## Reduce time and cost in your tooling design and manufacturing process

With CATIA V5, OEMs and automotive suppliers can significantly reduce the costly and time-intensive creation and modification of jigs and fixtures. As a producer of jigs and fixtures for the automotive industry, we will show you how to achieve the following with our Generative Tooling Jigs & Fixtures Solution:

- " Faster tooling design
- " How to maximize your company know-how
- " Enhanced collaboration between design simulation and manufacturing
- " Integrated business processes
- " Rapid implementation
