Impact2012
April 29-May 4, Venetian Las Vegas

1 Enhance your skills by attending technical sessions, meet-the-expert discussions and hands-on labs focused on the latest WebSphere®, BPM, SOA, Cloud and other IBM technologies.

2 Get the latest insights from industry leaders on how technology drives better business results at the Forbes-sponsored business program.

3 Expand your network and gain valuable contacts among fellow IT peers, distinguished engineers, chief architects and business experts.

4 Harvest a wealth of expert advice, insights and tips. Be among the first to test-drive the latest technologies and software.

5 Advance your career, get certified and help your organization improve its business outcomes through the implementation of world-class IBM technology.
