IBM iNotes 9.0 Social Edition

Near-parity with full Notes experience!

更佳的用戶體驗:

- Abbreviated dates
- 快速搜尋 (Quick find)
- 全新Design的行事曆
- 新的"每日行事曆" widget
- 從Microsoft® Outlook匯入通訊錄
- Paste images from clipboard (Firefox only)
- Drag 'n Drop attachments (HTML 5 APIs)
- Return Receipt generation control
- Extensibility via Notes Widgets and Live Text (OpenSocial gadgets)
- Open widget content in new sidebar panels or tabs
- Secure attachment viewing (now on Greenhouse; planned for SmartCloud and on-premises)
- Relocate folders

社交商務整合:

- Embedded Experiences
- Activity Stream with "Updates" widget
- Connections Files integration
- IBM Social theme
- NEW Notes links and web links, displayed together

© 2013 IBM Corporation

IBM Notes Browser Plug-in

- Designed to easily extend applications previously available only to Notes users out to web browser users, as well
- Provides a powerful compliment to existing XPages capabilities
- Allows applications to run in a browser with no modification!
- Lightweight install, similar to other plug-ins in size, deployment time and configuration requirements

- Minimal limitations:
  - Windows only (for now, at least!)
  - Not designed to support mail template, rather, to work in conjunction with iNotes
  - Firefox and Internet Explorer along with Citrix, in first release

The information contained in this publication is provided for informational purposes only. While efforts were made to verify the completeness and accuracy of the information contained in this publication, it is provided AS IS without warranty of any kind, express or implied. In addition, this information is based on IBM's current product plans and strategy, which are subject to change by IBM without notice. IBM shall not be responsible for any damages arising out of the use of, or otherwise related to, this publication or any other materials. Nothing contained in this publication is intended to, nor shall have the effect of, creating any warranties or representations from IBM or its suppliers or licensors, or altering the terms and conditions of the applicable license agreement governing the use of IBM software.

References in this presentation to IBM products, programs, or services do not imply that they will be available in all countries in which IBM operates. Product release dates and/or capabilities referenced in this presentation may change at any time at IBM's sole discretion based on market opportunities or other factors, and are not intended to be a commitment to future product or feature availability in any way. Nothing contained in these materials is intended to, nor shall have the effect of, stating or implying that any activities undertaken by you will result in any specific sales, revenue growth or other results.

Performance is based on measurements and projections using standard IBM benchmarks in a controlled environment. The actual throughput or performance that any user will experience will vary depending upon many factors, including considerations such as the amount of multiprogramming in the user's job stream, the I/O configuration, the storage configuration, and the workload processed. Therefore, no assurance can be given that an individual user will achieve results similar to those stated here.

All customer examples described are presented as illustrations of how those customers have used IBM products and the results they may have achieved. Actual environmental costs and performance characteristics may vary by customer.
