# *Agenda*

- **Mobile Web app development**
- Optimizing for Mobile Web
- Debugging the application
- Accessing a Mobile Web application

# Mobile Web app development

- Mobile Web applications run on smartphones and tablets.
- In your Worklight® project in Worklight Studio, you can optimize the application for Mobile Web by adding or changing HTML, CSS, and JavaScript™ files in the `mobilewebapp` environment folder.

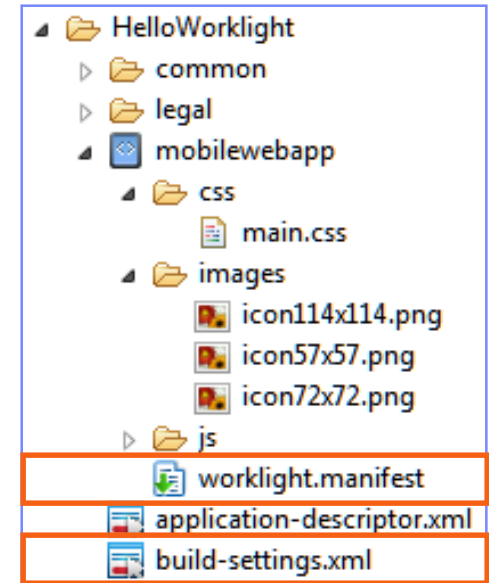

# *Agenda*

- Mobile Web app development
- **Optimizing for Mobile Web**
- Debugging the application
- Accessing a Mobile Web application

# Optimizing for Mobile Web

- When you develop a Mobile Web app, you can also optimize the application for better network performance.
- You can optimize your application by performing the two following actions:
  - Use Minification and Concatenation to reduce the number of files that are used within the application.
  - Use HTML 5 Application Cache.
- For more information about the Worklight Cache Manifest, the Minification, and the Concatenation controls, see [Optimizing Worklight applications](#) in the product documentation.

# *Agenda*

- Mobile Web app development
- Optimizing for Mobile Web
- **Debugging the application**
- Accessing a Mobile Web application

## ***Debugging the application***

- There are many web tools for debugging on various desktop browsers.
- For example:
  - **FireBug** extension for Firefox
  - **Developer tools** for Chrome  
(press CTRL+SHIFT+I to start)
  - **Developer tools** for Internet Explorer (press F12 to start)
  - **Dragonfly** for Opera
- For more information about debugging applications, see the *Debugging your applications* training module.

# *Agenda*

- Mobile Web app development
- Optimizing for Mobile Web
- Debugging the application
- **Accessing a Mobile Web application**

# Accessing a Mobile Web application

- To get the URL of a Mobile Web application, click the **Get App URL** link that is next to the **Mobile Web** icon.
- Copy the regular or shortened URL from the pop-up window, or use the QR code.
- To provide a shortened URL, your bit.ly account user name and password must be provided in `worklight.properties`.

The screenshot shows the HelloWorklight application interface. On the left, there is a circular icon with a lightbulb. To its right, the text 'HelloWorklight' is displayed. Below this, the text 'Last deployed at: 2013-10-21 08:36' is visible. In the center, there is a 'Mobile Web' icon and the text 'Version 1.0'. A red box highlights the 'Get App URL' link next to the version information. Below this, there is a link 'Preview as Common Resources'. On the right, a pop-up window titled 'Get URL of Mobile Web App' is shown. It contains the following information:

- Use these methods to access the mobile web app:
- Full URL: `http://9.148.225.168:10080/HelloWorklightProject/apps/services/www/HelloWorklight/mob`
- Shortened URL: `http://bit.ly/19VThbE`
- QR Code: Right-click to save the image
- A QR code is displayed on the right side of the pop-up.
- A 'Close' button is located at the bottom of the pop-up.

## Privacy Policy Considerations

- IBM Software products, including software as a service solutions, ("Software Offerings") may use cookies or other technologies to collect product usage information, to help improve the end user experience, to tailor interactions with the end user or for other purposes. In many cases no personally identifiable information is collected by the Software Offerings. Some of our Software Offerings can help enable you to collect personally identifiable information. If this Software Offering uses cookies to collect personally identifiable information, specific information about this offering's use of cookies is set forth below.
- Depending upon the configurations deployed, this Software Offering may use session cookies that collect session information (generated by the application server). These cookies contain no personally identifiable information and are required for session management. Additionally, persistent cookies may be randomly generated to recognize and manage anonymous users. These cookies also contain no personally identifiable information and are required.
- If the configurations deployed for this Software Offering provide you as customer the ability to collect personally identifiable information from end users via cookies and other technologies, you should seek your own legal advice about any laws applicable to such data collection, including any requirements for notice and consent. For more information about the use of various technologies, including cookies, for these purposes, see IBM's Privacy Policy at <http://www.ibm.com/privacy> and IBM's Online Privacy Statement at <http://www.ibm.com/privacy/details> the sections entitled "Cookies, Web Beacons and Other Technologies" and the "IBM Software Products and Software-as-a-Service Privacy Statement" at <http://www.ibm.com/software/info/product-privacy>.
