

IBM Software

Web 2.0 et Global SOA

Philippe Bournhonesque
Stratégie IBM Software Group France
pbournhonesque@fr.ibm.com

- **Qu'est ce que le Web 2.0 ?**

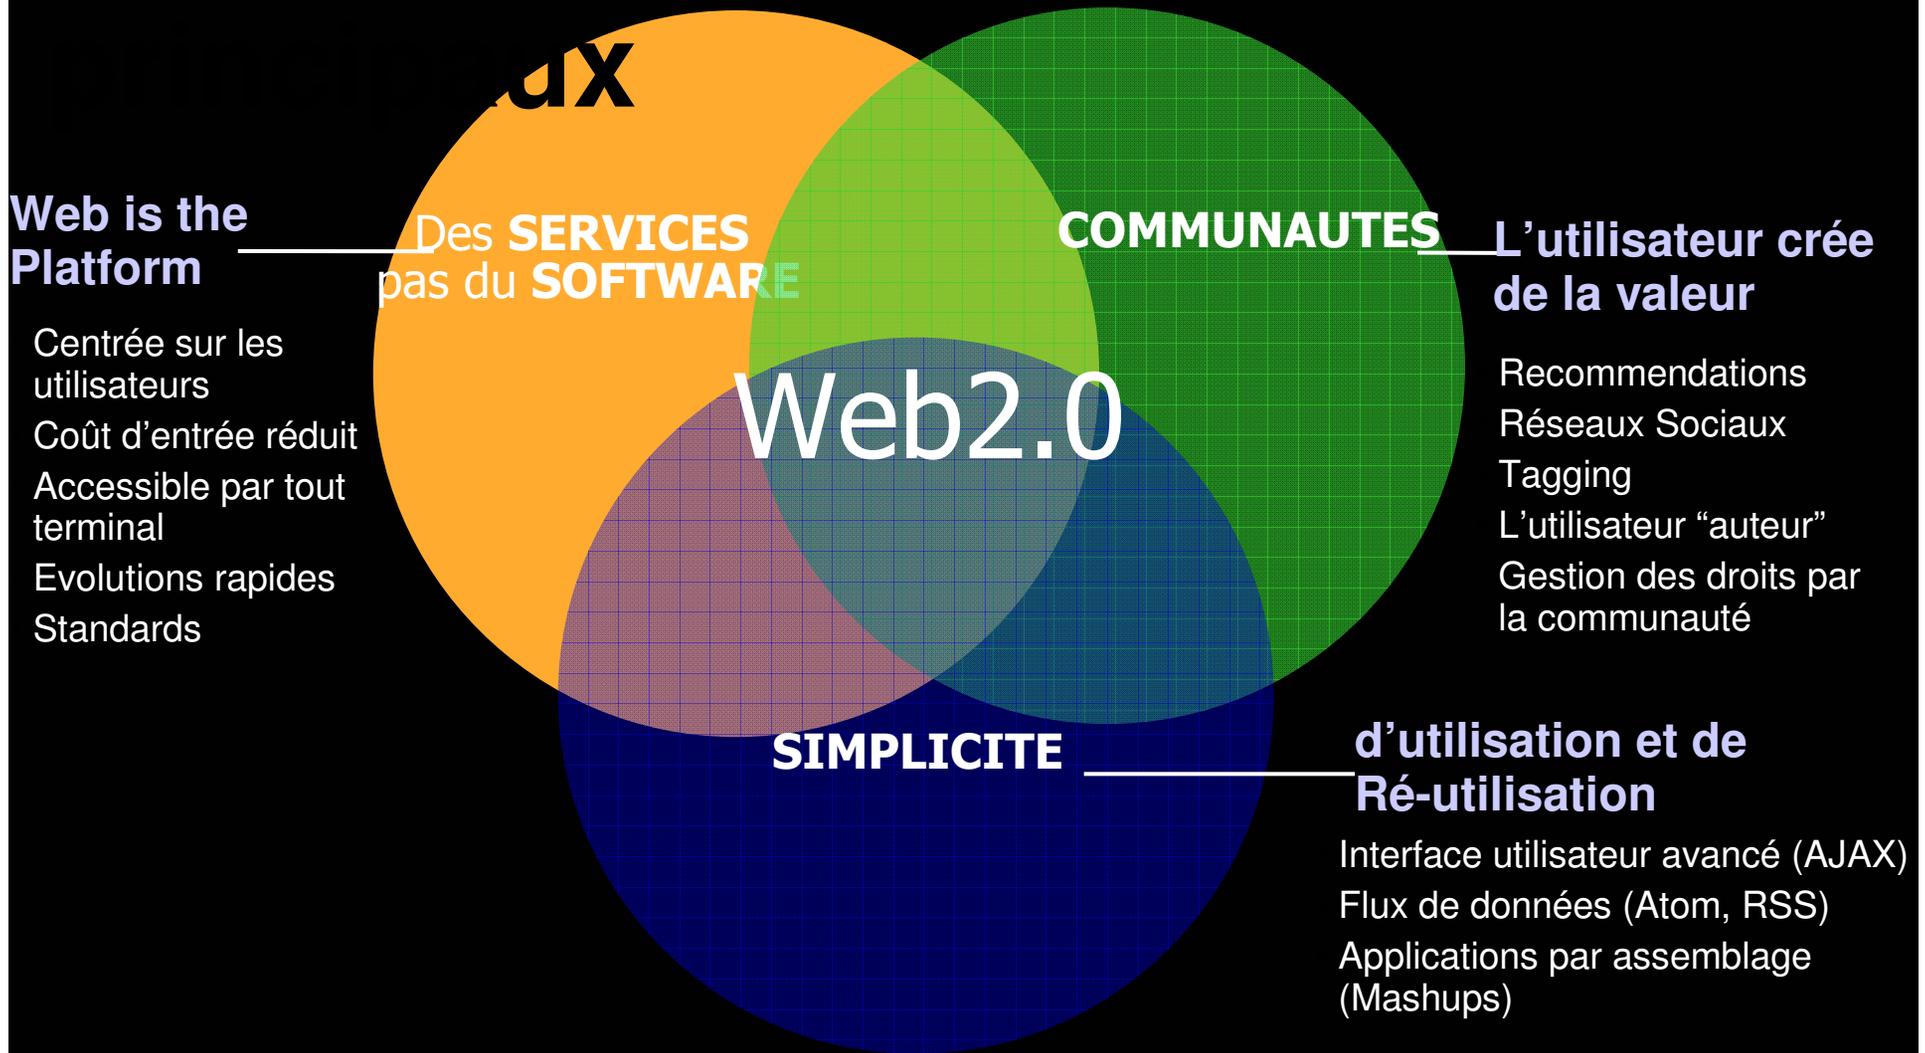

- Et IBM ?

- Impacts

Web 1.0 parlait de connexions
entre ordinateurs et rendait
l'information facilement
accessible

Web 2.0 parle de connexion
entre personnes et
d'amplification d'effet par le
travail collaboratif

Les fonctionnalités WEB 2.0 ont permis d'innover dans les usages du web avec des "outils sociaux" simples et efficaces.

En conséquence, sont labellisés "Web 2.0" de multiples services offrant des fonctionnalités, des bénéfices et des impacts business très différents.

<p>Social networks</p> <p>Technology that allows users to leverage personal connections.</p>		<p>P2P file sharing</p> <p>Sharing media files over a network powered by users who act as both client and server.</p>	
<p>RSS</p> <p>An XML standard that lets users collect and read content feeds.</p>		<p>C2C eCommerce</p> <p>Buying and selling among consumers via the Net.</p>	
<p>Open source software</p> <p>Publicly available software that can be copied or modified without payment.</p>		<p>Comparison shopping sites</p> <p>Sites that allow consumers to compare products or services.</p>	
<p>Blogs</p> <p>Online diaries of text, photos, or other media.</p>		<p>Podcasts</p> <p>Online audio or video that users can download to a device.</p>	
<p>Search engines</p> <p>Services that find Web content based on user-specified criteria.</p>		<p>Wikis/Collaboration software</p> <p>Shared publishing software or site that allows users to edit content.</p>	
<p>User review portals</p> <p>Web portals that allow users to search for peer reviews on a product or service.</p>		<p>Tagging</p> <p>Metadata assigned to items like photos or Web pages to facilitate searching and sharing.</p>	

Web 1.0

Servir les Masses

Focus sur le logiciel

Contrôler ses sites Web

All Rights Reserved

Relier des Ordinateurs

Web 2.0

Servir le "Long Tail"

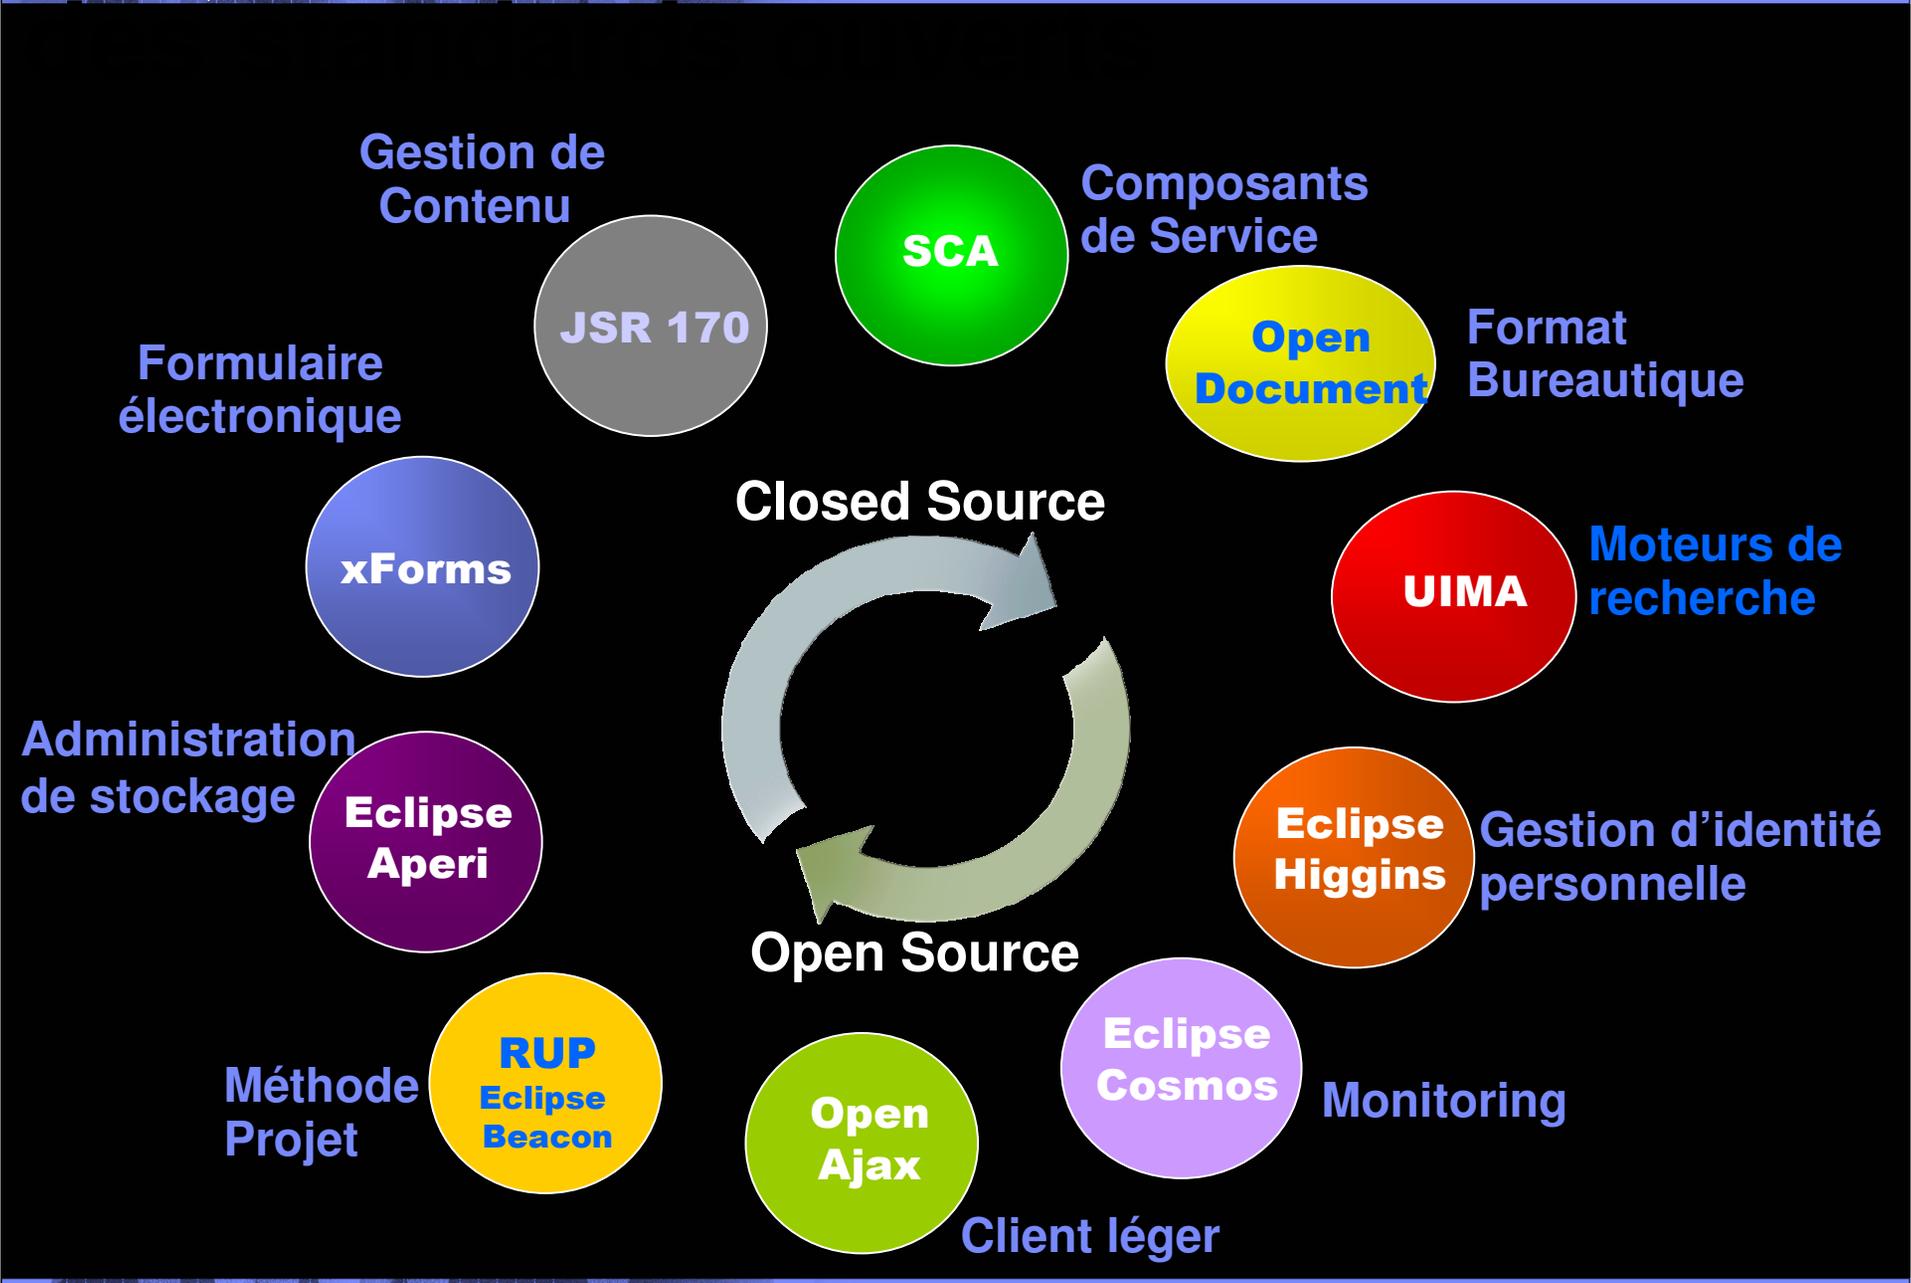

Focus sur les données et les Web Services

Co - Contribution avec les utilisateurs

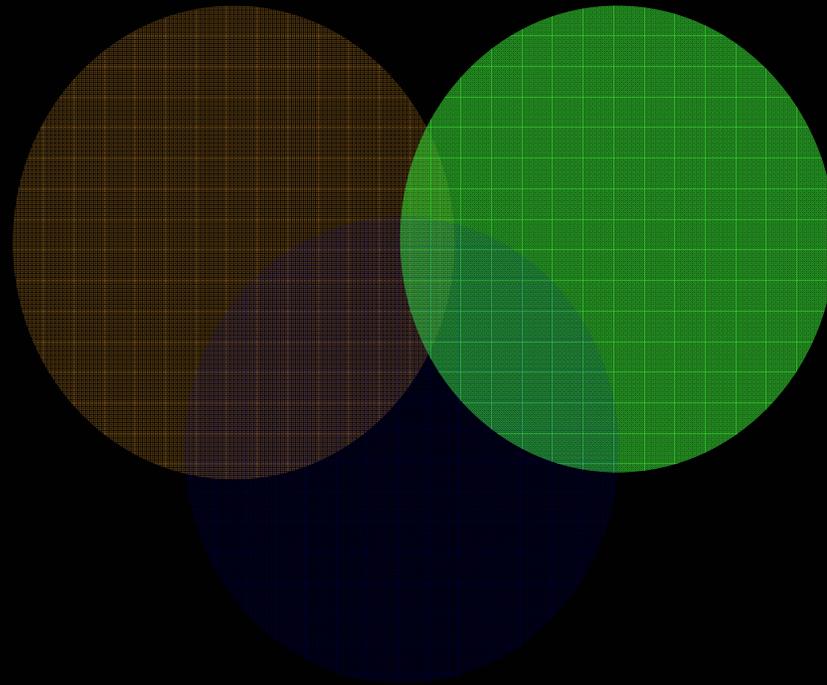

Coopérer, ne pas (tout) contrôler

Connecter des Personnes

- Qu'est ce que le Web 2.0 ?
- Et IBM ?

Applications composites Poste de travail – Notes V8

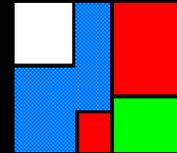

The screenshot displays the IBM Lotus Notes V8 interface. On the left, a sidebar for 'Corporate Customers - All by - IBM Lotus Notes' features the 'ZetaBank' logo and navigation options: 'All Accounts', 'By Company', 'By Manager', 'By Region', and 'Prospects'. Below this is an 'Account Manager' section with an 'Actions' dropdown and fields for 'Company:', 'ID:', 'Account manager:', 'Phone:', and 'Email:'. The main window is titled 'New Spreadsheet - Lotus Notes 8 Pre-Beta' and contains a spreadsheet with the following content:

	A	B	C	D	E	F	G
1	IBM Prodcivity Editors						
2							
3	Spreadsheet						
4							
5							
6							
7							
8							
9							
10							
11							
12							
13							

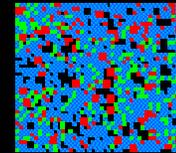

The spreadsheet window includes a menu bar (File, Edit, View, Tools, Create, Manipulate, Layout, Window, Help), a toolbar, and a 'Properties' panel on the right. The 'Properties' panel is expanded to show 'Font' (Arial, Size 10), 'Effects', 'Appearance' (Cell height: 0.18", Cell width: 0.89", Use Default checked), 'Cell color' (White), 'Cell shadow' (Distance: 0.07", Shadow color: Gray), and 'Alignment'. The status bar at the bottom shows 'Sheet 1 / 1', 'Default', '100%', 'STD', and 'Sum=0'. The bottom right corner of the interface indicates 'Online'.

361	15.87	2001-02-11	Visa	Food
362	13.81	2001-05-23	Visa	Telephone

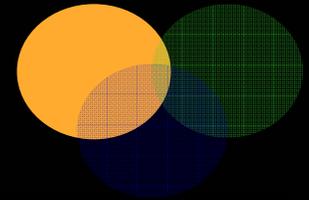

Expense Allocation

A pie chart showing the distribution of expenses across various categories. The legend includes: Medical/Dental, Mortgage/Rent, Food, Gas/Electric, Cloth, Insurance, Dependent Care, Taxes, Entertainment/Travel, Transportation, and Telephone.

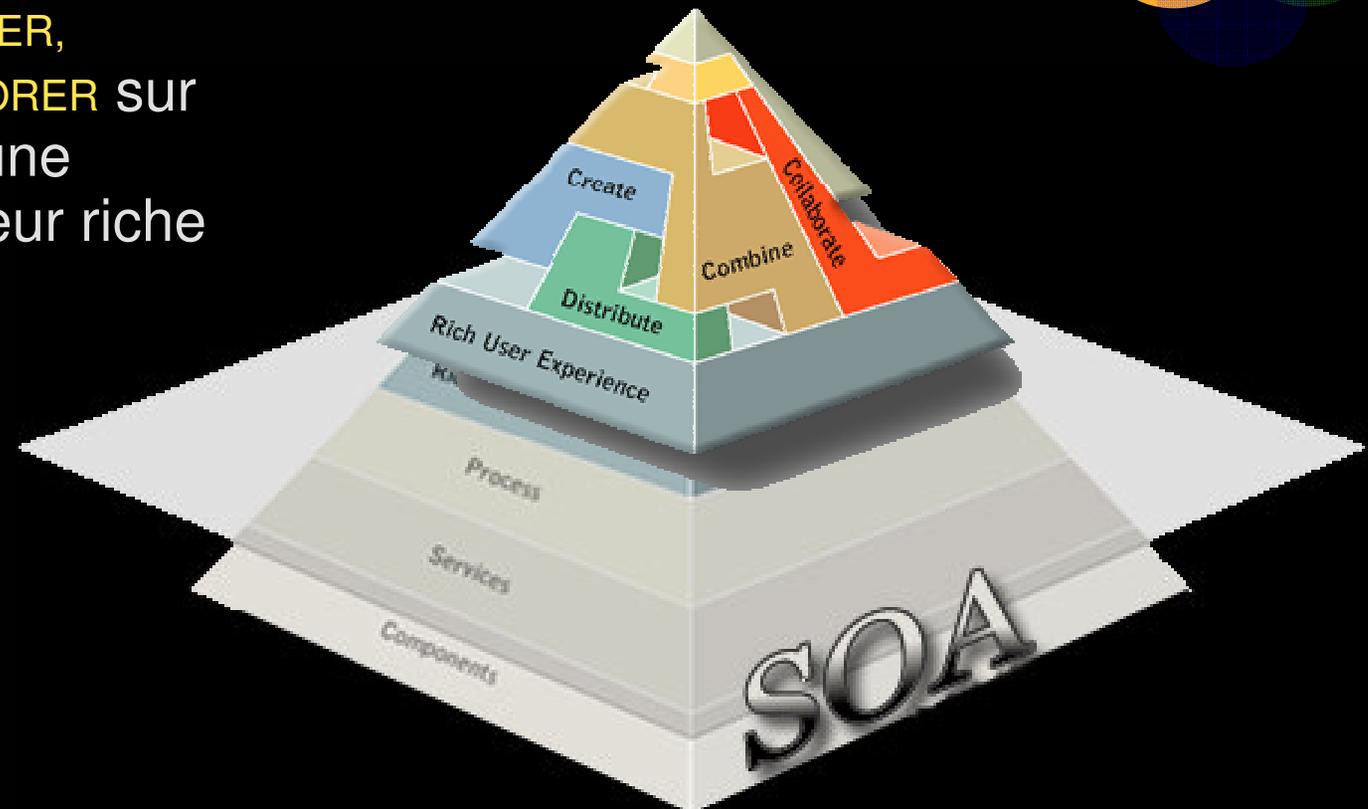

Platform

Platform

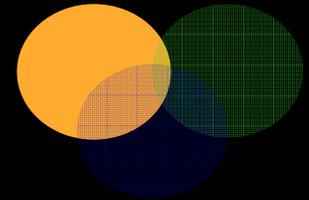

Le Web 2.0 permet aux utilisateurs de **CREER**, **COMBINER & COLLABORER** sur du contenu avec une **EXPERIENCE** utilisateur riche

...et utilise les services métiers – sécurisés et à haute disponibilité - d'une **Architecture Orientée Services (SOA)**

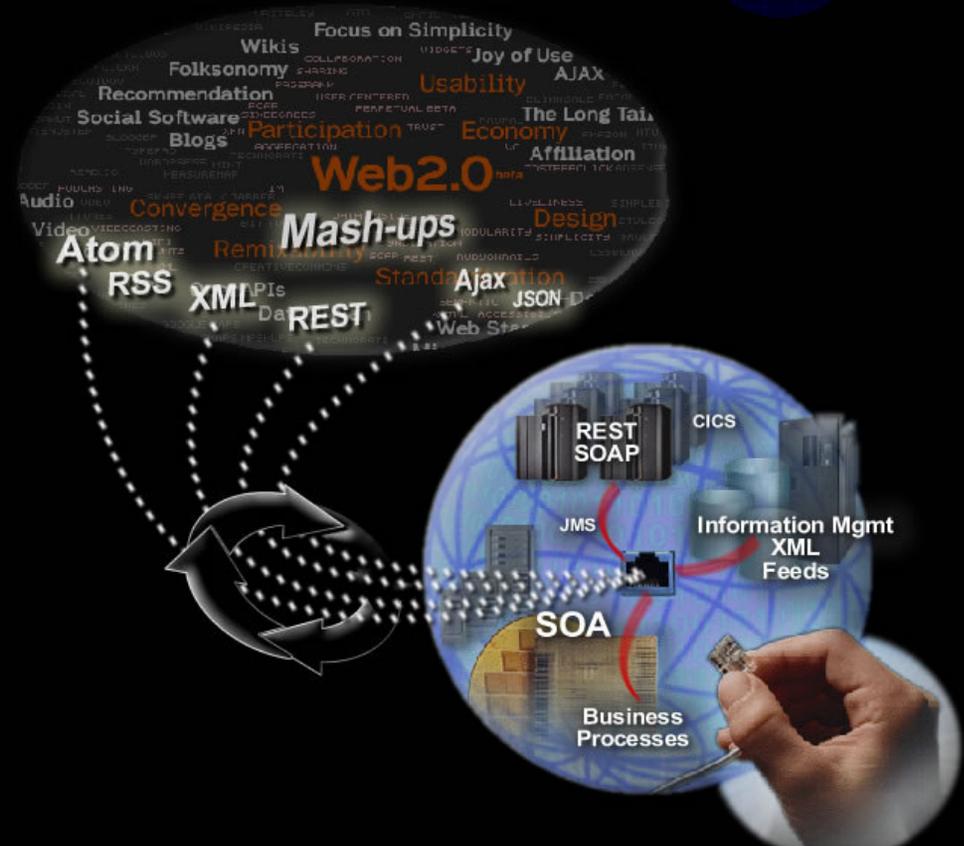

Platform

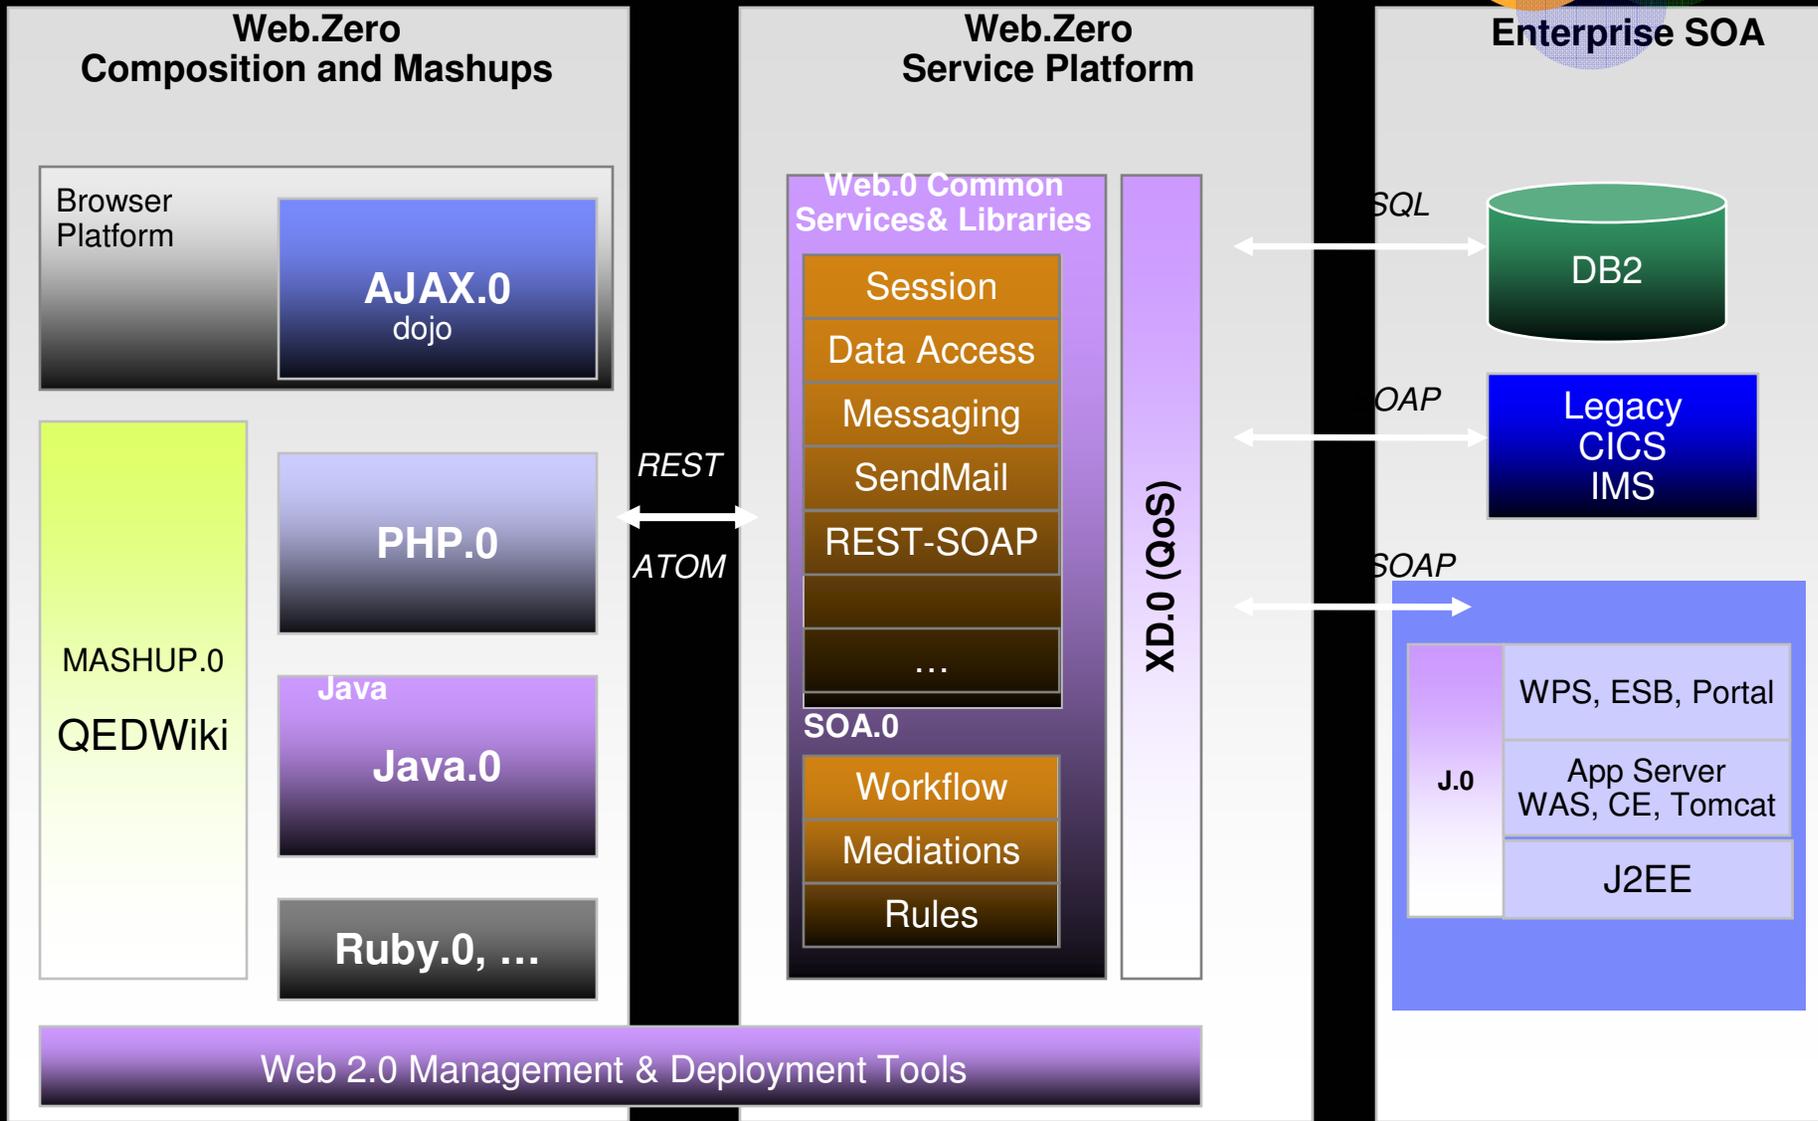

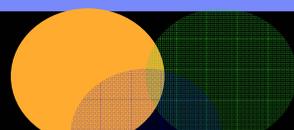

*“...Comment rendre mes assets
“mash-able”*

*“...Comment garantir la disponibilité et
l’exactitude des données pour des
services de plus en plus nombreux”*

*“... avec l’ouverture des accès aux
utilisateurs externes, comment rester
scalable ?”*

- Qu'est ce que le Web 2.0 ?
- Et IBM ?
- Impacts

■ Revenu

- Publicité
- Rémunération sur les appels aux API Web services
- Éventuellement à la transaction ou à l'abonnement

■ Comment réussir ?

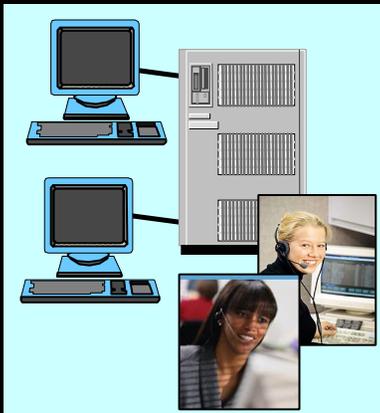

- Prime au premier (ex : MySpace, Flickr, YouTube ...)
- Le « Long tail » : offrir le produit 'rare'
- Favoriser l'adhérence des utilisateurs : par les données, et par un nombre de services toujours renouvelés

- **Baisse des coûts de la présence sur le Web**
- **Personnalisation extrême**
- **Désintermédiation : « Ma petite entreprise »**
- **Impératifs : Rapidité (métier et IT) et Innovation**
- **« Marketing-is-dead »**
 - Transparence – Exigence de « vérité »
 - «Pull » et non « push »
 - Un réel Dialogue avec ses prospects, clients, usagers...
- **L'illusion que tout est gratuit ou libre de droits**
- **La désinformation possible sur la Blogosphère**

Evolution des Applications d'entreprise

Evolution des Applications d'entreprise

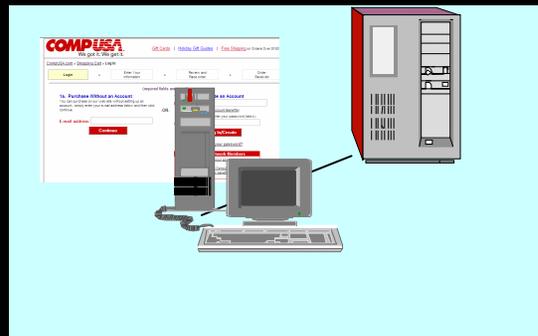

Applications conçues et construites par les départements IT

Mainframe World

60's-80's

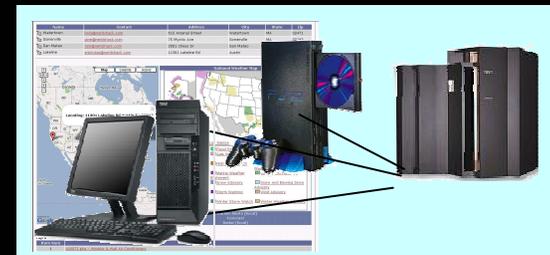

Applications prototypées par LOBs, puis réécrites par départements IT

Client-Server World

90's-00

Applications construites par LOBs et end-users, par adaptation et agrégation de services

Web Services Enabled World

00-10's

Temps

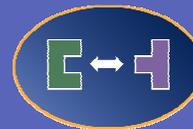

Traditionnel (Transaction)

- Conception – programmation structurée
 - Revues de code
 - Tests fonctionnels
 - Tests de qualité
 - Tests de performance
-
- Quelques grandes applications sur 100x serveurs
 - Plusieurs serveurs par application
-
- Gestion des changements formelle et prudente
 - Evolutions lentes mais changements importants

Modéliser

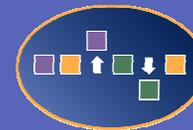

Assembler

Déployer

Gérer

Situationnel (Collaboration)

- Programmation non structurée
 - Peu de discipline
 - Processus de test informel – les premiers utilisateurs testent
-
- Milliers de petites applications sur quelques serveurs
 - Chaque serveur a des centaines d'applications
-
- La gestion des Changements est LE challenge
 - Changements fréquents mais généralement mineurs

Conclusion

Changes Just Beginning

- We believe first ten years (1995-2005) of commercial Internet were a warm up act for what is about to happen
- Opportunities / dislocations will be significant

Morgan Stanley

(Conférence Web 2.0 2005)

Merci

Examples

AMERICAN EXPRESS utilise les feeds Web pour communiquer de manière sécurisée avec ses clients.

IBM Software Group

The screenshot shows a web browser window titled "American Express® Card Center". The address bar contains the URL "http://f.email.americanexpress.com/s/24/268935168/rss_thankyo". The browser's menu bar includes "del.icio.us", "IBM", "Tools", "Home", "Zaldgate", "Friends", "Webworthy", "News", ".Mac", "Finance", "MacStuff", and "Misc.". The page content features a navigation bar with "Cards", "Financial Services", "Travel & Entertainment", "Shopping", and "My American Express". Below this is a sub-navigation bar with "Manage Your Account", "Offers", "Membership Rewards", "More About Your Card", and "Apply for a Card". The main heading is "AMERICAN EXPRESS® RSS". The text on the page includes a thank you message, a list of available RSS feeds (with a note that Gold Card Events are only for Gold Card and Platinum Card members), instructions for viewing feeds in an RSS reader or aggregator, and specific instructions for My Yahoo! users. A section titled "RSS FEEDS" lists a "TRAVEL" feed with the URL "http://www10.americanexpress.com/rss_publishing_ss/pilot/streams/travel_1.xml". A sidebar on the right titled "RSS READERS" provides links for "My Yahoo!" and "Bloglines". At the bottom right of the page, there are buttons for "RSS" and "MY YAHOO!".

RANDY'S JOURNAL

Randy's Journal

[14 March 2006](#)

War of inches

Airplane interiors - now that's a topic that really gets people squirming in their seats!

The [blog](#) we did a couple of weeks back about the so-called "7 inch" difference between the A320 and the 737 turned out to be one of the more controversial topics we've done.

Some people took it quite personally. We've now posted your thoughts on the subject in our [comments](#) section. For example:

"I am convinced that Boeing senior management does not fly their competitor's product in coach class."

Au contraire. As it happens, I just rode back-to-back flights on the 737 and A320 during my recent trip to Australia. I flew on Virgin Blue, on a Next-Generation 737. And I also flew on a Jetstar A320. They were both in an all-economy six abreast seating configuration. And quite frankly there was not much difference.

But I'm not trying to convince anybody one way or another, or trying to say

[Home](#)

[About Randy](#)

[Leave a comment](#)

[View Comments](#)

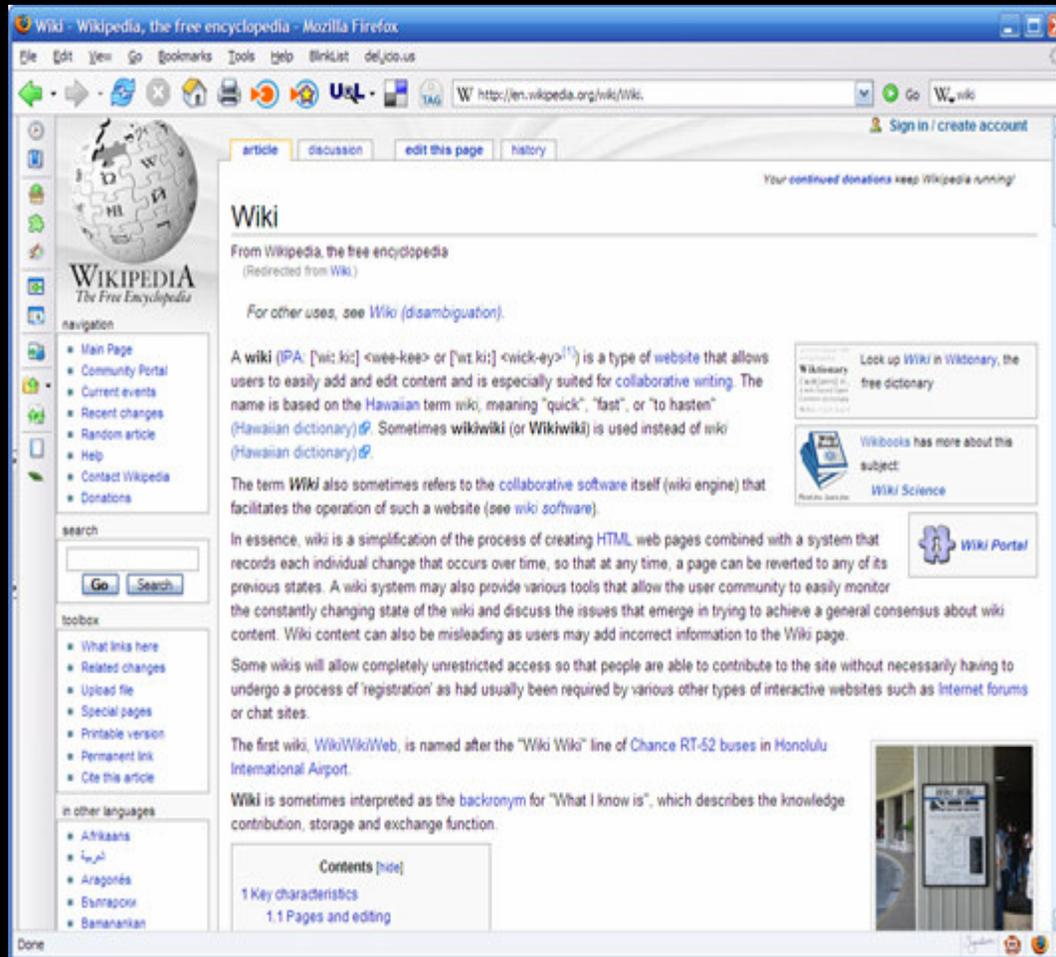

[Guidelines](#)

Open "http://www.boeing.com/randy/" in a new tab

- Blog = "weblogs"
- Système de journal personnel
- Centré sur la création de contenu et non pas sur la technologie
- Fonctions natives de connexion aux personnes, idées, sites Webs et autres Blogs
- Génère des flux RSS

WikiMedia : du “One to many” au “Many to Many”

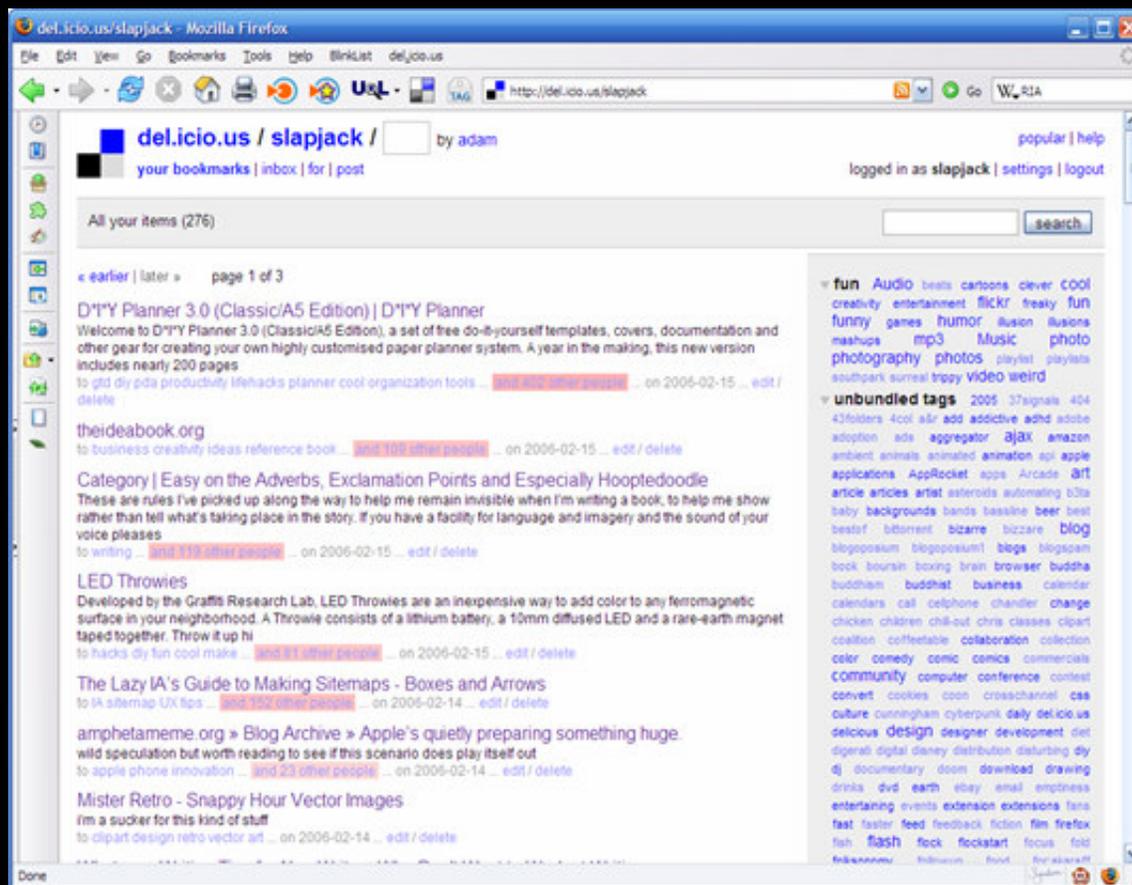

- “What I Know Is...”
- Environment de création de contenu collaboratif
- “Facilité” de création, édition, partage de pages d’information
- Partage d’information pour des équipes distribuées

EXEMPLE: TAGGING

Contrairement aux moteurs de recherche et aux taxonomies au vocabulaire contrôlé, le "Tagging Social" (folksonomies) permet de catégoriser rechercher, découvrir, et collaborer

- Metadonnées définies et partagées par les utilisateurs
- Recherche de contenu sans aucun algorithme
- Intégré à flux RSS/XML
- Outils de découverte de :
 - Connaissance partagée
 - Nouveaux thèmes
 - Réseaux d'experts

EXEMPLE: RESEAUX SOCIAUX

Les réseaux sociaux connectent des personnes déjà en relation et leur permettent d'étendre leurs réseau personnel grâce à des communautés étendues partageant un intérêt commun.

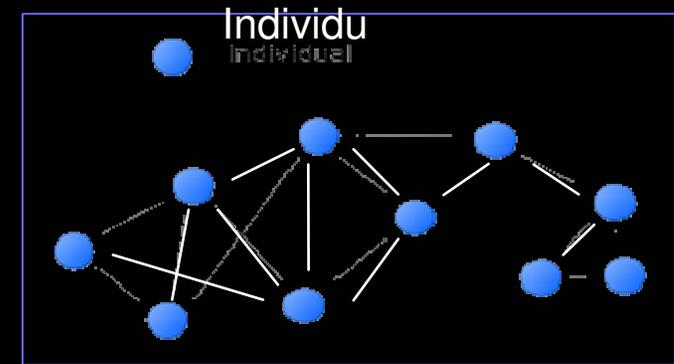

Diagramme Réseau Social

Autres exemples

EXEMPLE: RICH USER INTERFACE

Les technologies Web 2.0 d'interface riche offrent une excellente ergonomie, un accès universel, et un lien renforcé avec l'utilisateur.

The screenshot displays a rich web interface with several widgets:

- Kelkoo : psp**: A list of PSP products with prices and 'See offer' links.
 - PSP at 2xmoinscher: 189,00 €
 - La console PSP Base de SONY. at Les 3 Suisses: 199,98 €
 - Console Sony PSP Base Pack at alapage.com: 199,99 €
 - PSP Media Manager (logiciel de conversion) + câble USB 2 at alapage.com: 19,90 €
- Web Search - Netvibes**: A search bar with 'Netvibes' entered and a 'Search' button. Below are search engine tabs (Google, Yahoo!, Live, Snap) and a list of search results for 'Netvibes'.
- Alexa Traffic**: A line chart showing page views for ebay.com, amazon.com, youtube.com, and mspace.com from Sep 25 to Oct 1, 2006. The y-axis ranges from 0 to 20,000.
- TechCrunch (7)**: A list of news items including 'StashSpace to Take Full-length Online Video Editing to the Masses', 'MovieTally: Netflix's Missing Features', etc.
- The News is NowPublic (7)**: A list of news items including 'Elephant ruins honeymoon killing husband', 'Is It Possible For A Draft-Dodger To Be A Patriot?', etc.

- Le WEB comme Plateforme
- AJAX, Flex, Flash, Laszlo
- XML pour transférer des données en asynchrone
- Environnement similaire au "desktop" au sein du navigateur Web

EXEMPLE - PODCASTS

Le Podcasting permet aux utilisateurs de créer et distribuer du contenu Rich Media sans aucune barrière de coût.

The screenshot shows the iTunes application window. The search bar contains 'Fidelity'. The selected podcast is 'Fidelity Investments Podcast Series' by 'Fidelity Registered Investment Advisor Group'. The interface displays a podcast description, customer reviews (average rating of 5 stars), and a list of 7 episodes. The episodes list includes titles like 'Complete Technology in Practice', 'What's Keeping Advisors Up At Night', and 'Virtual-Office Tools for a High-Margin Advisor CHANNEL: The Next Generation'.

“You cannot help but be overwhelmed by Mont Saint Michel’s dominance and size as you head towards it!”

Tags

We wake up in our farmhouse with views across the paddocks and trees, right across to the bay and out to Saint Michel. After a quick shower, pack-up, breakfast of hot croissants, breads, local spreads, cheeses, fruits and coffee followed by a vigorous kick of the soccer ball in the paddock and a hug from Helene, our host drive off. This was such a wonderful stay and memory, and Helene and Billy became great friends.
