May 12-15, 2014 | Tampa Convention Center

Smarter Commerce: Moments Matter

Procurement and Legal

Content designed especially for you

At the Smarter Commerce Global Summit, we will help you optimize your procurement and contract management strategies and the operations to help increase value and savings, improve supplier performance, increase customer satisfaction and mitigate risk.

Exciting Keynote: Engage with the enterprise in moments that matter

Leveraging the knowledge and expertise of the Procurement and Legal organizations is essential for an enterprise to capture greater value and achieve competitive advantage. From compliance and risk mitigation to structuring stronger and more profitable supplier relationships, for the enterprise to excel you must be interacting and engaging fully across the enterprise, particularly when key business decisions are being made.

Technology and innovation can be the key to enabling your organization to more routinely and successfully engage.

Join this keynote session to hear from your peers on how IBM is helping Procurement and Legal teams extend their reach and deliver greater value\impact.

Topic and solution areas in this track include:

- Supplier Management
