Lunch with an ISV Sponsor

SMS – Store Management Suite is a complete Suite of applications designed for Retail-Grocery-Drug. SMS provides one solution for the retailer from POS and Back office all the way to Hosting. Many IBM dealers are winning business TODAY with SMS from Grocery / Drug Store chains to general retail. With an interface to IBM SA and a win with A&P Canada, we offer another option to other back office applications. SMS supports SA coupon price and reads the POS live as the transactions happen in the store just as it would be a SMS POS. Next in development is IBM ACE. SMS is installed in over 7500 sites and the host is installed in more than 100 enterprises to control multiply store data and pricing. LOC Software has grown over the last 20 years to become in the top 5 in grocery solutions sold in North America.
