow

- The Android and iOS versions of the Dojo Showcase have the same structure
- The following workflow is common to both versions when running the demo:
 - Load the Dojo Showcase
 - The demo menu is displayed, grouped into three sections: Controls, Effects, and Data
 - Switched to the demo view in single-column mode
 - Displayed in the right column in two-column mode
 - Scroll the demo menu and click the demo item
 - The demo is loaded
 - Run the demo
 - Follow the instructions that are provided in **Explore the demos**

Generic workflow

- Click **Source** to display the source view
 - Click the HTML tab to see the HTML template of the demo

Generic workflow

- Click the JavaScript tab to see the corresponding JavaScript code for the demo
 - Note that not all demos have JavaScript code

```

define(["dojo/dom", "dojo/on", "dijit/r
      "dojox/mobile/TextBox"
template HTML
      "dojox/mobile/TextArea
      "dojox/mobile/CheckBox
      "dojox/mobile/RadioButton
      "dojox/mobile/Slider" ]
return {
  init: function(){
    registry.byId(
      on(registry.by
        // roll
        dom.byId
        registr
        registr
        registr
        registr
      });
  }
};

```

```

define(["dojo/dom", "dojo/on", "dijit/r
      "dojox/mobile/TextBox"
template HTML
      "dojox/mobile/TextArea
      "dojox/mobile/CheckBo
      "dojox/mobile/RadioBu
      "dojox/mobile/Slider"
return {
  init: function(){
    registry.byId
      on(registry.b
        // ro
        dom.b
        regis
        regis
        regis
        regis
      });
  }
};

```

Generic workflow

- Click **Demo** to return to the demo view
 - In single-column mode, you can also click **Back**
- Select another demo from the demo menu
 - In single-column mode, click **Back** to return to the demo menu and pick other demos
 - In two-column mode, you can directly click items in the demo menu to jump to different demos

Agenda

- General information
- Running the Dojo-based sample for Android
- Running the Dojo-based sample for iOS

Before you begin

- See the following modules for how to build and deploy the Showcase:
 - Setting up your Worklight development environment
 - Setting up your Android development environment

Known limitations

There are some known limitations in this Showcase. The following instructions describe how to implement workarounds to these limitations:

- Zooming on Android tablets

- On Android 3.0+ tablets, the Showcase is automatically zoomed which gives a poor user experience
- To disable zooming, perform the following steps to set the SDK version to 11 or above:
 - Right-click the generated Android project and then **Properties**

- Click **Android** in the properties list
- Change **Project Build Target** to Android 3.0 or above and click **OK**
- Edit AndroidManifest.xml in the root of the generated project
 - Set android:minSdkVersion to the API level of the **Project Build Target**

```

</application>
<uses-sdk android:minSdkVersion="15" />
</manifest>

```

Known limitations

- Enable Showcase features
 - Edit AndroidManifest.xml in the root of the generated project
 - Add the following permission elements:

<code><uses-permission android:name="android.permission.ACCESS_COARSE_LOCATION" /></code>	Allows access to a coarse location such as Cell-ID or WiFi
<code><uses-permission android:name="android.permission.ACCESS_FINE_LOCATION" /></code>	Allows access to a fine location such as GPS

- Please also check the product Release Notes for information about known defects

Explore the demos

- Run a demo by selecting any entry in the demo menu

Explore the demos

- Buttons
 - Check that the colors, textures, and shapes are correct

Explore the demos

- Forms
 - Check that the input operations on all controls work correctly
 - Click **Reset Form** to reset fields to their default values

Explore the demos

- Switches
 - Check that the styles and operations work correctly

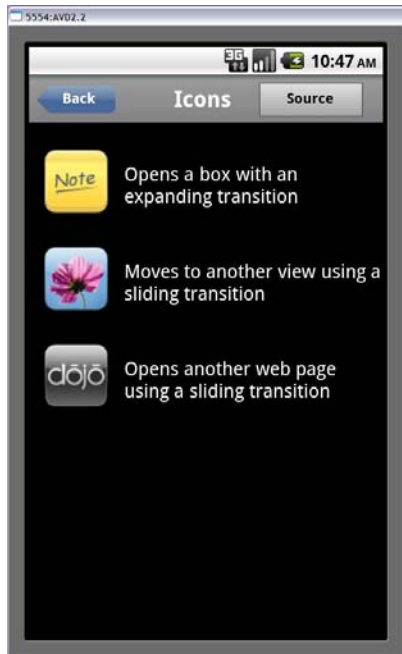

Explore the demos

- Swap View
 - Swipe left and right to swap views
 - Note that if the swipe offset is not large enough, the view bounces back

Explore the demos

- Icons
 - Note: Opens a note book box
 - Click  to close it
 - Flower: Changes to another view with a sliding transition
 - Dojo: Opens a web page with a sliding transition

Explore the demos

- Tab Bar
 - Click each icon on the tab bar to switch the view above

Explore the demos

- Headings
 - Check that the styles are correct
 - Check that each button click is reflected in the text below

Explore the demos

- Map (Google)
 - Check that Google Maps works correctly
 - If Geolocation is enabled, by default the current position is located and marked on the map

Explore the demos

- Lists
 - Check that navigation between lists works correctly

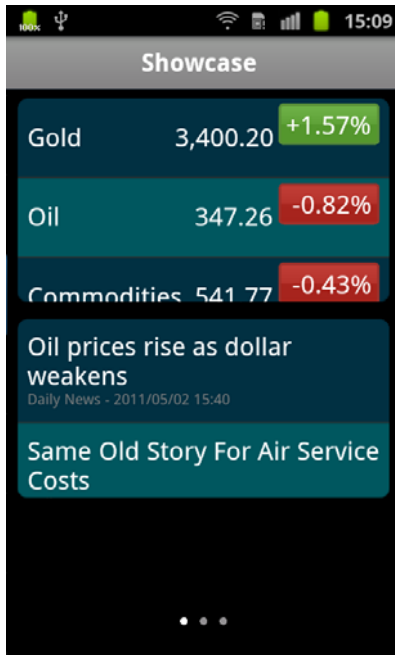

Explore the demos

- List Data
 - Click **+** and **-** to add or remove current list items
 - Click **Set 1** and **Set 2** to toggle between two lists

Explore the demos

- Scroll Pane
 - Check that the top table is vertically scrollable
 - Check that the bottom table is horizontally scrollable

Explore the demos

- Progress
 - ProgressBar: Click **0**, **70**, **100**, and **200** to control the progress bar
 - ProgressIndicator: Click **Start** and **Stop** to control the progress indicator

Explore the demos

- Badges
 - Enter a numeric value in the **Badge value** field – *badge_value*
 - Click **app1**, **app2**, and **app3** to display *badge_value* on the respective icon

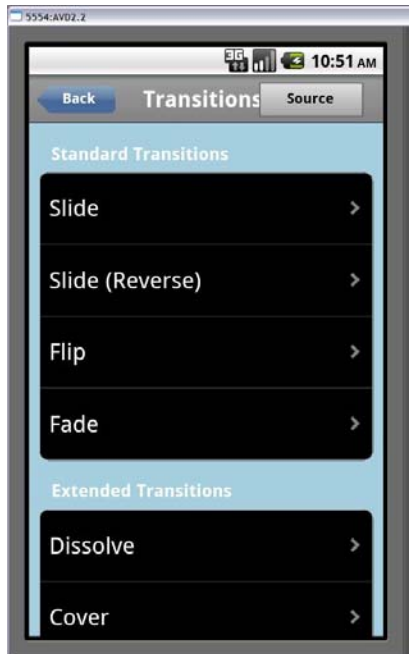

Explore the demos

- Rating
 - Shows the different rating styles that are supported by Dojo

Explore the demos

- Transitions
 - Check that each animation effect works correctly
 - Note:
 - On mobile devices, only Safari mobile on iOS correctly supports all animation effects
 - On desktops, Chrome and Safari correctly support all animation effects

Explore the demos

- CSS 3
 - Check that each CSS 3 animation effect works correctly

Explore the demos

- JSON P
 - Check that Twitter search results are displayed
 - Progressive loading of more search results is supported by clicking the link at the bottom

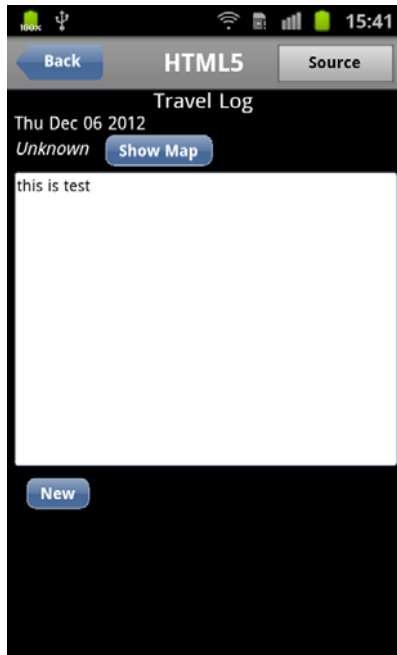

Explore the demos

- AJAX
 - Click **Load using AJAX** to load the following content:
 - Text string "I'm using Dojo."
 - Dojo icon
 - Link to Dojo Toolkit website

Explore the demos

- HTML5
 - Click **Show Map** to see your location marked on Google Maps
 - If Geolocation is enabled, the current position is located and marked on the map
 - Enter travel log details in the input area
 - Travel log details are automatically saved every 30 seconds
 - Click **New** to delete the current travel log and create a new one

Related information

- For more information about Dojo Mobile widgets, including views, see the following link: <http://docs.dojocampus.org/dojox/mobile>

Agenda

- General information
- Running the Dojo-based sample for Android
- Running the Dojo-based sample for iOS

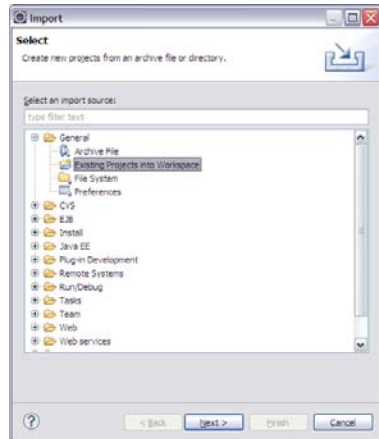

Before you begin

- See the following modules for how to build and deploy the Showcase:
 - Setting up your Worklight development environment
 - Setting up your iOS development environment

Known limitations

There are some known limitations in this Showcase. The following instructions describe how to implement workarounds to these limitations:

- Importing a Worklight® project
 - The import window does not close when importing an existing project into the workspace for the first time
 - This behavior is a known Eclipse defect
 - https://bugs.eclipse.org/bugs/show_bug.cgi?id=337913
 - To resolve this situation, perform the following steps:
 - Exit the Worklight Studio
 - Right-click the Eclipse icon and then **Close**
 - Restart the Worklight Studio
 - Delete the partially imported project from the workspace
 - Import the project again
 - The project is successfully imported

Known limitations

- Screen rotation
 - Apache Cordova disables screen rotation by default
 - To enable free rotation, perform the following step:
 - Edit CDVMainViewController.m
 - Update method **shouldAutorotateToInterfaceOrientation** to always return **YES** in the generated native Xcode project

```
- (BOOL)shouldAutorotateToInterfaceOrientation:(UIInterfaceOrientation)interfaceOrientation
{
    // Return YES for supported orientations
    return (interfaceOrientation == YES);
}
```

- Please also check the product Release Notes for information about known defects

The screenshot shows a mobile application interface with a title bar containing 'Back', 'Scroll Pane', and 'Source' buttons. Below the title bar is a table of commodity prices. The table has four rows: Gold, Oil, Commodities, and Silver. Each row displays the commodity name, its price, and its percentage change. Below the table are two news items, each with a title and a timestamp.

Commodity	Price	Change
Gold	3,400.20	+1.57%
Oil	347.26	-0.82%
Commodities	541.77	-0.43%
Silver	12,823.94	+0.17%

Oil prices rise as dollar weakens

Privacy Policy Considerations

- IBM Software products, including software as a service solutions, ("Software Offerings") may use cookies or other technologies to collect product usage information, to help improve the end user experience, to tailor interactions with the end user or for other purposes. In many cases no personally identifiable information is collected by the Software Offerings. Some of our Software Offerings can help enable you to collect personally identifiable information. If this Software Offering uses cookies to collect personally identifiable information, specific information about this offering's use of cookies is set forth below.
- Depending upon the configurations deployed, this Software Offering may use session cookies that collect session information (generated by the application server). These cookies contain no personally identifiable information and are required for session management. Additionally, persistent cookies may be randomly generated to recognize and manage anonymous users. These cookies also contain no personally identifiable information and are required.
- If the configurations deployed for this Software Offering provide you as customer the ability to collect personally identifiable information from end users via cookies and other technologies, you should seek your own legal advice about any laws applicable to such data collection, including any requirements for notice and consent. For more information about the use of various technologies, including cookies, for these purposes, see IBM's Privacy Policy at <http://www.ibm.com/privacy> and IBM's Online Privacy Statement at <http://www.ibm.com/privacy/details/en/us> sections entitled "Cookies, Web Beacons and Other Technologies" and "Software Products and Software-as-a-Service".

Support and comments

- For the entire IBM Worklight documentation set, training material and online forums where you can post questions, see the IBM website at:
 - <http://www.ibm.com/mobile-docs>
- **Support**
 - Software Subscription and Support (also referred to as Software Maintenance) is included with licenses purchased through Passport Advantage and Passport Advantage Express. For additional information about the International Passport Advantage Agreement and the IBM International Passport Advantage Express Agreement, visit the Passport Advantage website at:
 - <http://www.ibm.com/software/passportadvantage>
 - If you have a Software Subscription and Support in effect, IBM provides you assistance for your routine, short duration installation and usage (how-to) questions, and code-related questions. For additional details, consult your IBM Software Support Handbook at:
 - <http://www.ibm.com/support/handbook>
- **Comments**
 - We appreciate your comments about this publication. Please comment on specific errors or omissions, accuracy, organization, subject matter, or completeness of this document. The comments you send should pertain to only the information in this manual or product and the way in which the information is presented.
 - For technical questions and information about products and prices, please contact your IBM branch office, your IBM business partner, or your authorized remarketer.
 - When you send comments to IBM, you grant IBM a nonexclusive right to use or distribute your comments in any way it believes appropriate without incurring any obligation to you. IBM or any other organizations will only use the personal information that you supply to contact you about the issues that you state.
 - Thank you for your support.
 - Submit your comments in the IBM Worklight forums at:
 - <https://www.ibm.com/developerworks/mobile/mobileforum.html>
 - If you would like a response from IBM, please provide the following information:
 - Name
 - Address
 - Company or Organization
 - Phone No.
 - Email address

Thank You
