# 1 About this Documentation

## 1.1 Audience

The target audience of this document is IBM Performance Manager for Wireless customers. They should be familiar with telecommunication and IT principles and should also have a good understanding of Solaris.

---

**IMPORTANT:** Before attempting an installation of Gateway Framework you are strongly advised to read the release notes and any readme files distributed with your Gateway Framework software. Readme files and release notes may contain information specific to your installation not contained in this guide. Failure to consult readme files and release notes may result in a corrupt, incomplete or failed installation.

---

**Note:** Performance Manager for Wireless Administrators should not, without prior consultation and agreement from IBM, make any changes to the Index Organized tables or database schema. Changes to the Index Organized tables or database schema may result in corruption of data and failure of the Performance Manager for Wireless System. This applies to all releases of Performance Manager for Wireless using all versions of interfaces.

---

## 1.2 Required Skills and Knowledge

This guide assumes you are familiar with the following:

- General IT Principles
- Sun Solaris Operating System
- Oracle Database
- Windows operating systems
- Graphical User Interfaces
- Network Operator's OSS and BSS systems architecture

This guide also assumes that you are familiar with your company's network and with procedures for configuring, monitoring, and solving problems on your network.

## 2 Associated Documents

The following documentation accompanies this release:

### 2.1 Referenced Documents

Document Name	Document Description
[Install Note]	This document describes the steps required to install and run a Gateway.
[Gateway Framework Distribution Note]	This document provides an overview of the release history of the Gateway Framework.

## 3 Introduction

You should read this Distribution Note before proceeding to install the ASCII Gateway, which is referred to as the Vendor Gateway.

This Distribution Note provides an overview of the release history of this Gateway.

## 4 Operating System Support

The Vendor Gateway is built using the generic Gateway Framework. The Vendor Gateway is currently supported on the platforms as in the Gateway Framework Distribution Note.

---

---

## 5 Gateway Framework

The Vendor Gateway requires the Gateway Framework release 3.5 and above.

See [Gateway Framework Distribution Note].

The Gateway Framework and Vendor Gateway release and installation have been decoupled into separate packages and procedures.

See [Install Note].

## 6 Release History

### 6.1 Release 3.5.1

Release date 29 Apr 2009.

The following enhancement has been reverted for backward compatibility.

#	Description
58033	Generic_ASCII: The Section information should be reset

### 6.2 Release 3.5.0

Release date 19 Aug 2008.

Listed below are the enhancements for this release.

#	Description
58033	Generic_ASCII: The Section information should be reset
1	Support for Gateway Framework 3.5.0 enhancements

### 6.3 Release 3.4.0

Release date 30 Jan 2008.

Listed below are the enhancements for this release.

#	Description
1	Support for Gateway Framework 3.4.0 enhancements

## 6.4 Release 3.3.1

Release date 1 November 2007.

Listed below are the enhancements for this release.

#	Description
1	Include modules directory for Vendor Gateways

Note:

The `VENDOR_GATEWAY` environment variable must be set to include the modules directory in the path before running Gateway, e.g.:

```
VENDOR_GATEWAY=${GATEWAY_ROOT}/modules/generic-ascii
```

## 6.5 Release 3.3.0

Release date 18 July 2007.

Updated for compatibility with the Gateway Framework r3.3.0 Bluewash release.

#	Description
1	Bluewash release

## 6.6 Release 3.0.0

The ASCII Gateway requires Gateway Framework r3.1.1.

The following is included in this release:

#	Description
1	ASCII Gateway <ul style="list-style-type: none"><li>- Reads in most ASCII data in tabular format where header and data sections can be distinctively identified.</li><li>- Allows flexibility within the Engine Configuration for parsing ASCII data and outputs them into LIF (&amp; CSV or XML)</li></ul> Associated Documentation (In Package Docs directory)

## 7 Type(s) and release(s) supported

It is expected that this list will grow extensively over time. These are the types of data that the parser has been used successfully with.

<b>Vendor</b>	<b>Release</b>	<b>Notes</b>
<b>Performance data</b>		
Huawei NSS	V61, V33	Tabular ASCII
Nortel NBSS	V13, v14, v15	Piped delimited ASCII

## 8 Raw input files

<b>Scope</b>	<b>Attended Format/Syntax</b>
Input files names to expect	No standard conventions.
Input file formats to expect	ASCII data in tabular format where header and data sections are distinctively identifiable.
Equipment/devices to expect data	All devices that produce tabular ASCII data outputs

## Appendix A Notices and Trademarks

This appendix contains the following:

- Notices
- Trademarks

### **Notices**

This information was developed for products and services offered in the U.S.A.

IBM may not offer the products, services, or features discussed in this document in other countries. Consult your local IBM representative for information on the products and services currently available in your area. Any reference to an IBM product, program, or service is not intended to state or imply that only that IBM product, program, or service may be used. Any functionally equivalent product, program, or service that does not infringe any IBM intellectual property right may be used instead. However, it is the user's responsibility to evaluate and verify the operation of any non-IBM product, program, or service.

IBM may have patents or pending patent applications covering subject matter described in this document. The furnishing of this document does not grant you any license to these patents. You can send license inquiries, in writing, to:

IBM Director of Licensing  
IBM Corporation  
North Castle Drive  
Armonk NY 10504-1785  
U.S.A.

For license inquiries regarding double-byte (DBCS) information, contact the IBM Intellectual Property Department in your country or send inquiries, in writing, to:

IBM World Trade Asia Corporation  
Licensing  
2-31 Roppongi 3-chome  
Minato-ku  
Tokyo 106-0032  
Japan.

The following paragraph does not apply to the United Kingdom or any other country where such provisions are inconsistent with local law: INTERNATIONAL BUSINESS MACHINES CORPORATION PROVIDES THIS PUBLICATION "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Some states do not allow disclaimer of express or implied warranties in certain transactions, therefore, this statement may not apply to you.
