Winning Business in Aerospace

Seminar for Aerospace suppliers

Logo
placement

Agenda

09:00: Welcome and registration

**09:15: Aerospace industry trends and changes:
New Programmes and Supply chain integration**

10:00: Early Adopter: [Customer] reference presentation: Business benefits, pains solved by PLM Solution

10:45: Coffee break

11:00: IBM PLM solutions and offerings:
Approved configurations for Airbus supply chain

11:30: Demonstration and Q&A ?

12:15: [Business Partner] value-add services and offerings

13:00: Buffet lunch and discussion

Event objectives:

Aerospace companies are changing the way they do business. There is increased focus on commonality of tools and processes used within the supply chain.

A core component of this new model is CATIA V5, but decisions on supply chain partners are also being taken based on the way the tools are used to execute work packages for future aircraft programs.

To help in this change, IBM and its partners have put together affordable CATIA V5 packages with Airbus to suit the needs of their different types of suppliers.

Join us and other customers within your industry to discuss these changes and learn from our guest speaker: [reference customer] how becoming an early adopter can help you win more future aerospace work packages without having to deal with implementation of new software at the same time.
