

IBM Program usage and installation report instructions

Informix Development Tool Help Guide

Please see below the additional help in collecting deployment information for your IBM Software. (You may need to zoom in to more easily view the screenshots.)

1. For each Informix Server, please run a cron job executing every 15 minutes for 10 business days of the following commands for the applicable Informix Development Tool:

Cron script:

```
#!/bin/sh
echo $HOSTNAME `date`
ps -ef | grep .4ge
ps -ef | grep .4gi
ps -ef | grep isql
echo "====="
```

Example cron job entry:

```
0,15,30,45 * * * * /path/to/script.sh >> /path/to/<hostname>.informix.txt
```

Each grep associates to the following software package:

Informix 4GL Compiler (V4, V7): ps -ef | grep .4ge

Informix 4GL RDS (V4, V7): ps -ef | grep .4gi

Informix SQL (V4, V7): ps -ef | grep isql

Sample Output

```
