

MY SuperBiz Solutions

A Reliable Shoulder To Lean On For Disaster Recovery

IBM. **Tivoli.** software

IBM Tivoli Fastback

Protect your critical systems and data with IBM Tivoli Storage Manager FastBack Center

IBM Tivoli Fastback provides **the most comprehensive, integrated data backup and recovery features** which no small and mid-sized companies can afford not to have. Organizations are able to derive tremendous cost savings and efficiency from Fastback's ability to:

- Leverage advanced data backup and recovery technology.
- Provide continuous and automatic data protection, enabling recovery anytime.
- Provide machine recovery following a disaster or server failure, even to dissimilar hardware or to virtual machines.
- Recover Microsoft Exchange data within minutes, from individual e-mail messages to entire folders or databases.

OptiPro-M

Best-in-class solution to track employees' performance

OptiPro-M features cutting-edge features that tracks Performance Management across all levels of the call center or the contact center with reporting facilities. The system provides tools to enable individual employees, managers, and executives to gain visibility into how individuals and teams are performing against company goals, demonstrate historical performance levels, and then drive targeted improvement activities. Based on the integration of several disparate databases into one view utilizing current industry best practices and six-sigma project management improvement methodology, OptiPro-M's dynamic filtering and search capabilities allow users to quickly access the data they need across multiple time dimensions, data sources, organizational levels and metrics types on pre-defined templates and standard reports. The embedded design tools ensure a comprehensive, flexible reporting solution which will propel you towards a high-performing call/contact center.
