

IBM Small Business Solutions Toolkit

Innovative tools to help you configure, install and set up PC network solutions in hours instead of days.

The IBM Small Business Solutions Toolkit™ makes it easy to build customized yet consistent and repeatable platforms based on Windows NT® and Lotus® Domino™.

Highlights

With the IBM Small Business Solutions Toolkit, PC network configuration, installation and setup has never been easier or quicker. Here's why:

- *Installation "wizards"* in the form of preprogrammed templates front-end installation routines for more than 20 leading server and desktop applications.
- *Point-and-click selection of server and client applications* and the required entry of only the most critical configuration data make installation of operating system and all applications simpler and faster.
- *Installation questions about all possible products are answered once* rather than repeatedly at each workstation.
- *Custom software from other vendors* can easily be added to the front-end wizards and installation.
- *Additional wizards* offer step-by-step directions throughout network setup and configuration.

- *Automatic network configuration* means skilled personnel are not needed to get TCP/IP networks defined and configured.
- *Network configuration is easily modified* and topology views are available.
- *A simple way to configure clients and servers* with proper network drivers and their complete configuration for remote, unattended installation of the operating system and all applications.
- *Software image storage on the server* eliminates feeding CD-ROMs into each and every server and client to be installed.
- *Single installation user interface across all applications* reduces your need to train and retrain personnel each time an application changes.
- *Periodic updates* will include updated or enhanced installation support for new versions of previously supported software and selected additional applications.

Server applications supported by the IBM Small Business Solutions Toolkit

Lotus Domino Intranet Starter Pack Release 1.0
Microsoft® Internet Explorer 3.02 for Windows NT
Netscape Navigator 3.01 and 4.03
Symantec WinFax Pro 8.0 for Windows® 95 and Windows NT
IBM DB2® Server 2.1.2
IBM DB2 Universal Database™ Version 5.0

Client applications supported by the IBM Small Business Solutions Toolkit

Lotus SmartSuite® 97
Microsoft Office 97 Professional Edition
Corel Office Professional 7
PeachTree Complete Accounting (Release 4, Batch 1)
PeachTree Complete Accounting Plus Time and Billing (Release 4, Batch 1)
Intuit QuickBooks Pro 5.0
Champion Software Profit 3.02
Symantec ACT! 3.0
Janna Contact Personal (Version 4.0)
Goldmine (Version 3.20)
Symantec WinFax Pro 8.0 for Windows 95 and Windows NT
Cheyenne Backup for Windows 95
Norton Utilities for Windows 95
Netscape Navigator 3.01 and 4.03
Microsoft Internet Explorer 3.02 for Windows 95
Lotus Notes® Client 4.51
IBM DB2 Client 2.1.2
AIFR Smart Business Professional
AIFR Smart Business Startup Lite
AIFR Smart Attorney Lite

Technical requirements

The IBM Small Business Solutions Toolkit is installed on Windows NT Server, based on the Windows NT operating system.

Client must be Windows 95 capable. Future support is planned for Windows NT Workstation.

Number of systems configurable is based on Windows NT operating system requirements.

All supported applications are sold separately.

1 Printed on recycled paper containing 10% recovered post-consumer fiber.
