

# **IBM** Agreement for Licensed Internal Code

You accept the terms of this IBM Agreement for Licensed Internal Code ("Agreement") by your initial use of a machine that contains IBM Licensed Internal Code ("LIC"). These terms apply to LIC used by certain machines that IBM or your authorized IBM reseller specifies ("Specific Machines").

LIC is microcode, basic input/output system code (called "BIOS"), utility programs, device drivers, diagnostics, and any other code delivered with an IBM machine for the purpose of enabling the machine's specified function(s). LIC does not include programs and code provided under separate license agreements, including but not limited to open source license agreements.

The term "Specific Machine" also includes any of the Specific Machine's features, conversions, upgrades, elements or accessories, or any combination of them. A Specific Machine may include computing resources or capabilities that are to remain inactive, or whose use is restricted, until the right to access and use the resources or capabilities is properly acquired for the Specific Machine directly from IBM or through an authorized IBM reseller (called "Built-in-Capacity"). Examples of such computing resources and capabilities include but are not limited to processors, memory, storage, processing capacity identified as interactive processing capacity, and workload-specific resources or capabilities (such as a specific operating system, programming language or application to which use of the machine is limited).

International Business Machines Corporation or one of its subsidiaries (collectively "IBM") owns copyrights in LIC or has the right to license LIC. IBM or a third party owns all copies of LIC, including all copies made from them. IBM licenses LIC to only one rightful possessor at a time.

If you are the rightful possessor of a Specific Machine, IBM grants you a nonexclusive license to use LIC (or any replacement IBM provides) on, or in conjunction with, only the Specific Machine for which IBM provided it, and only to the extent of IBM authorizations you have acquired for access to and use of Built-in-Capacity. If your use of Built-in-Capacity exceeds the IBM authorizations you have acquired for the Specific Machine, you agree to pay IBM or (if applicable) an authorized IBM reseller the full price of permanent, unrestricted use of the Built-in-Capacity at the then current price. You are not authorized to use such Built-in-Capacity until such payment is made.

Under each license, IBM authorizes you to do only the following:

1. execute LIC to enable the Specific Machine to function according to its Official Published Specifications (called "Specifications");
2. use only the Built-in-Capacity properly acquired for the Specific Machine directly from IBM or through an authorized IBM reseller;
3. make a reasonable number of copies of LIC to be used solely for backup or archival purposes, provided you reproduce the copyright notice and any other legend of ownership on any such copies. You may use the copies only to replace the original, when necessary; and
4. execute and display LIC as necessary to maintain the Specific Machine.

You agree to acquire any replacement for, or additional copy of, LIC directly from IBM in accordance with IBM's standard policies and practices. You also agree to use that LIC under these terms.

You may transfer possession of LIC and its media to another party only with the transfer of the Specific Machine on which that LIC is authorized. If you do so, you agree to 1) destroy all your copies of that LIC that were not provided by IBM, 2) either give the other party all your IBM-provided copies of LIC or destroy them, and 3) give the other party a copy of these terms and provide all user documentation to that party. IBM licenses the other party to use LIC when that party accepts the terms of this Agreement. These terms apply to all LIC you acquire from any source.

Your license for LIC terminates when you no longer rightfully possess the associated Specific Machine.

No other rights are granted under this license.

You agree to use LIC only as authorized above. You may not do, for example, any of the following:

1. otherwise copy, display, transfer, adapt, modify, or distribute (electronically or otherwise) LIC, except as IBM may authorize in the Specific Machine's Specifications or in writing to you;
2. reverse assemble, reverse compile, or otherwise translate LIC unless expressly permitted by applicable law without the possibility of contractual waiver;
3. sublicense or assign the license for LIC; or
4. lease LIC or any copy of it.

Built-in-Capacity is protected by certain technological measures in LIC. You agree to IBM's implementation of such technological measures to protect Built-in-Capacity, including measures that may impact availability of data or performance of your Specific Machine. As a condition of your license to use LIC under this Agreement, you may not circumvent such technological measures, or use a third party or third party product to do so, or otherwise access or use unauthorized Built-in-Capacity. In the event IBM determines that changes are necessary to the technological measures designed to limit access to, or use of, Built-in-Capacity to that which has been authorized, IBM may provide you with changes to such technological measures. As a condition of your license to use LIC under this Agreement, you agree, at IBM's option, to apply or allow IBM to apply such changes.

If you obtained LIC directly from IBM and an IBM Customer Agreement or equivalent agreement is in effect between you and IBM ("ICA"), then the terms of this Agreement are incorporated by reference into that ICA. If no ICA is in effect, or if you obtained LIC from an authorized IBM reseller or other third party, then the terms of IBM's Statement of Limited Warranty are incorporated into this Agreement by reference and apply to any questions or claims regarding warranty, liability, governing law or jurisdiction for LIC.

If there is a conflict between the terms of this Agreement and those of the ICA or those of IBM's Statement of Limited Warranty, as applicable, the terms of this Agreement prevail, but only to the extent of such conflict.
