### Introduction

VIVOTEK provides the ST7501 Central Management Software. featuring reliable recording, easy system management, and great scalability for diverse IP surveillance applications. With the server/client architecture, users can carry out remote management on a large-scale system and benefit from a robust IP surveillance system.

ST7501 allows users to use their own logo, language, images, sounds, and cursors in the ST7501 program.

In this document, we will illustrate an example of how to insert your own logo before or after installing ST7501.

4

## 1. How Do I Change the Logo in ST750 After

### Installation?

### A. Finding the logo location

1. The image files are located in your installation path. The default path is:

LiveClient: C:\Program Files\Vivotek Inc\ST7501\Client\LiveClient\image\VIVOTEK Logo\_3.gif (and bg\_video\_cell\_default.jpg)

Application Note

### B. Replacing with the new logos

1. Replace these files with your own image using the following formats:

Name:	VIVOTEK Logo_3.gif	bg_video_cell_default.jpg
Resolution:	151 x 105	640 x 480
Image Format:	GIF	JPEG

2. Launch the LiveClient or Playback programs and the new icons will be displayed.

# 2. How to Change the Logos in ST7501 Before

### Installation

### A. Prepare a new folder named "Customized"

- 1. Please create a new folder named "Customized".
- 2. Place this folder in the same folder as ST7501\_Setup.exe (please refer to picture below)

### B. Place the image in the Customized folder

1. Add a folder named "image" under the Customized folder and add the logos to it.

2. Make sure that the logo name is the same as the original and is of the following format:

Name:	VIVOTEK Logo_3.gif	bg_video_cell_default.jpg
Resolution:	151 x 105	640 x 480
Image Format:	GIF	JPEG

|--|--|

### C. Checking the new logos

2. You can now execute the installer (ST7501.exe). After installation, launch the LiveClient or Playback program and your new logos will be shown in the following locations.

### 3. How to Change Other Default Files Before

### Installation

As an example, if you would like to add a language file before installation, please refer to the following steps:

### A. Create a folder named "language"

1. Please add a folder named "language" under the "Customized" directory (Note: customized must be placed in the same folder as ST7501\_Setup.exe)

### B. Others

Following the procedures above, the user can add any folders and files in the "**Customized**" folder and the installer will install them into

C:\Program Files\Vivotek Inc\ST7501\Client\LiveClient\ and

4

C:\Program Files\Vivotek Inc\ST7501\Client\Playback\

Note: Please refer to picture-1 and picture-2 below for sample folders that you can add to the Customized folder. (Remember to set the same file folder name)
