## Chapter 1. Reference

---

### Enterprise Components

#### JMS

An implementation of the Java Message Service (JMS) 1.1 specification is included with Extension Services. The JMS implementation can be used with the WebSphere MQ Everyplace provider.

For more information on JMS, refer to the Java Message Service home page.

---

## Chapter 2. Javadoc

---

### Enterprise Components

#### JMS

For more information on JMS, refer to the [Java Message Service home page](#).
