

Withdrawal Announcement
July 27, 2007

Software end of service: DataStage Transformation Extender Versions 6.0, 6.5 and 6.7

Overview

Effective September 30, 2008, IBM will no longer offer support for IBM WebSphere DataStage Transformation Extender Versions 6.0, 6.5 and 6.7, also known as Ascential DataStage TX, DataStage TX and Mercator Integration Broker.

Refer to the **Replacement Information** section for details.

Products listed under the heading “**WebSphere Transformation Extender V8.1 Equivalent**” in the **Replacement Information** section of this announcement are not automatically entitled for replacement of the withdrawn product. This announcement is provided for your information only and is subject to change. For additional information, contact your IBM representative, call **800-IBM-4YOU**, or visit the IBM home page at: <http://www.ibm.com>

IBM Software Services for WebSphere

Engage the experts. Skilled IBM Software Services consultants can assist you in successfully migrating to the latest version of WebSphere Transformation Extender (WTX) with their Migration Services Offering. Our consultants will host a workshop which will assess your current environment and provide guidance on the best approach for migrating to WTX. For more details contact your ISSW Services Sales Rep. To locate a Services Sales Specialist in your region please visit: <http://www-128.ibm.com/developerworks/websphere/services/contacts.html>
