IBM Program usage and installation report instructions

Operational Decision Management (Decision Center/Decision Server) Help Guide

Please see below the additional help in collecting deployment information for your IBM Software. (You may need to zoom in to more easily view the screenshots.)

The information below may help determine the edition of WebSphere Decision Management that you have deployed in your environment:

1. Please provide a screenshot of the installation directory for WebSphere Decision Management.

Edition	Component	Folders
Decision Server Rules	Rule Designer	studio
	Rule Execution Server	executionserver
	Folders common to Decision Server Rules components	gettingstarted, dotnet
Decision Server Events	Event Designer	connectors, runtime, widgets
Decision Center	Decision Center	teamserver, decisionWidget, Rule Solutions for Office (optional)
