

# Web Application Security

## *Don't Be Tomorrow's Headlines*

### WEB APPLICATION SECURITY SHOULD BE YOUR TOP PRIORITY

You could be one click away from making headlines

- A glitch on the web site of hotel chain Travelodge led to names, addresses and parts of credit card numbers being accessible to other customers.
- The Foreign & Commonwealth visa application website allowed applicants personal details to be viewed.
- Credit card details were able to be accessed from the Cotton Traders website.

Even with companies making heavy investments in network security, Gartner research indicates that 75% of today's attacks occur at the application level and 80% plus of companies are likely to suffer an attack by 2010. What's more, if you trade over the web, your applications have to be protected for Payment Card Industry compliance.

**IBM invites you to learn about Web Application Security and how IBM Appscan can help solve your security issues (2 part webinar series):**

#### **Security Webinar (Part 1)**

Agenda	Dates	Time
<ul style="list-style-type: none"> <li>• Importance of web application security</li> <li>• Today's most significant on-line threats</li> <li>• How they occur and what can be done to prevent them</li> <li>• Manual versus automated approaches for scanning and identifying vulnerabilities</li> <li>• Best practices for fixing vulnerabilities</li> <li>• How IBM Rational Appscan can solve your security vulnerabilities</li> </ul>	<ul style="list-style-type: none"> <li>• 14 January 2009</li> <li>• 28 January 2009</li> <li>• 11 February 2009</li> <li>• 25 February 2009</li> <li>• 11 March 2009</li> <li>• 25 March 2009</li> </ul>	12:30 – 13:10

#### **Live IBM Appscan Demo (Part 2)**

Agenda	Dates	Time
For all your Web Application Security problems watch IBM's Rational Appscan demo.	<ul style="list-style-type: none"> <li>• 21 January</li> <li>• 4 February</li> <li>• 18 February</li> <li>• 4 March</li> <li>• 18 March</li> <li>• 1 April</li> </ul>	12:30 – 13:10
